

We are beginning to make some improvements upon the Democrat, and expect to continue them until our patrons discover that their substantial cooperation is not only desired, but deserved.

After next week we shall discontinue sending the Democrat to such of our subscribers out of the county as have failed to renew their subscriptions, unless they at least let us know that they are in the land of the living.

The Baker family gave one of their excellent concerts in this place on Monday evening last. Being well-known here, they drew out a full house of our music-loving citizens; which they will always do, so long as they sustain their old and deserved popularity.

Will not the school directors of this county turn out to a man, and take part in the election of Superintendent on the 7th? We trust that the one elected will not only be the choice of a majority of those present, but of all the directors in the county. Let no one stay away because he gets no pay for attendance, for an acceptance of the office constitutes an obligation to attend to all its duties; however undesirable they may be.

We publish the first weeks' proceedings of the Charleston Convention this week, in as condensed form as possible, and give an outline of the business. Most of the time, as usual, is spent in making speeches, some of which are pretty gassy; and some of the hired reporters seem to be at strife in contradicting and out-laying each other. Our report is as reliable as we could make out. We advise the public to suspend their anxiety, take little notice of the opposition reports, and await the result.

On Monday, owing to some disagreement on the adoption of a platform, nine or ten Southern States are reported to have left the convention; but it is said that the chairman of the delegations made the announcements without full authority to do so. It is reported that there is a prospect of two nominees, but we cannot judge correctly of the probability, from the telegraphic reports. No halting for candidates has yet been had. We entertain no fears of a disastrous result.

CONGRESSIONAL INVESTIGATIONS. The fate of appointing Committees in Congress to investigate various matters, and especially the use of money to control elections, has been played out. The Covode and other Republican committees meet to take testimony in some secret chamber, were honest men, or those attempted to be injured are not permitted to appear in self-defense. Most of the "evidence," it happens, appears in some of the New York papers a day or two before the witness is examined. From this it appears that Covode makes up about such yarns as he wants, and then hunts up some one who is willing to let his name be used as the author. So far as using money is concerned, the Republican committees have made some developments which they wish to say but little about. They found, what was before known; that about \$30,000 were raised in New York, in 1856, to be used to pay election expenses in Pennsylvania—to buy documents, and diffuse correct intelligence and doctrines among the people, etc. This money was traced into the hands of J. W. Forney, and here the committee suddenly dropped the matter. Why was this? Properly because Forney is now one of their allies, and partly because Forney cannot show, and dare not tell what he did with the money? We believe that Forney used most of it for his own purposes—to start a filibuster newspaper, and to get elected Clerk by the Black Republicans. Why do they not ask Forney to tell whether that money was used for the Democratic party; and whether legitimately or corruptly? They dare not; so to screen themselves and their ally they "smother investigation." What base!

But exposing Forney is not all, nor the worst, for himself and his party, that Covode, with his smiling committee, has done. John Covode has had the undeniable truth thrown into his teeth; that he was the agent to disburse \$100,000 for Fremont in this State, in 1851! To what honest use could so large a sum of money be applied? Let Covode tell what he did with that money—whether he used it all honestly (an improbability) or corruptly, or whether he put it in his own pocket. Let them also ask Tom Ford what he did with the \$20,000 raised in Ohio. It was alleged that it was used to convince certain editors that it was to their interest to drop Fillmore, and support Fremont. Certain it is that several changed front very suddenly; and until Ford tells how he used his fund, it will be believed that they were bribed. Ford has just been elected House Printer under a bargain to use half the proceeds for Republican party purposes.

Now if the Republicans have the least desire to investigate, let them call on these three beauties—Forney, Covode, and Ford. If they do not, the public must believe that they are perpetrating a farce for political effect.

REPUBLICAN MOB LAW.

The practical disunion doctrine of Republicanism becomes more fully developed every day. Resistance to law has now become their characteristic.

The U. S. Deputy Marshal arrested at Troy, last week, a colored man named Charles Yale, who was a fugitive from B. W. Hamborough, of Calpepper county, Virginia. He was brought before U. S. Commissioner Beach, and being identified, was remanded to the owner. Judge Gould issued a writ of habeas corpus to bring the fugitive before him. The writ was served, when a crowd of about a thousand persons gathered and took him forcibly from the officers. The crowd carried the fugitive to the river; he was rowed across, and after being landed was again arrested by a West Troy constable. Another crowd interfered, rescued the fugitive, and carried him off in a carriage. Pistols were used, but no one seriously hurt.

Are not such practices a full endorsement of one of the fanatics' declarations that the Constitution is an agreement with death, and a covenant with hell?

News Items.

No less than twenty-seven Black Republican members of Congress now represent their constituents, according to the last election returns in their districts. The members were elected in 1858, but since that election has set in, and the party which chose them has become a minority.

Gen. Cass, now in his 78th year is said to have never tasted any kind of intoxicating liquor.

Leint. Wise of the navy, son of the Governor of Virginia, and son-in-law of Edward Everett, is a regular contributor to Harpers Weekly.

Harrisburg, April 19.—A car passed through on the Pennsylvania Railroad direct from St. Louis for Philadelphia with produce.

The slavery question was still under discussion in the Methodist Episcopal conference, in session at New York, on Sunday last. Rev. Mr. Wakely said he had been an anti-slavery man ever since he knew what slavery was, but when he saw that the course of the anti-slavery man was to rule or ruin, he felt constrained to remove his countenance from it.

The recent License law, passed in the Legislature, refers only to Philadelphia, and not to the whole State.

At the recent trial between Governor Bliss and Dr. Stone, of Oregon, six hundred persons were present. At the first trial Dr. Stone fell to the ground, supposed to be mortally wounded, the ball of his opponent entering the left thigh and passing through his entire body.

On Tuesday, April 25.—John S. Robinson, Chairman of the Vermont delegation, died of apoplexy this morning.

At Stratford, April 26.—The *Monaug Herald* office was attacked last night by a dozen persons from the neighboring town of Dunmore, and the editor and his men were severely handled. The difficulty grew from the exposure made by the *Herald* of a gambling house in Dunmore.

The New American Cyclopaedia is popular without being superficial, based on scientific, comprehensive but sufficiently detailed, free from personal pique and party prejudice, fresh yet accurate. It is a complete statement of all that is known upon every important topic of all that is published in the most important articles in it has been especially written for its pages by men who are authorities upon the topics of which they speak. They are required to bring subject up to the present moment, to state just how it stands now. All the statistical information is from the latest reports; the geographical accounts keep pace with the latest explorations; historical matter is given, as well as views; the biographical notices not only speak of the men, but of the living. It is a library in itself.

ARRANGEMENT OF THE DEBATES OF CONGRESS: Being a political history of the United States Congress in 1859. Edited by Hon. Thomas H. Benton from the Official Records of Congress. This work will be completed in 19 royal octavo volumes of 750 pages each, 11 of which are now ready. An additional volume will be published in the month of May. Cloth, \$3; half sheep, \$3.50; half morocco, \$4; half Russia, \$4.50 each.

NEW GOODS!

AT THE N. Y. BRANCH STORES OF

Guttenberg, Rosenbaum, & Co.,

Montrose, & Susa's Depot, Pa.

THE undersigned have provided themselves with a

SPLENDID ASSORTMENT

of

PALE AND WINTER GOODS

which they boast of being the

HANDSOMEST AND CHEAPEST

in this section of country.

They also flatter themselves that they have the best facilities of obtaining

Goods Fresh from the Market,

and are determined not to be undersold by any firm this side of N. Y. City. In regard to

READY MADE CLOTHING

we would say that being in this business largely at

24 Dey Street, New York City

we can offer the public bargains not surpassed by any retail dealer in this section, as we can sell here at retail prices as cheap as those who go to New York and purchase at wholesale and return to their homes to make a profit over that which they have already paid themselves. Call and see us and we will prove the facts.

BEACH'S NEW PATENT

WHEEL HORSE RAKE!

FOR RAKING HAY AND GRASS is pro-

found by GOOD JUDGES to be the

NEAREST RIGHT OF ANY IN USE. Some

of the advantages of this Rake are that

the workman occupies a comfortable seat while

working, instead of having to stoop, and that its

construction is so simple that any part of it may

readily be taken apart and put together again.

Four bolts are all the blacksmith work required.

Persons, please call and examine for yourselves.

Larger wheels will be taken for the sake of the

right kind and fetched in time. None but those

ordered will be made at present.

This machine was invented by the subscriber

who resides 1-1/2 miles North of Montrose, on

the Snake Creek. L. LORENZO BEACH,

Montrose, April 24th, 1860.

When we hear a man speaking a

word in a gentle tone, and in reply,

laugh, soft, low and delicious. It was

laugh such as a woman sometimes re-

ports in a man's factory with—there was nothing

ghostly in it.
