BIGUS, REPUBLICAN VOTERS.

But, to come nearer home, we find a like state of facts in our own county. Here the proportion of gain is over three to one in favor of the Republicans, and that, too, when the Democratic party was never better organized. Over ten thousand votes were polled in Westmoreland, when it is patent to everybody that there are not that number of voters in this county. Utterly refusing any "material aid," as compensation for his services, we deem it proper and just, to make a public acknowldgement of the favor received.

Permit me to make a few suggestions to those who may speak to us hereafter .-That style of public speaking, known in popular parlance as" hifalutin," or "highfulution," is at a heavy discount in this community-and perhaps, "spread-eagle cloquence" may not meet a proper appreciation-but strong common sense, and sound reasoning is, taken ever at a premium. Tis true-

"A little nonsense now and then, Is relished by the be tof men."

But let the case be sense. Tell us what you know-if you know anything musical, that would be pertinent to the subject and occasion, let's have it. But old stags, by Asa Dix, and a pair of two second or third rate newspaper wit and alyears old, by H.M Wells, were very fine manae stories we can read at our leisure.

Sadly, as well as wisely, did Milton write, "We do amiss to spend seven or eight years merely in scraping together as much Latin and Greek as might be learned easily and delightfully in one year." John Lock, Syd

Common Sense rules the mass of the people, what ever the misanucd and misanthropic philosopher may say to the contrary. Show them a good thing: let its merits be clearly demonstrated, and they will not hesitate to give it their most cordial patronage. The masses have already ratified judgment of a physician, concerning the virtness of Hoatstrary's Birtrars, as may be seen in the immense quantities of this medicine that are annually sold in every section of the land. It is now recognized as greatly superior to all other remedies yet devised for diseases of the digestive organs, such as diarrhea, dysentery, dispopsia, and for the various fevers that arise from derangement of those portions of the system.
