HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease, which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified ander two names, viz: Symptomatic and Idiopathië. Symptomatic Headache is exceedingly common and is the pre-cursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting billious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headiaces; Anemia and plethora are also affect ons which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly. heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front part of the head, over one or both eyes, and sometimes, provoking vomiting; under this class may also be named Neuralgia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the unerring

Constipation or Costiveness. No one of the "many ills flesh is heir to'

16 so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too.little consequence to excite anxiety; while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature. while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhœa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dangerous foe to human life.

By the use of these Pills the periodicattacks of Nerrous or Sick Headacks may be prevented; and if taken at the ommencement of an attack, immediate relief from pain They seldom fall in removing the Nauses and Hendache

The CEPHALIC PILLS are the result of long investi gation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the nerrous system or from a deranged state of the stomach. They are entirely 'vegetable in their composition, and

may be taken at all times with perfect safety without mak ing any change of diet, and the absence of any disagreed sarie renders it easy to administer them to children.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation theretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The co-sumption of Hostetter's Stomach Bitter for the last two streets and control of the last two streets are streets. ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent presidents in these sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements could never have been sold but for the rare cheary in all cases of stomachic derangements and the diseases resulting therefrom.

? This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destination of an invaluante meeting, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a findscad to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsis and like

diseases, is to the proprietors a source of un-alloyed bleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renowed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as

well as certain to give a permanent increase well as certain to give a permanent increase of bodily strength.

All those persons; to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhosa, dyentery; indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary combaction, and survive suchers. "Ill consult of the stomach, and the stomach, and the stomach, and survive survives and several consultations." ceripation; and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against nsing any of the many initiations or counter-feits, but ask for Hostetten's Celebraten STORAGE BITTERS, and see that each bottle has the words "Dr. J. We call the attention of the reader to the following letter from President Smith, formerly of Wesleyan University, and now of Annapolis, Md.

MIDDLETOWN, Conn., Feb. 25, 1859. SETH W. FOWLE & Co. - Gentlemen: - I first made use of the Orygenated Bitters some seven of eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use."

The use of one bottle warranted a further trial, to the estent of some three of four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspensia. as most persons. White of Mausfield, to give the Orygeneted Bitters a trial. I took two bottles, which gave me so much relief that I purchased two more, which have nearly or quite effected a cure. I am now nearly seventy-five years of age, and for three I take great pleasure in recommending the Bitters to all afflicted with Dyspepsia and its conc

the obstructions, which make disease. A cold settler somewhere in the body, and obstructs its natural functions. These, if hot relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the deringements, take Aver's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also tue in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Cansed by similar obstructions and derangement of the natural functions of the body, they are rapidly, and many of them sarely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when shifering from the disorders they care.

Sixtements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1850. Dr. Aver: Your Pills are the paragon of all that is great in medicine. Her mother has been long grierously afflicted with blotches and pimples on her skin and in her hair. After our child was cared, she also tried your Pills, and they have cared her.

A cold settled in mylimbs and brought on excruciating neuralgic pains, which ended in chronic rheumotism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the salvice of your excellent agent in Baltimore, Dr. Mackennic, I tried your Pills. Their effects were slow, but sure. By porsevering in the use of them, I am now entirely well.

Billous Disorders — Liver Complaints.

From Dr. Theodore Bell., of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthly the confidence of the profession and the people.

Sitt: I have used your Pills if my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathartie we can ploy. Their regulating action on the liver is qaick and steeded, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disears so obstinate that the distort readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Constipation Costiveness, Suppression, Rheumatism, Gout, Reuralgia, Dropsy, Parelysis, Fits, etc.

From Dr. J. P. Vaughn Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiceness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although had enough in itself, is the progenitor of others that saw ware. I believe estimeness to originate in the liver, but your Pills affect that organ and cure the disease.
