THE AMALDANATION OF LANGUAGES. There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying " for the head," is now becom-ing popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype andmany others whose distinction as foreign words has been worn' away by common usage until they seem ,' native to the manor born."

Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the pre-cursor of a great-variety of discases, among which are Apoplexy, Gout, Rhen-matism and all febrile discases. In its nervous form it is symptomatic of discases nervous form it is sympathetic of disease

of the stomach constituting sick headache, of hepatic discase constituting billious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headiaces; Anæmia and plethora are also affect ons which frequently occasion headache. Idiopathic Headache is also very

common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in 'a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front part of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralgia.

Constipation or Costiveness. No one of the "many ills flesh is heir to" 15 so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dys, entary, Diarrhoa, Dyspepsia, Apoplexy,

Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first in-this alarming symptom. Not unfequently the diseases named originate in Constipation, but take on an independent existence unless the cause is cradicated in an early stage. From all these consider-ations it follows that the disorder should receive immediate attention whenever i occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insidious approaches of disease and destroy this dan-

gerous foe to human life.

STOMACH BITTERS. The proprietors and manufacturers of HOS-

physicians and citizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts uponthis point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. 9 This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-

peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved

a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge
