Mothers & Daughters. If there is one thing more than another for which these Pills are famous, it is their purifying properties, especially their power of cleansing the blood from all impurities, termoving dangerous and suppended secretions. Universally adopted as the grand remedy for female complaints, they never fail, never weaken the system, and always bring about what is required. Sick Headsche and Want of Appetite.

These feelings which so sadden us, most frequently arise from annoyances or trouble, from perspiration, or from eating and drinking what its unit for us, thus disordering the stomach and liver. These organs must be regulated if you wish to be well. The Pills, if taken according to the printed instructions, will quickly restore a healthy action to both liver and itomach, whence follow as a natural consequence, a good specific and a clear head. In the East and West Indies scarcely any other medicine is ever used for these disorders. DISORDERS OF THE KIDNEYS.

In all diseases affecting these organs, whether they se-crete too much or too little water; or whether they be af-ficted with stone or gravel, or with aches and pains settled in the loins over the regions of the kidneys, these I'ilis should be taken according to the printed directions, and the Ointment' should be well rubbed into the small of the back at bed time. This treatment will give almost imme-ate relief when all other means have falled.

For Stomachs out of Order. No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasiond either by intemperance or improper dict. They reach the liver and reduce it to a healthy action; they never fail in curing all disorders of the liver and stomach. Holloway's Pills are the best remedy known

in the world for the following diseases: Billous Complaints Head-ache,

MIDDLETOWN, Conn., Pcb. 28, 1859. SETH W. POWLE & CO. - Gentlemen: - I, first made use of the Organized Bitters soile seven or cith years since. Having suffered for twenty years from a form of dyspep-la, which was attended with a nervous headache, un an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one bettle, and if no benefit was received to discontinue the use." The me of one botile warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire rollef from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspepsia is must persons. Two years ago it broke out on my head and covered my scalp and cars with one sore, which was painful and locationage beyond description. I tried many mediches and severily invisionally the series of the disorder grew worse. At length I was reduced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made mint be good. I sent to Cincinnait and got it, and used it illil tenred me. I took it, as you advise, in small doses off a terspoonful over a month, and used slunost three bottiles. New and healthy akin soon began to form under the seab, which after a while fell off. My skin is now clear, and I knaw ky my feelings that the slicease is gous from my system. Syphilis and Mercarial Discort.

New Onleant 25th August 1859.

Dr. J. C. Ayen. Sir: I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sairsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the carroof Teneral and Mercarial Disease. One of my patients had Syphilitic ulcery in his throat, which were consuming his points and the top of his mouth. Your Sarsaparilla, steadily taken, cared him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kall him. But it yielded to my administration of your Sarsaparilla; the ulcers hesled, and he is well again, not of course without some disflueration of the face. A woman who had been treated for the same disorder by mercury was saifering from this poison in her bordes. They had become so sensitive to the weather that on a damp lay she endered excurred entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a greet remedy; consequently, these truly remarkable results with it have not surprised me.
