AFFLICTED THISTEEN YEARS, AND CURED IN ONE WEEK.

IN ONE WEEK.

Read letter from Rev. James Temple.

PHILADELPHIA, June 2th. 1835.

Frof. De Grath: I have been stilleted for thirteen years with Neuralgia and other painful complaints, and I have been unable, to sleep soundly or walk any distance formany years past. Last.week I got a bottle of your Electricolil. The first night I slept soundly and well, and today I am like a new man. My wife could not believe her eyer. Your Electric Oil has done in one week what the physicians of Philadelphia falled to do in thirteen years.

Gratefully, yours. Gratefully yours.

Piles, Fisstula, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then most effectually rubbing in the Olintment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Olintment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may taken into the system, whence it will remove any hidden sore or wound as effectually as though palpahle to the eye. There again bread and water poultices, after the rubbing in of the Guntaneau, will do great service. letter from President Smith, formerly of Wesleyan University, and now of Annapolis, Md. MIDDLETOWN, Conn., Feb. 28, 1859. SETH W. FOWLE, & Co. - Gentlemen : - I first made use of the Orygeneted Bitters some seven or eight years since. Daving suffered for twenty years from a form of dyspepsia, which was attended with a nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one bottle, and if

The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of niv-system, and upon the active energies of the directive

Howers. What more delightful pursuit! with shade and fragrance and fruit and flowers. What more delightful pursuit!

Do you think so? Then follow upsuch thoughts with good plans and resolutions. Assuredly, every man's work should proceed according to a plan or else his business will be only half done and poorly done. It should be definitely settled, early in the Spring, that this field should have this kind of treatment and crop, and that the other should be managed so and so. This and that farm building need certain repairs, and they shall have them. I must sell such and such of my stock, and buy such and such.

Jane must go to Miss:—'s High School,
to afford her better advantages for comleting her education. The lumber wagon must no longer serve as a family car riage, because I can afford a better, and self-respect and comfort require that I

should have one. Such and such other things, Providence favoring, shall be the result of this season's endeavors, says the farmer. So the gardner: the small piece of ground committed to me shall not lie idle. In the fruit and vegetable department, I will, this year, attempt some things new, but will hold fast to the old that are known. to be good. My neighbors shall not outdo me in the line of salads, cucumbers, melons, strawberries, raspberries and dwarf pears. My grapes shall have the best of care. The famous Delaware, about which the whole country is debating, has already yielded me a few delicious clusters; this year, if care 'can avail mything, it shall do more. The Concord, Dina, and Rebecca have wintered well;ind I mean that they shall summer well.

Among the newer sorts, I shall venture

only upon the Crevelling and the Cuya-

In the ornamental line, my lawn shall have the first care. Nothing rewards my labor so well as this? My shade trees need a little triming to keep them in good shape; and my hedges must not be forgotten. In May and June I must colarge my collection of evergreens. The flower garden must, by no means, be neglected. The crocuses, now peoping up, will be followed by hyacinths and tulips, and other flowers in long succession. And I must add a little to their number. ' A few novelties among the dablias must be had, also the newer gladioli. Then, there are Japan lilies, scarlet geraniums, petunias, and the like. My neighbor Smith, a zealous amatuer, recommends the Tritoma Uvaria, the Farfugium grande, the double zinnias, and the Gazaria splendens, as among the finest novelties, and I must

have them. So soliloquizes, our garkener, but we need not listen to him any longer. We shall be satisfied if he and the farmer become inspired with new zeal in their callings, on the opening of this Spring's campaign, and if their zeal is crystallized into well formed plans and resolutions .-American Agriculturist

This is a purely rejectable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Rechave. Its reputation at home produced its instalution here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly sconderful molitical virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of artent spirite, or other forms of dissipation. Generally instantaneous in effect, it fluid its way directly to the seat of life, thrilling and quickening every nerve, raing up the drouping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whoever expects to find this a bereauge will be disappointed; but to the sick, weak and low spirited, it will prove a grateful abunatic cordial, nonessed of singular remedial properties.
