THE WONDERS OF THE MICROSCOPE—We understand it is through the agency of this marvel viewing instrument that Dr. Ayers has at length succeeded in finding the PALUDAL MIASM and determining its character. Of its effects have abundant evidence in the FEVER AND AGUE it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor or something in the vapor of water from decayed and decaying vegetation. Under a great magnifying power, the Doctor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with those found in the blood of Ague subjects. They are 13,000 times less than visible to the naked eye, but have distinct character and form.—He thinks they are reproductive in decaying matter or in the blood, and hence their long continued life or the remote effects of them in the system. He maintains that they resemble in character the other fermentative poisons, or such as the virus of rabies or of a dead body, &c., all of which are known to reproduce themselves with great rapidity like yeast in moistened flour, so that the slightest quantity impregnates the whole mass. Yeast through a powerful magnifier is seen to be a forest of vegetation which grows, blossoms, and goes to seed in a short time. Miasm is not so distinctly vegetable but has mere the appearance of animal life, although its motions cannot be perfectly distinguished. What the Doctor claims to have settled is that it is an organic substance and he has further fund and embodies in his "Ague Cure" what will destroy it.—(Leader, St. Louis, Mo.

☞ We saw at the depot yesterday two boxes directed to the Union Guards, of Petersburg, labelled provisions. The motives which prompt such remembrance are noble, but it should be known there is an abundance of everything in that line at Camp Curtin, and if we are rightly informed there is enough to keep a small army wasted there every day.

Mothers, Read This.—The following is an extract from a letter written by the pastor of a Baptist Church to the "Journal and Messenger," Cincinnatti, Ohio. It says volumes in favor of that world-renowned medicine—Mrs. Wrestow's Soothing Syrup for Children Teething:

"We seem an old settlement in your columns of Mrs. Winslow's Soothing Syrup. Now we never said a word in favor of any patent medicine in our life, but we feel compelled to say to our readers that this is no humbug—we HAVE TRIED IT, AND KNOW IT TO BE ALL IT CLAIMS. It is probably one of the most successful medicines of the day, because it is one of the best. Those who have babies can't do better than to buy a supply. dec20 1y

THE undersigned having taken the Rooms formerly occupied by W. B. DEANS, is now prepared to furnish all who may desire with a good and truthful Portrait.

Locket Pictures down to the smallest sized miniature Ring. Transferred Ambrotypes—the finest thing out, for sending by Post to any part of the World without extra postage. No picture need be taken unless perfect satisfaction is given.

In dressing for a picture, avoid light colors,—such as blue, purple, scarlet, pink, etc. Most others take well; as green, black, red, snuff, brown, orange, yellow, etc.

Said company, and their licencees, alone, are legally authorized under their own patents, and my said patent, during the extended term thereof to make and sell this kind of sewing machine, and all others are piracies upon my said patent, and will be dealt with accordingly where ever found.
