Puntabilinia, June 5th, 1805.

Fref De Gaarti: I have been afflicted for thirteen years with Neuralgia and other painful complaints, and I have been unable to sleep soundly or walk any distance for many years past. Last week I got a bottle of your Electric Oil. The first light I slept soundly and well, and today I am like a new man. My wife could not helieve her year. Your Electric Oil has done in one week what the physicians of Philadelphia failed to do in thirteen years.

Grafefully yours.

LL descriptions of sores are remediable by the proposed of the care and diligent use of this inestimable preparation. To attempt to cure had legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with terifold fary in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound, and to soothe the neighboring parts by rubbing in plenty of the Ointment as sail is forced into meat.

Any of the above diseases may be cured by well rubbing the Olintment, three times a day, into the chest, throat and neck of the patient; it will soon penetrate and rive immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Olintment will do its work at once. Whoever tries the unquent in the above manner for the diseases named, or any similar disorders affecting the chest and throat; will find themselves relieved as by a charm.

This above class of complaints will be removed by a nightly fomenting the parts with warm water, and then most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service. Reliable Testimony.

We call the attention of the reader to the following letter from President Smith, formerly of Wesleyan University, and now of Annapolis, Md. MIDDLETOWE, Coun., Feb. 28, 1859.

RETH W. FOWLE & Co. . Gentlemen: - I first made use of the Organized Bitters some seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a nervous beadache, on an average of not less than one emmendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use." The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspensis an most persons. These Bitters have also been of eer-vice to other members of my family.

Very respectfully yours, AUGUSTUS W. SMITH.

I am now nearly seventy-five years of age, and for three I take great pleasure in recommending the Bitters to all afflicted with Dyspepsia and its con

Too must cannot be said of your Pills for the cure of costieness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costieness to originate in the liver, but your Pills affect that organ and cure the disease.
