The New Hampshire Patriot says:

"Eleven years ago John P. Hale begun to introduce petitions in Congress for a dissolution of the Union, and has diligently labored to that end ever since. The result which he and his coadjutors labored for, has come at last.

—The present trouble is likely to dissolve two popular sectional errors, which have long existed. There has been a very general impression at the North that one Northern man can whip three Southern ones, and an equally general impression at the South that the Southern man can whip ten Northern ones. It is very likely that both sections are destined to be mistaken. We are eminently a war like people all over the country, and one man is just as good as another, when used as a stopper for a bullet, or any other man.

—A Mrs. Swartout, living at Baldwinsville, Onondaga Co., eloped last Saturday with a lover enjoying the euphonious name of Solomon Bellows. Bellows was enabled to kindle a flame in the furnace of the frail one's breast, and to induce her to leave her husband, taking with her a portion of his worldly goods. It is said that the unsentimental exclamation of the deserted Swartout when he heard that his wife had gone off with Bellows, was:—"That be blowed!"

The Savannah Republican calls the Northern volunteers a "filthy multitude." Papers North and South, should remember that if soft words butter no parsnips, hard words break no bones.

—Rev. Mr. Beattie, of the Bethel, at Cleveland, Ohio, presented a revolver to one of the soldiers of the Seventh Regiment before his departure, with the following injunction: "If you get in a tight place, and have to use it, ask God's blessing if you have time, but be sure to not let your enemy get the start of you. You can say amen after you shoot".

—Harrisburg, May 15.—The Military bill for creating a loan of three millions for arming the State, was signed by the Governor to-day.

—From Washington we learn that a large train containing troops has passed through Baltimore.

—It is said that New Virginia will be a State establishment, and embrace forty-five counties. The Wheeling Convention is harmonious. Western Virginia has furnished 2,000 troops, who have been sworn in. In Ohio two regiments are ready to assist Wheeling at a moment's notice.

A New Role.—The report that the 12th, 13th and 16th regiments have been cut off by the General Government, has created a great surprise. There must be some mistake in the information. The reason, we are informed, is that these regiments did not signify their instant intention to serve for three years. We do not know where the General Government gets authority to increase the regular army and navy or call volunteers for three years. The President has the clearest right to call as many volunteers as he deems necessary, for three months, but beyond that the matter must be referred to Congress. We have no doubt he will be sustained in any demand he may make, but are our volunteers who promptly respond to the original call for three months to be disgraced because they hesitate about assuming a different service? We do not understand this turn of affairs.—*Pittsburg Post*—war paper.

Cowards.—In the sudden shock of war which has burst upon us like a clap of thunder from a clear sky, it is natural that the true instincts of men will be shown out. The true patriot will stand firmly by his post of duty, and lend the Government all the aid in his power to prosecute the war until it can be brought to an honorable termination. The real hero will wheel into the ranks and prepare to meet the enemy in deadly combat. But cowards may be known by their sneaking around and threatening violence against their neighbors who may chance to differ with them in opinion. Therefore, when men are heard applying the term "traitor" to better patriots than they dare claim to be or talking about mobbing people for simply expressing opinions in regard to matters of policy, it is positive evidence that they are afraid to volunteer, and wish to make a display of patriotism by blowing around home and threatening mob violence. Let all such bipeds be "spotted" as cowards.

A War for Abolition.—We look upon this war between the North and the South as one virtually waged for the abolition of slavery, and believe that it will be seen clearly by the future historians to have been a main instrument of that blessed deliverance, however ignorant of the fact, or unwilling to believe it, may be the mass of the men who direct or execute its operations.—Anti-Slavery Standard.

Mothers, Read This.—The following is an extract from a letter written by the pastor of a Baptist Church to the "Journal and Messenger," Cincinnatti, Ohio. It says volumes in favor of that world-renowned medicine—Mrs. Winslow's Soothing Syrup for Children Teething:

"We see an advertisement in your columns of Mrs. Winslow's Soothing Syrup. Now we never said a word in favor of any patent medicine in our life, but we feel compelled to say to your readers that this is no humbug—we have tried it, and know it to be all it claims. It is probably one of the most successful medicines of the day, because it is one of the best. Those who have babies cant do better than to lay in a supply. dec20 y

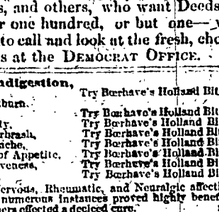
GROVER & BAKER'S



CELEBRATED NOISELESS
SEWING MACHINES,
FOR FAMILY AND MANUFACTURING USE,
495 Broadway, New-York.
Agencies in all the principal Cities and Towns in the United States.

The Grover & Baker Sewing Machine Company are now manufacturing, and have on exhibition at their different saleserooms, machines making the Shuttle or Lock Stitch, of the same patterns and at the same prices as their celebrated Grover & Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the the leading machines and exercising their own judgment as to their respective merits. This is the only company that manufactures both kinds of machines and therefore the only one that can offer this privilege to the purchaser

We speak from experience when we say that, after having tried all the principal sewing machines, we must account to that of Grover & Baker the pre-eminence.

Those indispensable features of sewing, strength, uniformity, and elasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—*N. Y. Christian Advocate and Journal.*

Merit vs. Pretence.—We perceive that the Grover & Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes—but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and counseling with committees at annual fairs, have been thrust forward into the first place; but they are fast losing this unmerited position. The real merits of the Grover & Baker Machine, are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionately decreasing. So it turns out in this, as in many other instances, that 'honesty is the best policy,' and the right, in the end, comes uppermost.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general Family use than Grover & Baker's Sewing Machine Co. It makes a beautiful elastic stitch that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and wilks directly from the spools on which they are bought."—*N. Y. Leader.*

Grover & Baker's Machines' work, in their peculiar stitch, and fabrics put together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.—*N. Y. News.*

"The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker, viz.: extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability and regularity of stitch and quickness of movement. We therefore make award to the Grover & Baker."—*Report of Committee of Tennessee State Fair of 1860—also of St. Louis State Fair of 1860.*

PORTRAITS, PORTRAITS!

NEW ARRANGEMENTS IN THE
BRICK BLOCK.

THE undersigned having taken the Rooms formerly occupied by W. B. DEANS, is now prepared to furnish all who may desire with a good and truthful Portrait.

Being well posted in the production of the various kinds of Pictures of the day, I may safely say my work is not excelled by any in this section of the country.

Among the various kinds taken at my Rooms are the
AMBROTYPE, PHOTOGRAPH,
MELAINOTYPE, NEILLOGRAPH.

Locket Pictures down to the smallest sized miniature Ring. Transferred Ambrotypes—the finest thing out, for sending by Post to any part of the World without extra postage. My Pictures are bold, vigorous, and expressive—not those faint, lifeless shadows often sold about the country. Pictures taken in all kinds of weather, equally well, except those of young children. No picture need be taken unless perfect satisfaction is given.

In dressing for a picture, avoid light colors,—such as blue, purple, scarlet, pink, etc. Most others take well; as green, black, red, snuff, brown, orange, yellow, etc.

☞ Remember that the place to get your "picture" is in the Brick Block, over Read, Watrous & Foster's store.
