Wanton Destruction by Soldiers. Of all that had been said in commendation of Gen. Butler, nothing reflects more to his credit than his prompt reprobation of disorderly and destructive acts by those under his command. His arrest of Col. Allen on this ground shows that he intends to conduct the war so far as his jurisdiction extends on high and honorable grounds. This much at least is in disproof of the slur of the Eagle, "that he possesses none of the energy required of an officer of his position."

Mr. Raymond of the N. Y. Times writing from Fortress Monroe, assignst following reasons for Gen. Butler's course

'Col. Allen's arrest has given general satisfaction, and has encouraged the hope in the minds of those who have the honor of our troops at heart that some check will at last be put upon their reckless and disgraceful conduct. But whenever the matter is mentioned it is generally followed by the remark that nothing will be done with him—that the arrest is merely a matter of form and that no matter how clear his guilt he will not be punished .- I hope these predictions will prove to be unfounded. I would not do Col. Allen injustice, by prejudging his case; but if he is guilty of the offences laid to his charge, I trust he will be deprived of his command sent home in disgrace. Unless universal report is untrue, his men have been guilty of outrages upon private pro-perty and personal rights in this vicinity, which reflect indelible disgrace upon them as citizens of New York and as troops of the United States. They have entered private houses which had been deserted and shut up by their owners, and destroyed from sheer wantonness the furniture which they contained. T have heard of elegant piannos broken in peices—boxes containing libraries broken open and the books scattered about—chairs and sofas cut pictures defaced mirrors which reflect indelible disgrace upon them as citizens of New York and as and sofas cut pictures defaced mirrors broken and other outrages perpetrated more worthy of sayages than of soldiers drawn from the ranks of city life. It is said that Colonel Allen has done nothing to check these disgraceful excesses—but that on the contrary, hesereens them from blame, and encourages and even aids these acts of wanton destruction.—His burning of the wheat cut and stacked in and sofas cut pictures defaced mirrors burning of the wheat cut and stacked in the field because he believed it to be owned by a secessionist and his arrest of the six men working upon it in spite of his own safe conduct which they had upon them as an instance of the reckless disregard of all rights and of ordinary decency which is said to be habitual with him.

Board of Relief.—Notice is hereby given, that the Board of Relief, composed of the Associate Judges and County Commissioners, will meet at the Commissioners' office. In Montrose, in Montrose, in Montrose, July 1st, 1861, at two clock, p. m., and on the first Monday of each month thereafter to receive applications and make appropriations for the relief of Volunteers and their families, under the provisions of an Act, entitled "An Act to create a Loan and to provide for arming the State, approved May 15,1861. burning of the wheat cut and stacked in which is said to be habitual with him.

Reports from various parts of the country indicate that the crops generally, promise well; but prices will be low, An lowa paper quotes potatoes at two cents BACK, of Anamosa, Iowa, and Miss LAURA per bushel, wheat thirty cents, corn eight M. Welch, of Franklin. cents, butter seven cents per pound, eggs pound and dull at that.

In Northern Illinois, potatoes of last FIRLD, of Middletown. year's crop sound and nice are given away for cost of transportation. One farmer in Whiteside county has thrown five hundred bushels of fine potatoes out One of the other One of the potatoes out One of the potatoes out One of the other One o to the weather, as no one would take them for cost of transportation. .

The St. Louis Republican, speaks of the depressing effects of the war, says :- 'In this market potatoes cannot be given away at six cents per bushel; corn of the new crop will go down to ten cents, if it can be sold at all! bats will be worth nothing; hay will be a drug, and wheat will not, in all probability, command thirty or thirtyfive cents."

THEIR BEST PRIVATEER GONE-A letter from the Pensacola fleet dated June, 16 states that the piratical steamer Wm. H. Webb has been captured by the Niagara while in the act of seizing the brig East, of New York. If this information is correct, the buccaneers have lost their best vessel.

The Wm. H. Webb, is a large and very powerful tugboat, formerly well known in this harbor. She is registered at 655 tuns, seven feet one inch draft, and in excellent condition.

CELEBRATED NOISELESS

FOR FAMILY AND MANUFACTURING USE, 495 Broadway, New-York. Agencies in all the principal Cities and Towns in the United States.

The Grover & Baker Sewing Machine Company are now manufacturing, and have on exhibition at their different salesrooms, machines making the Shuttle or Lock Stitch, of the same patterns and at the same prices as their celebrated Grover & Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the the leading machines and exercising their own judgment as to their respective merits. This is the only company that manufactures both kinds of machines and therefore the only one that can offer this privilege to the purchaser.

"We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence. Those indispensable features of sewing, strength; unformity, and clasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—N. Y. Christian Advocate and Journal.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general Family use than Grover's Baker's Sewing Machine Co. It makes a beautiful clastic seam that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and silks altered; brown the spools on which they are bought."—N. Y. Leader.

"The points we conceive most necessary and impor-tant to meet the wide range of requirements in a machine-for family sewing, we find more fully combined in the Grover & Baker, viz.: extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools-without re-winding, strength of work, clasticity, durability and regularity of stitch, and quietness of movement. We therefore make award to the Grover & Baker."—Report of Committee of Tennagee State Fair of 1860—also of St. Louis State Fair of 1860. F. B. CHANDLER, Agent,
