FIGHT AT BULL'S RUN.

We have to record to-day a great battle and a great rictory for the army of the Union. The rebel batteries at Bull's run were captured yesterday, and the enuny driven back to Manassas Junction. The fight was a terrific one, not less than a hundred and twenty-five thousand men being engaged on both sides. The battle commenced at three o'clock' yesterday morning, and lasted until two o'clock in the afternoon. The camonading was distinctly heard at the Long Bridge, a distinct of the property of the prop

and driven back upon our entrenchments at Alexandria, Arlington, etc. and we shall have as much as we can do, to hold them under an attack from an enemy flush-

ed with victory.
Washington is said to be in danger; but it is impossible to get any reliable details-and we trust the defeat is, not so 1 had as reported.

A REVIEW AND REFUTATION HELPER'S IMPENDING CRISIS. BY GILBERT J. BEEBE.

BY GILBERT J. BEEBE.

[THIS PAMPHLET, consisting of 64 double column L pages, was originally published pending the political canvass of 1880. The 'impending Criss,' is a complication of 180. The 'impending Criss,' is a complication of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the sectional party isst fall. It was widely circulated grainitonely, by means of large contributions of money, and did more than any other thing to descrive the masses of our people. In this Beriess and Rejustion, we take up each of its chapters separately, and every important assumption in detail, and refute them so completely that no intelligent person can read the manphlet without being convinced of the fall; and refute them so completely that no intelligent person can read the mapphlet without being convinced of the fall is of all the wicked, assumptions of the Helper book and of the folly of the sectional strife which has culminated in civil war. As there is no probability that peace will be permanently restored to our distracted hand smitl the public mind at the North is disabused of its erroneous impressions relative to the true character of our Southern sieter Nates, most of whom are now in rebellion against our general government, as the result of the triumph of sectional function both North and South, —it becomes the duty of all true patrionate of all in their power to remove unjust prindless, between the North and South, and there is probably no more effectent means of accomplishing this result, than by general circulation of our Refutation of Helper. It contains a large amount of valuable satistics, worth, for occasional reference, several times the price of the pamphlet, to all intelligent ettiticans. Price 25 cents per copy, or 25 per large. GROVER & BAKER'S

CELEBRATED NOISELESS SEWING MACHINES.

FOR FAMILY AND MANUFACTURING USE, 495 Broadway, New-York. Agencies in all the principal Cities and Towns in the United States.

The Grover & Baker Sewing Machine Company are now manufacturing, and have on exhibition at their different salesrooms, machines making the Shuttle or Lock Sittch, of the same patterns and at the same prices as their celebrated Grover & Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the the leading machines and exercising their own judgment as to their respective merits. This is the only company that manufactures both kinds of machines and therefore the only one that can offer this privilege to the purchaser.

"We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence.

Those indispensable features of sewing, strength, unlormity, and elasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—N. Y. Christian Advocate and Journal.

"MERIT VI. PRETENCE.—We perceive that the Grover & Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes—but especially as adapted to all the requirements of family use. Other machines, by dintof braxen puffery and conniving with committees at annual fairs, have been threat forward into the first place; but they are fast losing this unmerrited position. The real merits of the Grover & Baker Machine, are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionately decreasing. So it turns out in this, as in many other instances, that 'honesty is the best policy,' and the right, in the end, comes uppermost.

4

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general Family use than Grover & Baker's Bewing Machine Co. It makes a beautiful elastic seam that does not rip. with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and nees threads and aliks directly from the spools on which they are bought."—N. Y. Leader.

Grover & Baker's Machines' work, in their peculiar tiltch, and fabrics put together by it, may wear and drop to pleoes from original weakness or hard usage, but come upart or give way at the seams they cannot; they will sold together what the count or calloo around them hangs to rags and tatters.—N. T. News.

"The points we conceive most necessary and impor-tant to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker, viz. extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, clasticity, darability and regularity of attech and quietness of movement. We therefore make award to the Grover & Baker."—Report of Communities of Transcess Signs Fair of 1960—also of St. Louis State Fair of 1960. F. B. CHANDLER, Agent, febl ly cq m* Montrose, Pa.
