That many of our officers were appointed to commands with which they were wholly unacquainted. The public asks-who is responsible? The ignorant civilians were placed in commands which they disgraced. The public asks-who appointed them ? That the senseless objurgations of the Tribune led to a premature attack.

The public asks who is so weak as to be influenced by Greeley? In a word, evil does not do itself-some one is to blame for it; and the American people demand to know whose short-com

ings have led to their disgrace .- Philadelphia Inquirer,

Hon. Lyman Tremain delivered an eloquent and able oration at Albany on the Fourth of July, in which we find the following paragraph :

Let us, however carry the olive branch in one hand while the sword gleams in the other. Let the South know that with returning allegianée on their part, the arms will drop from our grasp. Let them learn that the war is waged, not to exterminate Slavery, but to defend the Union. Teach them, in every way, that no invasion of their constitutional rights is contemplated, and none will be tolerated .--Teach them, too, that the great body of the North have no malice or vindictive feelings to gratify and that they do not sympathize with that mischievous band of fanatics who have been so long making war upon their feelings and their

rights. TRIAL AND FRIENDSHIP .- Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. Its use always brings a smile to the household ; it keeps them in health ; it helps make the weak strong, and saves hundreds from that dreadful disease dyspepsia. As you value health use it.
