GROVER & BAKER'S

CKLEBRATED NOISELESS SEWING MACHINES.

FOR FAMILY AND MANUFACTURING USE, 495 Broadway, New-York. Ayencies in all the principal Cilies and Towns in the United States,

The Grover Le Baker Sewing Machine Company are now manufactulting, and have on exhibition at their different salestrooms, machines making the Shuttle or Lock Stitch, of the same patterns and at the same prices as their celebrated Grover & Baker Stitch Machines, thus affording the public the advantage of comparing the stitch of the the leading machines and exercising their own judgment as to their respective merits. This is the only company that manufactures both kinds of machines and therefore the only one that can offer this privilege to the purchaser.

"We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that, of Grover & Baker the pre-eminence. Those indispensable features of sewing, strength, unformity, and elasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—N. 1. Christian Advocate and Journal.

"MERIT VS. PRETENCE.—We perceive that the Grover & Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes—but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and conniving with committees at annual fairs, have been thrust forward into the first place; but they are fast loaing this unmerited position. The real merits of the Grover & Baker Machine, are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionately decreasing. So it turns out in this, as in many other instances, that 'honesty is the best policy,' and the right, in the end, comes uppermost.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general Family use than Grover & Baker's Sewing Machine Co. It makes a beautiful elastic seam that does not rip with woar or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and silks directly from the spools on which they are bought."—N. Y. Leader.

Grover & Bakes's Machines' work, in their peculiar stitch, and fabrics put together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams they cannot; they will hold together when the cloth or calleo around them hangs in rags and tatters.—N. 22 News.

"The points we conceive most necessary and impor-tant to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker, viz. extent of capacity, simplicity of construction, case of management, "dvantage of using thread from two spools without re-winding, strength of work, clasticity, durability and regularity of stitch, and quietness of movement. We therefore make award to the Grover & Baker." Egger of Committee of Tunaction State Fair of 1800—also of St. Louis State Fair of 1860. RUCHES, and F. B. CHANDLER, Agent,
