C. S. GILBERT, Sec'y. The True Party Issue. The party now in power in the State and National Government has, by its vile slanders and defamation, forced the Demslanders and defaunation, torced the Democratic party into the position of self-vin-ocratic party into the position of self-vin-dication. The Republican leaders have Other Assistants and Lecturers will be employed as the wants of the school may demand. charged, and are daily reiterating the infamous likel upon Democrats, that they are traitors and disunionists, and have thereby, in thus holding out such an idea to the South, encouraged the Slave States in their rebellion. The Democratic party has always battled manfully for the Union and the Constitution, and is now engaged in the proportion of at least three to one in defending the tim-honored flag of our common country on the battle fields of Virginia. But whilst they are sustaining the Government in this war for the Union, Democrat; mean to insist upon keeping up their own party organiza-tion, and will repel the vile assault of the Republican party whenever or wherever offered. They have no faith whatever in the principles or policy of the Republican party, or in its ability to carry on this war to a successful termination, or to administer the Government in a creditable or constitutional manner, and they are de-termined to war upon it in a legitimate, way until it is swept from power in the State and Nation. The senseless cry of treason and traitor will not deter Demo-crats from the exercise of the undoubted right they have under the Constitution of examining the conduct of our rulers, and of condemning that conduct when they think it deserves condemnation. Demo-crats know their rights as loyal citizens, and mean to maintain them at every hazard, though parasites and pensioners and plunderers of the Government, and their aiders and abettors, bellow treason at every street corner or on the highway; nor will they have anything to do with a fusion of the parties as advocated in certain quarters. If the Republicans are already sick of their name and their principles, let them disavow both, and thereby acknowledge that its baleful race is run; but they cannot perpetuate it by the old trick of a fresh baptism, alias "Union" party. Its leaders would not resort to this expedient if their party could stand alone. They know its imbecility and odiousness, and wish to cover up both by a new dodge, But in won't do. The Chicago platform has had its day, and its doctrines are a stauch in the nostrile of

the American people. Democrate insist upon a platform constructed of other ma-

erials. They must have one that compre-

hends the whole Union, the Constitution,

Demogratic Committee Meeting, or money to restore our beloved Union to its wonted peace and prosperity.—Lin-caster Intelligencer.

-The extra Bangor Democrat, was deposited in the Post Office on Friday night, but the Postmaster has notified the Department and retains the papers until he receives orders. The Democrat was suppressed by the mob a week or two since, and the office destroyed.

-The Postmaster-General has directed the mails.

A REVIEW AND REFUTATION HELPER'S IMPENDING CRISIS. BY GILBERT J. BEEBE.

BY GILBERT J. BEEBE.

[THIS PANPHLET, consisting of 64 double column bares, was originally gablished pending the political canvess of 1860. The "Impending Crisis." is a complication of all the sophisms and maliciple doctrines by which the public mind of the North had been as far poissoned as to produce the triumph of the Presidential candidate of the sectional party last fall. It was widely circulated gratiniously, by means of large contributions of money, and did more than any other thing to deceive the masses of our people. In this Review and Reduction, we take up each of its chapters separately, and every important assumption in circulate great for the state of the section of the fielper book and of the only of the sections of the fielper book and of the folly of the sectional strife which has culminated in civil war. As there is no probability that peace will be pormanently restored to our distracted and muit the gualic mind at the North is disabused offits ermoeous impressions relative to the true character of cur shuthers sister Skistes, most of whom against the state of the freshilm against our general government, as the result of the friumph of sectional fanalciam both North and South,—it becomes the daty of all the patriots to do all in their power to remove unjust prejudices between the North and South,—it becomes the daty of all the patriots to do all in their gover to remove unjust prejudices between the North and South,—it becomes the daty of all the patriots to do all in their gover to remove unjust prejudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by general circulation of our physication of Pleper. It contains a large amount of valuable statistics, worth, for occasional patence, several times the price of the pampilet, to all intelligent citizens. Frice & cents per copy, or \$2 per dazen—ant by mail, postage prepaid.

FOR FAMILY AND MANUFACTURING USE, 495 Broadway, New-York. Agencies in all the principal Cities and Towns in the United States.

"We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence.

Those indispensable features of sewing, strength, unformity, and elasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and, possesses every characteristic necessary to make it most desirable."—N. Y. Christian Adiocale and Journal.

Grover & Baker's Machines' work, in their peculia-stitch, and fabrics put together by it, may wear and dro to pieces from original weakness or hard usage, but com-gart or give way at the seams they cannot; they will hold stogether when the cloth or calico around them hange in rage and latters.—N. Y. News.

"The points we conceive most necessary and impor-lant to meet the wide range of requirements in a machin for family sawing, we find more fully combined in the Grover & Baker, viz. extent of capacity, simplicity construction, case of management, advantage of gain

iffore & baker, viz.; the property of naing construction, ease of management, advantage of naing construction, ease of management, advantage of naing construction two spools without re-winding, strongth of work; clustifity, durability and regularity of stitch, and quietness of movament.
