An ingenious fraud was recently perpetrated on a London pawn-broker by a needy individual.-He called on the money lender with a sample of wine, asking a loan of forty pounds on two hogsheads of wine of the same quality. The wine was was tasted, approved and thirty pounds advanced. The casks were placed in the possession of the pawn-broken, who subjected the wine to an additional test, and was perfectly satisfied as to his bargain. But two weeks subsequently the casks were opened and found contain about 25 pailsful each of the mout excellent water, and the wine was carefully kept from the adulterating fluid dy being confined in a small blader neatly tacked around the spill hole from which the samples were drawn. The ingenuity of the needy individual not being properly appreciated by the magistrate before whom he wastaken,he is now serving out a "penal servitude" of eighteen months, hard labor.

-The Secretary of War has isued an order, calling upon all regiments and parts of regiments, armed, unarmed, uniformed or not, to hasten at once to Washington, for it is now realized that the Confederates are about to advance through Maryland and otherwise upon the city. It may not be long before a decisive blow will be struck. Indeed, so rapid may be events, instead of quarreling over positions of honor and contracts, that every energy may be required to repel the attack that will be made. The alarm of the Administration very clearly indicates that it has never had so serious an apprehesion of danger as at the present time.

The blockade of the Southern ports is incomplete, and is so understood in England and France. The agents of these nations are now in Richmond, New Orleans, and Savannah, buying cotton and tobacco which they confidently expect to ship, in spite of the blockade, in the fall.

Old Democratic Monroe, Ohio, has tendered the Government eight companies-almost a full regiment-of soldiers for the war. Old Abolition Ashtabula -which gave Mr. Lincoln 5,000 majority -has sent one company of 89 volunteers,

It is a complete statement of all that is known upon every important topic within the scope of human intelligence. Every important article in it has been specially written for its pages by men who are authorities upon the topics of which they speak. They are required to bring the subject up to the present moment; to state just how it stands now. All the statistical information is from the latest reports; the geographical accounts keep pace with the latest explorations; historical matter include the freshest just views; the biographical notices not only speak of the dead, but also of the living. It is a library of itself.

Slocum, Dundaff; A. B. Merrill, Hopbottom; A. J. Merrill, Scranton. CERTIFICATE.

This is to certify, that Mrs. Emory has been afflicted for years past with that distrissing complaint known as the "Piles." and that having falled in securing relief from various Physicians, she was induced from reports to try Mr. Williams. "Pile Solution," which we obtained at one of his Agencies in Tunkhannock, Pa. The result has been the most favorable. The trial was made with it last fall, and after using as directed for a few days, what we have good reason to think was a permanent cure was effected. Several other cases of a similar nature in this vicinity have used it with like results. With Mr. Williams motto "no cure no pay" every one thus afflicted will certainly do well to try it.

J. C. AYKR-& Co., Gents 1 I feel it my duty to seknowledge, what your. Sarsaparilla has done for maliforning inherited a Scrobious infection, I have suffered from it in various ways for years. Sometimes it berried in ulters on my hands and arms; sometimes it berried in ulters on my hands and arms; sometimes it burned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scale and cars with one sore, which was paints; and louthsome beyond description. I tried many medicines and sever-physicians, but without much relief from any thing. I lact, the disorder grew worse. At length I was rejoled to read in the Gospel Measenger that you had prepared an alterative (Sarsaparilla), for I knew from your repation that any thing you made mist be good. I sent to Cincimnal and got it, and used it till it cured me. I took it, as you advise, in small doses of a toaspoonful over a wonth, and used almost three bottles. New and healthy skin soon began to form under the scale, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is gone from my system. You can well believe that I feel what I am asying when I will you, that I hold you to be one of the aposites of the age, and remain ever gratefully. Alexae Balance.

New Obleans, 25th August, 1859.

Dis. J. C. Aver. Sir: I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Strasparilla.

I have cared with fit in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Foureral and Mercurial Disease. One of my patients had Syphilitic alers in his throat, which were consuming his padate and the top of his mouth. Your Sarsaparilla, steadily takes, cared him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had caten away a conviderable part of fit, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilis; the ulcera healed, and he is well again; not of course without some disfiguration of the face. A woman who had been treated for the same disorder by increury was suffering from this poison in her bones. They had become so exuative to the weather that on a drawy day she suffered excruciating poin in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable, results with it have not surprised me.

Jules Y. Getchell, of St. Louis; writes: "I have been affilted for years with an angletion of the Liver, which destroyed my-health. I tried every thing, and every thing falled to relieve me; and I have been a broken-down man for some years from no other came than derangement of the Liver. My sure Sarsaparilla, became the said he knew you, and any thing you made was worth sping. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."
