

COMMUNICATED.
FRIEND GERIBSON:
DEAR SIR:—I can scarcely hold my peace while so much bigotry, fanaticism, and intolerance is raging around me, in its blindness and zeal not according to knowledge. I am daily enquired of by men of both political parties, my opinion as to the future, as well as the present, and as to where we are drifting here at home. This is no stopping to discuss the question what we talk or think upon the past, the more we differ. This hardly possible that any one of sound mind will deny, however, that for some reason a bad state of feeling has existed, and much hatred has manifested itself between the North and South, for many years. The cloud has long been lowering around, skirting the horizon, and from time to time with our weak ability, I have warned my fellow citizens of the coming storm, the desolating effects of which we are beginning to feel. While I lifted up my voice and feeble pen the past winter, and besought Democrats, Republicans, Know-nothings, and all, to lay by party and look our difficulties fairly in the face, and meet them by making some sacrifice, before it was too late, I with others were derided as "Union savers," and by one wing of the Republican party, (for they have many) it was boldly asserted, that under certain contingencies, they would "let the Union slide;" by another wing it was said, you cannot drive the South out of the Union, and by another, if they should attempt it, that 50,000 men could with ease quell them in ten days, and that the slaves would kill their masters and finish the job. But the one idea which has since howled the "on to Richmond" cry, must have their say, and their day. I think they might, with propriety be called the rule or ruin part of the republican party; they are agitators by profession, and are miscalled reformers. They are good men, and I love them for what good they do; but I despise the intolerance and narrow minded bigotry, which manifests itself in many ways, and on different occasions. This little account whether you get sorry or pork or mutton, is but a little difference if a man has but one idea whether his good or bad. No matter if a man has given half his heart to the cause of the South, since this terrible war broke out ready to stand by the Government and maintain the laws and the Constitution, if he says he would call a convention of all the States, and while recommending this hearty young men to enlist and fight, call together the old men who can calmly look over the whole ground, and suggest some solution to the present difficulty, he is called a secessionist, &c. If one suggests, that Christ's teachings were "love your enemies, bless them that curse you, blessed are the peacemakers, for they shall be called the children of God," have your neighbor as yourself, love worketh no ill to his neighbor," and remarks that a convention of all the States, called by the President, Dix, Pennington and Van Buren, not to compromise with traitors, but with union men North and South, his mouth must be stopped; my motto is, stand by the Government, put down rebellion and secession, and preserve the constitution; don't depart from that, leave reason free to combat error. My father fought for the great Republic, and the rights of safety, in person, speech and property. When these rights are encroached upon, where is our constitution and laws? Is the old heathen maxim of "all laws are silent in war," to be revived in this boasted Christian Republic? But zeal for a certain platform is one thing, and for our Constitution quite another matter. The New York Herald of the 22nd, speaking of the threatened attack on the office of the Daily News and other papers, says such notions are stimulated mainly by "abolition vagabonds," wholly unprincipled, and who wish to embarrass the measures of the administration which ought not to be compromised by such infamously starting with the "one idea" against the supremacy of the laws, proposition, that cases may arise, arising from moral or legal obligation thereby facilitating the right of mob law. Away with such heathenish dogmas; let light, reason, love and charity prevail; stop denouncing peace meetings as secession meetings; do as you would be done by; drop party for the time being; make no nominations; let the people choose whom they will, create a little more freedom, and let us down from down mobocracy before you feel its retaliatory rebound. If we win the next great battle, which seems likely soon to come off, (which I pray God we may) I hope there may be some hopes for honorable peace. I want the sin of bombarding Fort Sumter wiped out before I would be very liberal; after that I would give every thing but honor, let foreign powers step in and make a nation, and I would I will never consent to separate, nor to tear the constitution into fragments and join in the suicidal cry, subjugate and liberate. I respect the colored race, because God made them. I would mitigate their sufferings, and elevate them socially and morally, whether free or slave, in every legal and constitutional way possible, and could by offering my life as a sacrifice today this desolating war and have the nation would do so willingly. But slavery can never be done away by force of arms, and have a country left worth preserving. Christianity's law of love and kindness must do it if ever done; if those who hold the loudest about their neighbors, denouncing those as secessionists who hope for peace, but have from the start supported the war and the government, would insist themselves, these might be the way of their duty; many such could be spared, and if not too great regards, they are needed. My opinion, when the first 75,000 men for the war were called out, that if there must be coercion, the call should have been at least 300,000, some of the one idea men, thought they would the south would be starved out and wild, long before the three months expired. I trust that the fine Republican papers at least will throw down no more and while Democrats, about three to one are in the bat-

field, including many of foreign birth, who, notwithstanding the odium sought to be cast upon them, nobly went forth in defence of our flag—do not insult their brothers at home if they happen to differ honestly with you.
Truly yours,
M. C. TYLER.
Disloyal Publications.
It is certainly desirable, while the Government is engaged in the great work of suppressing this monster rebellion, that the people of the loyal States should not waste their energies in "useless contentions, and that they should, so far as compatible with public liberty, forget "minor differences of opinion, and direct all their energies to the one great purpose of rescuing the country from the danger that threatens it. To this end it would be advisable for the Administration to limit to those party organs subject to its influence, and instruct others sustained by its patronage, to cease their bitter attacks which they have been carrying on against the Democratic party. Many of those newspapers habitually malign and misrepresent the people, nourishing bitterness and inviting retaliation. They afford aid and comfort to the common enemy by insisting that the North is overrun with secessionists and sympathizers with the rebels, who are only waiting a favorable opportunity to thwart the Government, when such is not the fact. The North is the only support of the Government, and the rebels should be made to understand this great truth. So long, however, as these organs of discord continue to misrepresent the North by proclaiming that a large proportion of its citizens are disloyal to the Government, just so long will the rebels be encouraged to persevere in their insurrectionary designs. A number of these mischievous newspapers are also engaged in misrepresenting the object of the war. They refuse to endorse the National platform of Congress, but insist that the Administration must convert this struggle, conducted upon national principles for a national purpose, into a great John Brown raid. This suggestion, so alluring to all Union men, excites disgust and distrust among the people, and inflicts serious injury to the Government. The Administration should show its disapproval of all such incendiary publications by withdrawing from them its confidence and patronage. They are doing more harm to the cause of the country than if they were open advocates of disunion.—*Patrol and Legion.*
Jeff. Davis Dead.
A telegram says that Davis is dead. He died in the arms of a good man, and I love them for what good they do; but I despise the intolerance and narrow minded bigotry, which manifests itself in many ways, and on different occasions. LIFE MEMORIALS.
I WOULDN'T TAKE A WORLD FOR THIS!
A lady remarked to us one day or two since, as
she exhibited the portrait of an only child, gone
to "spirit land," which was one of
TUBBS'
INIMITABLE AMBROTYPES!
"How I should regret it had I not secured
this precious memorial of my dear one!" No
thought we. The loved ones are not always
with us, and while we can call them ours, every
one should secure such a memorial, especially
since they can have them so triflingly taken by
that successful artist, A. B. TUBBS, of Bin-
ghamton, etc.
