CELEBRATED NOISELESS SEWING MACHINES

FOR FAMILY AND MANUFACTURING US 495 Broadway, New-York. Agencies in all the principal Cities and

Towns in the United States, Towns in the United States,

The Grover & Baker Sewing Machine Company as now manufacturing, and have on exhibition at their different salesrooms, machines making the Shuttle or Lock Stitch, of the same patterns and at the same prices where celebrated Grover & Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the the leading machines and secret-ling fifted own judgment as to their respective merits. This is the only company that manufactures both kinds of machines and therefore the only one that can offer this privilege to this purchaser.

We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence. Those indispensable features of sewing, strength, uniformity, and elasticity, all of which are brought out in this incomparable invention, make it the first ewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable. "—N. Y. Christian Advocate and Journal.

"Menit vs. l'herrace.—We perceive that the Grover & Iksker Sewing Machine is every day growing more and more in Luor, both for manufacturing and family purposer—but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and countving with committees at annual fairs, have been thrust forward into the first-place; but they are fast losing this unmerited position. The real merits of the Grover & Baker Machine; are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionately decreasing. So it turns out in this, as in many other instances, that 'honesty is the best policy,' and the right, in the end, comes uppermost.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general Family use than Grover & Baker's Sewling Machine Co. It makes at beautiful clastic seam that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and nees threads and silks directly from the spoots on which they are bought."—N. Y. Leader.

"The points we conceive most necessary and impor-tant to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker, viz. extent by capacity, simplicity of construction; case of management, advantage of using thread from two spools without re-winding; strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore make; award to the Grover & Baker." Report of Committee of Tennessee State Fair of 1860—also of St. Louis State Fair of 1860. F. B. CHANDLER, Agent,

A REVIEW AND REFUTATION

Helper's impending c**risis** THIS PAMPHLET, consisting of \$4 double column pages, was originally published pending the political canvass of 1890. The "Impending Crisis," is a compilation of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Precidential cancidate of the sectional party last fail. It was widely circulated gratuiton-ly, by means of large contributions of money, and did more than any other thing to deceive the masses of our people. In this Review and Reputation was taken up cach of its chapters separately, and every important assumption in detail, and relate them so completely that no intelligent person can read the pamphlet without being convinced of the falasty of all the wicked assumptions of the Helper book and of the folly of the sectional strifte which has cultinated in civil war. As there is no probability that peace will be permanently restored to our distributed land until the public mind at the North is disabused of its erroneous impressions relative to the true character of our Sonthern sixter States, most of whom are now in rebellion against our general government, as the recent of the triumph of sectional fanaticiam both North and South, —it becomes the duty of all true patriots to do all in their power to remove unjust prejudices between the North and South, and there is probably no more effected that no our Refutation of Helper. It congains a large amount of valueble statistics, worth, for occasional reference, several times the price of the pamphlet, to all intelligent citizens. Price 25 cents per copy, or \$2 per double—sent by mail, postage prepaid.
