M. L. CATLIN, A. BALDWIN, J. C. MORRIS, } *Executive Committee.*

—Ross Winans, who was arrested, with other members of the late Maryland Legislature recently, has been released from imprisonment in Fortress Monroe. He concluded to take the oath of allegiance, and will now rusticate in quiet at his home in Baltimore.

—There seems to be a prevailing opinion that exaggerated accounts of the Rebel forces are got up to order, by contract jobbers and their agents for the purpose of aiding their pecuniary condition.

—That the Government requires all the troops that can be mustered, is very evident hence every measure should be adopted calculated to answer the demand. Laudible exertions are being made by officers engaged in enlisting men, and their labors are rewarded with encouraging success—yet, the success is not equal to the requirement, and it is the duty of every man to aid the work as much as lies in his power.

—A coroner's jury in Baltimore which investigated the causes of the late shocking casualty on the Northern Centr.l Rail-way, between Baltimore and Harrisburg, by which two soldiers were instantly killed and a number injured, has returned, as its verdict the following fearful charge against the selfish management of that railway:—

"They (the soldiers) came to their death by a collision produced by want of proper management on the part of the managers of the road."

☞ The order of Gen. McClellan, prohibiting the Union troops from firing on the rebel pickets, except to repel the assaults of the latter, is being faithfully carried out. The enemy seem to be desirous to imitate the order of Gen. McClellan, and there was a general cessation of the usual musketry fusilade along the lines. This has had the effect of bringing the pickets of both armies within speaking distance, and many social confabs took place between the soldiery. Captain Morse, of the Michigan regiment, had a conversation with a Georgia Captain, in which the latter stated that he was happy to hear that General McClellan had issued the humane order in regard to firing on pickets, and said the rebels would reciprocate.

Mothers, Read This.—The following is an extract from a letter written by the pastor of a Baptist Church to the "Journal and Messenger," Cincinnatti, Ohio. It says columns in favor of that world-renowned medicine—Mrs. WINSLOW'S SOOTHING SYRUP FOR CHILDREN TEETHING: We seldom add an advertisement in our columns of Mrs. Winslow's Soothing Syrup. Now we never said a word, in favor of any patent medicine in our life, but we feel compelled to say to our readers that this is no humbug—WE BELIEVE IT, AND KNOW IT TO BE ALL IT CLAIMS. It is probably one of the most successful medicines of the day, because it is one of the best. Those who have babies can't do better than to lay in a supply! dec8 y

GROVER & BAKER'S

CELEBRATED NOISELESS
SEWING MACHINES,
FOR FAMILY AND MANUFACTURING USE,
495 Broadway, New-York.
Agencies in all the principal Cities and Towns in the United States.

The Grover & Baker Sewing Machine Company are now manufacturing, and have on exhibition at their different saleserooms, machines making the Shuttle or Lock stitch, of the same patterns and at the same prices as their celebrated Grover & Baker Stitch Machines, thus affording the public the advantage of comparing the stitches of the the leading machines and exercising their own judgment as to their respective merits. This is the only company that manufactures both kinds of machines and therefore the only one that can offer this privilege to the purchaser.

"We speak from experience when we say that, after having tried all the principal sewing machines, we must accord to that of Grover & Baker the pre-eminence. Those indispensable features of sewing, strength, uniformity, and elasticity, all of which are brought out in this incomparable invention, make it the first sewing machine in the country. Others have their good points, but this combines all, and possesses every characteristic necessary to make it most desirable."—*N. Y. Christian Advocate and Journal.*

"MERIT VS. PRETENCE.—We perceive that the Grover & Baker Sewing Machine is every day growing more and more in favor, both for manufacturing and family purposes—but especially as adapted to all the requirements of family use. Other machines, by dint of brazen puffery and conniving with committees at annual fairs, have been thrust forward into the first place; but they are fast losing this unmerited position. The real merits of the Grover & Baker Machine, are beginning to be known in a practical way, and daily is the demand for them increasing, while the demand for heretofore better known, but inferior machines, is proportionately decreasing. So it turns out in this, as in many other instances, that honesty is the best policy, and the right, in the end, comes uppermost.

"A trial of over two years enables us to say with the greatest confidence that there is no better machine for general Family use than Grover & Baker's Sewing Machine Co. It makes a beautiful elastic seam that does not rip with wear or washing, runs almost noiselessly, is plain, simple, easy to work, and not liable to get out of repair, fastens the ends of its own thread, and uses threads and silks directly from the spools on which they are bought."—*N. Y. Leader.*

Grover & Baker's Machines' work, in their peculiar stitch, and fabrics put together by it, may wear and drop to pieces from original weakness or hard usage, but come apart or give way at the seams they cannot; they will hold together when the cloth or calico around them hangs in rags and tatters.—*N. Y. News.*

"The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker, viz., extent of capacity, simplicity of construction, ease of management, advantage of using thread from two spools without re-winding, strength of work, elasticity, durability and regularity of stitch, and quietness of movement. We therefore make award to the Grover & Baker."—*Report of Committee of Tennessee State Fair of 1860—also of St. Louis State Fair of 1860.*

A REVIEW AND REFUTATION
OF
HELPER'S IMPENDING CRISIS.
BY GILBERT J. BEEBE.

THIS PAMPHLET, consisting of 64 double columns pages, was originally published pending the political canvass of 1860. The "Impending Crisis," is a compilation of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the sectional party last fall. It was widely circulated gratuitously, by means of large contributions of money, and did more than any other thing to deceive the masses of our people. In this *Review and Refutation*, we take up each of its chapters separately, and every important assumption in detail, and refute them so completely that no intelligent person can read the pamphlet without being convinced of the falsity of all the wicked assumptions of the Helper book and of the folly of the sectional strife which has culminated in civil war. As there is no probability that peace will be permanently restored to our distracted land until the public mind at the North is disabused of its erroneous impressions relative to the true character of our Southern sister States, most of whom are now in rebellion against our general government, as the result of the triumph of sectional fanaticism both North and South. It becomes the duty of all true patriots to do all in their power to remove unjust prejudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by general circulation of our *Refutation of Helper*. It contains a large amount of valuable statistics, worth, for occasional reference, several times the price of the pamphlet, to all intelligent citizens. Price 25 cents per copy, or $20 per dozen—sent by mail, postage prepaid.
