BY GILBERT J. BEEBE. BY GILBEET J. BEEBE.

[TIHIS PAMPILET, constating of 64 double column pages, was originally unblished pending the political carcase of 1860. The "Impending Crisis," is a complation of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the sectional party isst fall. It was widely circulated gratuiton by, by means of large contributions of money, and did more than any other thing to deceive the masses of our people. In this Review and Refutation, we take up each of its chapters separately, and every important assumption in detail, and refute them so completely that no intelligent person can read the pamphlet without being convinced of the falsity of all the wicked assumptions of the lielper book and of the folly of the sectional strife which has culminated in civil war. As there is no probability that peace will be permanently restored to our distracted land until the public mind at the North is disabased of its erroneous impressions relative to the true character of our Sombern sister States, most of whom are our distracted land until the public mind at the North is disabased of its erroneous impressions relative to the true character of our Southern sister States, most of whom are now in rebellion against our general government, as the result of the triumph of sectional fanaticism both North and South,—it becomes the duty of all true patriots to do all in their power to remove unjust prejudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by general circulation of our Repudation of Halper. It contains a large amount of valuable statistics—worth, for occasional reference, several times the price of the pamphlet, to all intelligent citizens. Price 25 cents per copy, or \$2 per dozon—sent by mail, postage prepaid.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and obitions generally of the United' States, because the article has attained a repu-States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount near one minion sottes. It is immense amount could never have been gold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachio derangements. and the diseases resulting therefrom

and the discases resulting therefrom.

3 This is not a temporary popularity, ebtained
by extraordinary efforts in the way of trumpeting the qualifies of the Bitters, but a solid
estimation of an invaluable medicine, which is
destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsent to regions where fever and ague and various other billions complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain-cure for the Plyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomich, purifies the blood, and imparts renewed vitability to the nervous system, giving it that the and energy indispensable for the restoration of Realth. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bodile, and they will find in it a stimulant peculiarly adapted to comfort declining years as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the strial. The relation of mother and child is so absorbingly fender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the tasts as well as certain to give a permanent increase of bodily strength. merits of this article. A few words to the

well as certain to give a permanent increase of bodily strength.

All those persons to whom we have particularly referred above, to wit: sufferers from fever and aguel caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfure by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters' Stomach Bitters' blown on the side of the bottle, and stamped blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

These symptoms are often the prelude to serious illness. Some fit of schrees is creeping upon you, and should be averted by a timely use of the right remely. Take Ayer's Pills, and cleans out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs are all agaraxation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of whe deposited and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when sunfering from the disorders they cure.
