THEIR PAMPHLET, consisting of 64 double column pages, was originally published pending the political carvase of 1840. The "Impending Crists," is a compliation of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the vectivant party last fall. It was widely circulated granultously, by means of large contributions of money, and did more than any other thing to deceive the masses of our people. In this Review and Rejutation, we take up each of it; chapters separately, and every important assumption in detail, and refute them so completely that no intelligent person can read the pamphlet without being convinced of the fashity of all the wicked assumptions of the Helper book and of the folly of the sectional strife which has culminated in civil war. As there is no probability that peace will be perhanently restored to our distracted land until the public mind at the Northis disabused of its errouteous impressions relative to the true character of our Southern sister States, most of whom are now in rebellion against our general government, as the result of the triumph of sectional fanaticism both North and South, and there is probably no more efficient means of accomplicating this result, than by general circulation of our Phyladzino of Helper. It contains a large amount of valuable statistics, worth, for occasional reference, several time-sthe wrice of the pamphlet to all intolligent citizens. Price 25 cents per copy, or \$2 per dozen-sent by mail, postage prepaid. Intolligent citizens. Price 25 cents per copy, or \$2 per dozen sent by mall, postage prepaid. G. J. BEEBE.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady. ters for the last year amounted to over a nati-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare conia never nave occasions data for the ran-medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. arms the discusses resulting interestons.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid

estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Golsetter's stomach anterior have invested as Golsetter to grow where fever and ague and various other tilligus, complaints have counted their victims by hundreds. To be able to clate confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all mobile matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily-as per directions on the bodite, and they will find in it a stimulant peculiarly adapted to comfort decliaing years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when sgentler sex. There are certain perious was their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health, in her extreme anxiety for her infant. Should the period of maternity for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the litters to all other invigorators that receive the endorsement of physicians because it is agreeable to the tasts as cians, because it is agreeable to the taste as well as certain to give a permanent increase

well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particutarly referred above, to with sufferers from fever and ague, caused by malaria, diarrhead dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

—CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebraten Stomach Bitters, and see that each bottle has the words "Dr.J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped blown on the side of the bottle, and stamped on the metallic cap covering the cork, and

scientific principles, after the manner of the celebrated
dioffined Professor, Bachave. Its reputation at home produced its introduction here, the demand commencing with
tings of the Fatherland scattered over the face of this
mighty country, many of whom brought with them and
handed down the tradition of its value. It is most offered
to the America's public, knowing that its truly wonderful
medicinal riches must be acknowledged.

It is particularly recommended to those persons whose
constitutions must have been impalered by the continuous use
of ardeal spirits, or other forms of disalporation. Generally
instantaneous in effect, it thus its way directly to the sear
of life, thrilling and quickening every nerve, raising by the
dreeping spirit, and, in fact, infusing new health and vigor
in the system.
