BY GILBERT J. BÉEBH. TIMIS PAMPHLET, consisting of \$6 double column pages, was originally published pending the political canvass of 1862. The, "Impending Crisis," is a complication of all the sophisms and malicious dectrines by which the public limid of the North had been so far poismond as to produce the triumph of the Presidential emidiate of the sectional party last fail. It was widely circulated gratuitously, by means of large contributions of money, and did more than any other thing to deceive the masses of ear people. In this Review and Regulation, we take up cach of its chapters seegastely, and every important assumption in detail, and synte them so completely that no intelligent person can rhad the pamphlet without being convinced of the falsity of all the wicked assumptions of the Heiger book and of the folly of the sectional strile which has enliminated in civilwar. As there is no probability that peace will be permanently restreated to our distracted land until the public mind at the North is disabused of its erroneous impressions relative to the true character of our Sonthern sister states, most of whom are now in rehelition against our general government, as the remarked the triumph of sectional forsticine but North. character of our Southern sister States, most of whom are now in rebellion against our general government, as the result of the triumph of sectional fanalicism both North and South,—it becomes the duty of all true particute to de all in their power to remove unjust proudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by Reneral circulation of an Refutation of He per. It contains a large amount of realuble statistics, worth, for occasional reference, several times the price of the pamphier, to all intelligent citizens. Price 35 cours per copy, or \$5 per dozen—sent by mult, postage prepaid.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-The proprietors and manufacturers of 1105-TETTER'S CELIBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the conjugation when the consumption will the coming year the consumption will reach-near one million bottles. This immense amount, could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sametion of the most prominent physicians in these sections of the country where the article is best known, who not only recommend the Buters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom. This is not a temperary popularity, chiained by extraordinary efforts in the way of trun-pating the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved Hostetter's Stomach Bitters have proved a Godsend to regions where fever and agno and various other billious complaints have counted their, victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, wing it that tone and energy indispensable g ving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature. of the imperious of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort deciling years, as it is pleasant to the palate, invigorating to the howels, excellent as a tonic, and rejuveniting generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under ivice of physicians, they have abandoned all deleterious drags and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harrssing that many of them shall under the titid. The relation of mother and calld is so absorbingly tender, that the mother, especially if she ba young, is ant to for her infant. Should the period of maternity arrive during the summer season, the wear of bedy and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupethen, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorations that the residual content of the system. tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from favor and ague, caused by malaria, diarrhoca, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids; persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostotter's Celeptated Stomach Bitters a trial.

CAUTION—We caution the public against CAUTION.—We caution the public against using any of the many imitations or counterfeils, but ask for Hostetten's Calebrated STOMACH BITTERS, and see that each bettle has the words. Dr. J. C. Aven. Str. I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Serverparitie.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the care of Feneral and Mercarial Discare. One of my patients had Syphillite ulcres in his threat, which were consuming his palete and the top of his month. Your Sarsaparilia, steadily takers, cared him in five weeks. Another was attacked by soonadary symptoms in his bose, and the interration had enten away a considerable part of it, so that I believe had disorder would soon reach his bratu and kill him. But it yielded to my administration of your Sarsaparilia, the ulcres heeled, and he is well again, not of course without some disfiguration of the face. A women who had been treated for the same disorder by necessary was suffering from this poisson in beridnes. They had become so sensitive to the weather that on a doing day she suff-realex-cruciating pain in her joints and lones; Sie, too, was cured entirely by your Sarsaparilia in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with fi have not surprised me.
