BY GILBERT J. BEEBE.

THIS PAMPHLET, consisting of 64 double column pages, was originally published pending the political causes of 1860. The "impending Crisis," is a complication of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the sectional particles fall. It was widely circulated grainitously, by means of large contributions of money, and did more than any other thing to deceive the masses of our people. In this Retien and Regulation, we take ap each of its chapters separately, and every important assumption in detail, and refute them so completely that no intelligent person can read the pamphte without being convinced of the faisity of all the wicked assumptions of the Helper book and of the folly of the sectional strife which has calminated in civil war. As there is no probability that peace, will be permanently restored to our distracted land until the public mind at the North is disabased of its erroneous impressions relative to the true character of our Southern sixth States, most of whom are man in rebellion against our general government, at the rest of the true to remove unjust prejudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by general circulations of un Refutation of Helper. It contains a large ament of ralumble statistics, worth, for occasional reference, everal times the price of the pamphlet, to all in theilligent clitzens. Price Servents per copy, or Septer dozen—seent by mail, postage prepaid.

## HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOSTETTER'S CELEBRATED STOMACH BIT-TETTER'S CELEBRATED STOMACH DITTERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofere unknown. A few facts upon the confidence of the confidence intion heretofde unknown. A few facts upon this point will speak more powerfully than volumes of baring section or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all times of stomachic derangements

efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, ebtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hosteter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their ricitims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bords, and they will find per directions on the bottle, and they will min it astimulate peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating so the bowels, excellent as a tonic, and rejuveniting generally. We have the evidence of thousands of aged men and woman who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so hardsong that many of them sink under the trial. The relation of mother sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young is apt to forget her own health in her extreme anxiety for her infant! Should the period of maternity arrive during the summer season, the wear of budy and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the spotter to have no under her exhausting trials mother to hear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that rigeive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalidal persons of sedentary occupation, and anising mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters.

Prof. De Gravn: I have been afflicted for thirteen years with Neuralpia and other painful complaints, and I have been unable to sleep soundly or walk any distance for many years past. Last week I got a bottle of your Electric Oil. The first night I slept soundly and well, and to-day I am like a new man. My wife could not believe her eyes. Your Electric Oil has done in one week what the physicians of Philadelphia falled to do in thirteen years.

OAKLAND, Ind., 6th June, 1899.

J. C. Aver & Co. Gents: I feel it my duty to seknowledge what your Sarasparills has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and cars with one sore, which was painful and loathsome beyond description. I tried many medicines and sever physicians, but without much relief from any thing. It het, the disorder grew worse. At length I was goloced to read in the Gospel Measenger that you had prepared an aiterative (Sarasparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cared me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New met healthy skin soon began to form under the scab, which after a while fell off. Hy skin is now clear, and I know by my fellings that the disease is gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the spontics of the age, and remain ever gratefully, Yours,

I have cured many investente cases of Lewocribea by it, and some where the complaint was caused by ulceration of the sterne. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your extract of Sarsaparilla. Our physician thought nothing but extipation could afford relief, but he advised the trial of your Earsaparilla as the last resort before cutting, and, it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Byphills and Hereurial Disease.

New Orderana, 25th Adomst, 1859.

Dr. J. C. Ater. Siri I cheerfully comply with the request of your agent, and report to you some of the effects. I law realized with your Saraaparilla.

I have cared with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphillite ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cared him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had caten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration of the face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excitating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with if have not surprised me.

Sir: I havebeen afflicted with a painful chronic libertactism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until Mricel your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. Filf All. Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an diffection of the Liver, which destroyed my health. I tried every thing, and every thing falled to relieve me; and I have been a broken down man for some years from no other canse than derangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the critized nations, of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the victues that it did have when making the cures which have won so strongly upon the confidence of mankind.
