HADN'T FORGOT IT .- "Our city," says Philadelphia friend, "has some divines whose sermons are more noted for their length than depth. One of them, Dr. Bull, happening some eighteen months since to pass the Sabbath in a small town in New Jersey, not far distant from this city, was invited to preach. He accepted the invitation, and spoke for an hour and a half from the text, "Remember Lot's wife." It is said that the church hell had to be rung, at the conclusion of the sermon, to rouse the hearers. This report, however,

We went over the stabble and found the clover and thought, from seed sowed last spring, on the wheat without hisrowing, looking as well as we ever aw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark permanent ones, we will be able to cat the crop next year with a mowing machine and we will gurantee two tons per acre, if he will give the overplus if it overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded one hundred and twenty bushels per acre. It was then limed with diffy bushels per acre, and seeded with wheat and clover, yielding an average of over 15 bushels per acre, and the clover now looks beautiful.

In other cases the corn crop of last year was followed with oats this season, not yet threshed, but wiltaverage, probably forty to fifty bushels. Sweet potatoes, beans, melione, and in fact, all vegetables, as well as young peach and other fruit trees planted this year, show very plainly that this long neglected tract of land should remain so no longer, and there is now as rong probability that it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this work—and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured who will establish churches, schools, stores, mills, machine shops and homes—homes of American farmers, survounded by gardens, orchards, fields and comforts of civilized life.
