HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TETTIN'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-tation heretolore unknown. A few facts upon-this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The cozyumpition of Hostetter's Stomach Bit-ters for the list year amounted to over a halfters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sauction of the most prominent physicians is those sections of the country where the arricle is best known, who not only recommend, the Bitters to their patients, but are ready at all times to give testimonials to its officacy in all cases of stomachic derangements and the diseases resulting therefrom. and the diseases resulting therefrom.

This is noth temporary popularity, obtained by extraordinary efforts in the way of trumpering the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is

destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and again and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unnlloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and impacts renewed vitality to the nervous system; sing it that tone and energy indispensable the restoration of health. It operates upon for the restoration of hyanta. the stomach, liver, and other digestive organs, the stomach, liver, and soon restores them mild'y but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find per directions on the bottle, and they will and in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and requirenting generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach de-rangements and general debility; acting under cians, they h all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them rink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to ferget her own health in her extreme anxiety forget her own health in her extreme anxiety for her infant. Should the period of maternity artive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and re-ponsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigora-tors that receive the endorsement of physitors that receive the endorsement of physi-

cians, because it is agreeable to the taste as well as certain to give a permanent increase of hedity strength.
All-those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoad, dysentery, indigestion, loss of appetite, and all disenses or derangements of the stomach, superannuated invalids, persons of sedentary, occupation, and nursing mothers, will consult their of bodily strength. ccapation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION—We caution the public against using any of the many imitations or counterfeits, but ask for Hosterter's Celebrated Stomach Birters, and see that each bottle has the words "Dr.J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap tovering the cork, and

observe that pur autograph signature is on the label.

Mesers. S. W. Some eight years age one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. J. C. Ayer & Co. Gents: I feel it my duty to so knowledge what your Sarsaparilla has done for me Having inherited, a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes if turned inward and distressed me at the stomach. Two years are it broke out on my head arms; sometimes if turned inward and distressed me at the stomach. Two years are it broke out on my head arms; sometimes if turned navar with one spore, which was painful and inathosome beyond description. I tried many medicines and sever-physicians, but without much relief from any thing. It fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you land prejared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. Hook it, as you advise, in small doses of a teaponful over a month, and used almost three bottles. New and healthy skin son began to form under the scab, which fish a while fell off. My skin is now clear, and I know by my feelings that the direase is gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the aposites of the acy, and remain ever gratefully, Yours,

I have card with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Four-end and Mercard Disease. One of my patients had Syphilitic alcers in his threat, which were consuming his palate and tho top of his mouth. Your Sarvaparilla, steadily taken, cured him in the weeks. Another was attacked by secondary, symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that i believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarvaparilla; the ulcers healed, and he is well again, not of course without some disfiguration of the face. A woman who had been treated for the same disorder by increarry was suffering from this poisbin in her bones. They had become o servitive to the weather that on a damp day ble suffered excendating pain in her joints and bones. She, too, was carred entirely by your Sarvaparilla in a few weeks. I know from its formain, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consent natis, these truly remarkable results with it have not surprised me, Fraternally yours, G.
