HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-The proprietors and manufacturers of 110S-TETTER'S GELEBIATED STOMACH BITTERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or llazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year-kamounted to over a half-million bottles, and from its manifest steady increase in times past it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Litters to their patients, but are ready at all times to give festimonials to its cificacy in all cases of stomachic derangements and the diseases resulting therefrom. TETTER'S GELEBRATED STOMACH BIT-

cheacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Buters, but a solid estimation of an invaluable medicine, which is destined to be as endering agitime itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other lilious pomplaints have counted their victims by hupdreds. To be able to state confidently, that the "Bitters' are a certain cure for the Dyspepsia and like diseases, is to the preprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purioes the blood, and

alloyed pleasure. It removes all morbid matter from the stompth, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully and son restores them to a condition essential to the healthy discharge of the functions of infune. Etherly persons may use the Disters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to confort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach depreparation while suffering from stomach de-rangements and general debility: acting under the a lvice of physicians, they have abandoned all deleterious drugs and thirly tested the merits of this article. A few words to the merits of this article. A few words to the centler sex. There are certain periods when their cares are so hardssing that many of them tink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if the be toung, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity errive during the suminer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stinulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials

mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Eitters to all other invigora-tors that receive the endorsement of physicians, because it is agreeable to the faste as well as certain to give a permanent increase well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particularly referred above, to will sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Histarpen's Celebrater Stomach Bitters, and see that cach bottle has

STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters", blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

Oakland, Ind., 6th June, 1850.

J. C. Avin & Co. Gents: I feel it my duty to neknowledge what your; Sarsaparilla has done for me. Itsying inherited a Serolulous infection, I have suffered from it in various ways for years. Sometimes it burst out is Ulcers on my hands and arms; sometimes; it turned hward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and cars with one sore, which was painful and loadisone beyond description. I tried many medicines and severphysicians, but without much relief from any tiling. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Measenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Chemnati and got if, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and lucality akin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease is gone from my system. You can well believe that I feel wint I am saying when I tell you, that I hold you to be one of the spoules of the age, and remain ever gratefully. Yours.

New Out.Rays, 25th August, 1859.

Dr. J. C. Ayen. Sir.; I cherrefully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, id my practice, most of the complaints for which it is redomineded, and shave found its effects truly wonderful in the cure of Vegerent and Mercurial Disease. One of my patients had syphilitic ulcers in his throat, which were consuming his polate and the op of his mouth. Your Sarsaparilla, its distribution of the his work, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcera healed, and he's well again, not of course without some disagrantion of the line. A weman who had been reached for the same disorder by mercury was suffering from this poison in her boucs. They had become so sensitive to the weather that on a damp day sho suffered exercisating pain in her joints and bones. She, too, was cured entirely by your. Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised no.
