HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CHLEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretotore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hestefter's Stonneh Ditters for the last year amounted to over a half-million bottles and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the struction of the meet prominent physicians in those sections of the country physicians in those sections of the country where the article is best known, who not only recemmend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all closes of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be an enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other billous complaints have counted their frictims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system imparts renewed vitality to the nervous system, giving it that fone and energy indispensable for the restoration of licaliti. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

- Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years as it is pleasant to the palate, invigorating tellie bowels, excellent as a tonic, and rejavenating generally. We have the eviquence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under all deleterious drugs and fairly tested the merits of this juricle. A few words to the gentler sex. There are contain periods when their cares are to harassing that many of them

sink under the trial. The relation of mother and child is so also bringly tender, that the macher, especially if she be young is and to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of arrive during the summer senson, the wear of hody and mindle generally aggravated. Mere, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorations, that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength. of bodily strength.
All those persons, to whom we have particu-

All those persons to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Somneh Bitters a trial. CAUTION.—We chution the public against using any of the many imitations or counterfeits, but ask for Hosterter's Celebrated Somewhat Hoster had been that such bottle his STOMACH BITTERS, and see that each bottle has the words "Dr J.
