HELPER'S IMPENDING & CRISIS.

BY GILBERT J. BIEBE.

The stamphiller, consisting of 64 double column pages, was originally published pending the political canvass of 1880. The "impending Crisis," is a compilation of all the sophisms and malicious doctrines by which the public mind of the North had been, so far poisonel as to produce the triumiph of the Presidential can elidate of the sectional party last full. It was widely circulated gratuitously, by means of large contributions of money and did more than any other thing to deceive the masses of our people. In this Review and Revulation, we take up each of its chapters separately, and every important assumption in detail, and refute them so completely that no intelligent person can read the pamphlet without being convinced of the failing of all the wicked assumptions of the lifely of beds and of the dolly of the sectional strife which has culminated in claif was. As there is no probability that peace will be bermanently restored to our distracted land until the public mind at the North is disabused offits erroneous impressions relative to the tree character of Jour Sonthern sister States, most of whom are now in rebuiltion against our general government, as the result of the triumph of sectional functions both North and South,—it becomes the duty of all true patriots to do all in their power to remove, unjust prejudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by general circulation of our Refutation of Halper. It contains a large amount of walmable statistics, worth, for occasional reference, several times the price of the pamphlet, to all intelligent, civizens. Price 25 cents per copy, or \$2 per dozen—sent by mail, postage prepaid.

to tay 10 stamps to P. DUFF & SON.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation hereitofore unknown. A few facts-upon this point will speak more powerfully than volumes of bare assertion or bluzoning puffery. The cousumption of Hostetter's Stomach Bitters for the last year amounted to over a halfmillion bottles, and from its manifest stendy million bottles, and from its manifest stendy increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their nations.

where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

1 This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a cource of unialloyed pleasure. It removes all morbid matter from the astomach, purifies the blood, and

alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

to a condition essential to the healthy discharge of the functions of nature.

-Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, in rigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach deraugements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a new permetric trials.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hospetter's Celebrated STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
