WAR NEWS.

We have later advices concerning the TO ALL WANTING FARMS expedition up the Tennessee river. Eight thousand of our troops under Gen. Mc-Chernand, encamped on Tuesday four miles below Fort Henry. Three of gun boats made a reconnoissance to the head of Panther Island, during which a brisk fire was exchanged with the fort. Gen. Graut, who commands the expedition, returned to Paducali in the evening to bring up Smith's brigade of seven thousan I men. At the time the dispatch was written seven federal gunboats were in the stream and ready for action. Ramor said that the rebels had been strongly reintorced, and that Gen. Begaregard was

in command. The rebels at Fort Henry on the Tennessee river, were at noon on Thursday years. last, assaulted by our gunlioats in comm und of Commodore Foote, and after an hour and twenty minutes hard fighting, the secession troops surrendered, leaving all the artillerymen in the fort to be taken prisoners. The rebel infantry some Your theasandestrong, cut and fled, says eral movement southward.

We have at last heard from the Burnside expedition again. Our latest advices from Hatteras Inlet are to Thursday afternoon, at which time no forward movement had been made, not withstanding the reports which have before reached us, of cannonading having been heard in vàrious directions along the coast of North-Carolina. Neither Beaufort, Newbern nor Rodnoke Island had yet been reduced. The whole fleet, however, has succeeded in getting over the bar including the large transports, and some six thousand troops had been landed at Hatteras. The preparations for active operations were in such a state of forwardness as to warrant the belief that a movement toward the mainland would be made in a day or two.

The sloop-of-war Sayannah brings intelagence up to Tuesday, the 28th ult., which is to the effect that the expedition to the South sailed from Port Royal on Sunday the 20th uit., including all the light-draft steamers, eight gunboats and 8,000 troops: The principal part of the expedition went outside; but one or two small steamers with light vessels in tow went by the inside passage. The object was understood to be an attack on Savannah, commencing at Fort Bulaski, a

Meantine, in anticipation of a descent upon the Gaif Coast by one of the numerous expeditions now being fitted out by the National Government, the rebel troops are being rapidly withdrawn from Norfik, as the place where they can best be spired; and sent to Mobile By an order is and by the robel Wir Bepartment, all mantary commanders are diracted to seize all the salpeter to be found in their respective districts, and to allow a fixed sum per pound for it-payable, of course, in Confederate scrip. The Richmond Disputch announces the propability that Price, the leader of the Missouri rebels, bance cheers for the Union were given. Mortial law is expected to be proclaimed

Chi. Saith has notified Gen. McClellan of the results of a successful sconting expedicion ander his command in the vicinity of F int Hill, near Faufax Court house. Tive prisoners belonging to the First Cavara, were bearinged, and

his found it necessary to shell and destroy portions of the town of Harper's Ferry, as the buildings afforded a screen tion &c. January 2, 1562.-ms for the rebel riflemen, who have recently A report has reached Wheeling that

the rebels under Jackson evacuated Rom ney on Thursday. The direction taken by shem is not stated, but they have pro-bably gong to Winchester. The report is verified by a dispatch received in Wash-

VINELAND.

New Settlement of Vineland. A REMEDY FOR HARD TIMES.

A Bare Opportunity in the Best Market, and Most Delightful and Healthful Climate in the Unjon. Only thirty miles south of Philadelphia, on a railroad; boing a rich, heavy soil, and highly productive wheat land; Amongst the best in the Garden State of New Jersey.

IF CONSISTS of 20,000 acres of GOOD land, divided into farms of different sizes to suit the purchaser from 20 acres and upwards—and is sold at the rate of from fitteen to twenty dollars per acre for the farm land, payable one fourth cash, and the balance by quarter, yearly cash, all differents, with legal interest, within the term of four velocity. THE SOIL

Is, in great part, a rich elay loam, suitable for Wheat, Grass and Potatoss—alson dark and rich sandy loam, suitable for corn, sweet-potatoes, tobacco, all kinds of vegetables and root crope, and the great variety of fruit, such as grapes, pears, peaches, apricots, Nectarines, blackberries, melons and other fruits, best adapted to the Philadelphia and Snew York markets. In respect to the soils, and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing. four the disputch. Our troops, at latest advices, were in pursuit. The effect of this

Tho Best Fruit Soil in the Union. (See report of Solon Robinson, Esq., of the New York Tribins, and the well known agriculturist, William Parry, of Cinnaminson, New Jersey, which will be furnished

> By looking over a map the reader will perceive that it enjoys the best market in the Eaton, and has direct communication with New York and Philadelphia twice a day, being only thirty-two miles from the latter. Produce in this market brings double the price that it does in locations distant from the cities. In this location it can be put into the market the same morning it is gathered, and for what the farmer sells negets the highest price; whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what the buye he pare two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of sill the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization, and he's near a large city. THE MARKET.

THE CLIMATE Is delightful; the winters being salubrious and open whilst the summers are no warmer than in the North.— The location is upon the line of latitude, with norther Virginia.

PRISONS WANTING A CHANGE OF CLIMATE FOR HEALTH.

Would be much benefitted in Vineland. The mildness of
the climate and its bracing influence, makes it excellent
for all petinomary affections, dyspepsia, or general debilitie. Visitors will notice a difference in a few days. Chille
and feters are unknown.

Conveniences at Hand. Building material is plenty. Fish and oysters are identiful and chasp. Visitors must expect, however, to see a new place.

Picturial and Camp.

Visitors must expect, however, to see a new place.

Why the Property has not Been Settled Better.

Tore.

This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The railroad has just been opened thro' the property this season, for the first time. Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure their purchases, as locations are no, held upon refusal.

The SAFEST THING IN HAID TIMES, where people have been thrown out of employment or business, and possess some little means of small incomes, is to dart then stress dome. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is dained it see a certain independence and no loss. A few acres in froit trees will insure, a comfortable living. The land is put down to hard-time prices, and all improvements can be made at a cheaper rate than most any other time. Improvements can be made at a cheaper rate than most any other time.

The whole tract, with six miles front on the railroad, is being laideout with flue and spactous a vicines, with a town in the centre—twente lots in the town self at from \$150 to \$200; gwo and a half acre lots, at from \$50 to \$120 and town lots, 50 feet front by 120 feet deep, at \$100—payable one half cash, and the balance within a year. It is only upon farms of twenty acres, or more, that four years time is given. time is given.

TO MANUFACTURERS, the town affords a fine opening for the SHOE manufacturing business, and other articles, being near Philadelphia, and the surrounding country has a large population, which affords a good which commissioned as a Major-General, and that his Missouri troops will be received into the Rebel service as tweive means a volunteers. We have rumors that a riot occurred in Richmond on Taking a riot occurred in Richmond on Taking the disturbance of negatilest, and during the disturbance of negatilest of the gradual transfer of the softens will be insometed which willing the control will be an advantage to the settlement as it compels people to resort to agriculture for a living.

leg.

Large numbers of people are purchasing, and people who desire the best location should visit the place at once. Improved Land is also for sale.

Itimereved Land is also for sale.

The Title is full spatiable. Warrantee deeds given, clear of all incumbrance, when the money is paid.

Letters promptly answered, and reports of Solon Robinson and Wm. Parry sent, together with the "Vineland Rural."

House to the land to Leve Walrut's rest wharf. Phila-Vocama Cavary, were captured, and four belonging to the First North Carolina inflantly. A Captain and a pricate in Gen Smith's command were wounded.

REPORT OF SOLON ROBINSON, OF THE NEW YORK TRIBUNE,

VINELAND SETTLEMENT. The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Yineland. All persons can read this report with interest. Advantages of Farming near Home-Vineland-Re-

marks upon Marl-Soil, its great Fertility-The Cause of Fertility-Amount of Crops Produced-W. H. Marrell, of the Forty-seventh New York Regiment, that he will have Corce can and the other hostages released fro a confinement in ten days!

Late reports from Kentacky state that C. Garfield is at Paintseille with a sufficient of preserve order. The Virginia and South Carolina regiments under Hamphrey Marshall have gone back to Virginia. Marshall have gone back to Virginia. Marshall and the rest of his forces went to Pound Gap, where he disbanded them. The present whereabouts of Humphrey Marshall as not known.

There was rumor that a party of rebelicity of them killed.

Cause of Fertility—Amount of Ctops Produced—Practical Evidence. It is certainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of the side of the western first of the oldest farms apparently just as profitably productive as when first cleared of forces if thy or abunded country is a marine deposit, and all through the soil we found evidence of this forces went to Pound Gap, where he disbanded them. The present whereabouts of Humphrey Marshall as not known.

There was rumor that a party of rebelicity of the process of this process of the process of the

standing of the control of the standing and the standing of th arth. Having then satisfied our minds with the cause, they

to wheat, gave 15 or 16 brahels. The crup which he was threshing while we werd there promises more, of a very plump grain, and the straw is very heavy.

We wont over the stabile and found the clover and timethy, from seed sowed last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and settling stakes to mark permanent one, we will be able to cut the crop next year with a mowing machine and we will guarantee two tons per sere, if he will give the overplus-lift overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded one hundred and twenty bushels per acre, and seeded with wheat and clover, yielding an average of over 15 bushels per acre, and the clovernow looks beautiful.

Other portions have been planted with corn as a first crop, which yielded thirty bushels of vellow flint corn, and the second-crop forty bushels, and the third grop treated 154 pounds of gaano, we are sure no one would estimate below forty bushels per acre.

[The reader will recollect that the writer is now speaking of lands perfectly new, and which can scarcely be considered in good arable condition.—ED.]

In other cases the corn crop of last year was followed with onts this senson, not yet threshed, but will average,

ing of latide perfectly new, and winer can scarcery be considered in good arable condition.—ED.]

In other cases the corn crop of last year was followed with onts this season, not yet threshed, but will average, probably forty to fifty bushels. Sweet potatoes, beans, mellous, and in fact, all vegetables, as well as young peach and other fruit trees planted this year, show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr. Lundis, it will be divided into small lots, with roads located to accommodate all—the surveyor-is now busy at this work—and all purchasers will be required to build neat comfortable houses, and either fence their lots in uniformity, or agree to live without fonce, which would be preferable, by which means a good population will be secured who will establish churches, schools, stores, mills, machine shops and homes—homes of American farmers, survanuded by gardens, orchards, fields and comforts of civilized life.

If any one, from any derangement of business, is desir-

lzed life. If any one, from any derangement of business, is desir as of changing his pursuits for life, or who is from an 41 any one, from any derangement of business, is desir-ous of changing his pursuits for life, or who is from any cause desirous to find a new location and cheap home it the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen within a two hours ride of Philadelphia. SOLON ROBINSON.

Mark These Facts!
THE TESTIMONY OF THE WHOLE WORLD:

Holloway's Ointment! Bad Legs, Bad Breasts, Sores and Ulcers. Lt descriptions of sores are remediable by the prop-cer and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a fully; for should the skin unite, as bogy diseased condition remains underneath to break out with tenfold fury in a few days. The only rationar and successful treatment, as indicated by nature, is to re-duce the inflammation in and about the wound, and to-soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

soothe the neighboring parts by rubbing in plenty of the olimment as sail is forced into meat.

Diptheria, Ulcerated Sore Throat, and Scarlet and other Fevers.

Any of the above discaves may be cured by well rubbing the Ointment, three times a day, into the chest, throat and neck of the patient; it will soon penetrate and give immediate relief. Medicine taken by the month must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the ungene in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

Filter, Fisstula, Strictures.

Filter above class of complaints with he removed by nightly fomenting the parts with warm water, and then most effectually rubbing in the Ointment. Persons suffering from these directl complaints should lose not amount in arresting their progress. It should be understood that it is not sufficient merely to amear the Ointment on the affected parts, but it must be well rubbed infor some considerable time two or three times a day, that it may taken into the system, whence it will remove any indeed more or wound as effectually as though palpable tenths in a considerable time two or three times a day, that it may taken into the system, whence it will remove any indeed more or wound as effectually as though palpable tenths in a considerable time two or three times a day, that it may taken into the system, whence it will remove any indeed more or wound as effectually as though palpable tenths in a considerable time two or three times a day that it has been a considerable time two or three times a day that it has been any or the system, whence it will remove any indeed more or wound as effectually as though palpable into the considerable time two or three times a day that it has been any or the system, whence it will remove any indeed more or wound as effectually as though the more of the system of the system of the system

Indiscretions of Youth; -- Sores and Ulcers. Indiscretions of Youth;—Sores and Ulcers.

LOTCHES, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the in the printed instructions. When treated in any other way they only dry up in one place to break out its another; whereas this Ointment will remove the humofrom the system; and leave the patient a vigorous and, healthy being. It will require time with the use of the Pills to ensure a lasting cure. Pills to ensure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints:

A LTHOUGH the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Olintment is diligently rubbed into the parts affected, even after every other means have failed. In, all serious maiadies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in

the following cases:
Chiego-foot, Fistulan, the following cases
Bad Legs, Chilego-foot,
Bad Breasts, Chilbiaine,
Burns, Chapped Hands,
Glandular Swellings Corus, (Soft)
Bite of Moschetoes, Cancers,
and Sand-Flies, Contracted and
Coco-bay, Sure Throats,
Hore noads, Tumors,
WendsS, Yaws Gout. Lumbago, Piles, Rheumatism. Scalda, Sore Nipples, Scurvy, Ulcors, WendsS. Yaws &c. &c. &c. &c. &c. CAUTION:—Noncare genuine unless the words "Mottowar, New-York and London," are discernibles as water-mark in every leaf of the book of directions around each pot or box: the same may be plainly serin by hedding the leaf to the light. A handsome reward will be given to any one yendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious. **Sold at the Manufactory of Professor Holloway, 60 Maiden Lanc, New York, and by all re-pectable Druggists and Dealers in Medicine, throughout the civilized world, in boxes at 25 cents, 62 cents, and \$1 each.

By There is considerable saving by taking larger boxes. N. B.—Directions for the guidance of patients in every disorder are affixed to each box.
