THE undersigned having taken the Rooms formerly occupied by W. B. DE N.S. is now prepared to furnish all who may desire with a good and truthful Portrait. Being well posted in the production of the various kinds of Pictures of the day, I flatter myeelf that my work is not excelled by any in this section of the country.

Among the various kinds taken at my Booms are the AMBROTYPE, PHOTOGRAPH, MELAINOTYPE, NEILLOGRAPH M SLAINOTYPE, NEILLOGRAPH.

Locket Pictures down to the smallest sized miniature fling. Transferred Ambrotypes—the finest thing out, for sending by Post to any part-of the World without extra postage. 'My Pictures are bold, vigorous, and expressive—not those taint, lifeless sindows often sold about the country. Pictures taken in all kinds of weather, equally well, except those of young children. No picture need be taken unless perfect satisfaction is given.

In dressing for a picture, avoid light colors,—such as blue, purple, scarlet, pink, etc. Most others take well; as green, black, red, smif, brown, orange, yellow, etc.

MERRIMANS. A REVIEW AND REFUTATION

HELPER'S IMPENDING CRISIS. BY GILBERT J. BEEBE.

THIS PAMPHLET, consisting of 64 double column pages, was originally published pending the political canvass of 1850. The "Impending Crists," is a compilation of all the rophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the sectional party last fall. It was widely circulated gratuiton-ly, by means of large contributions of money, and did more than any other thing, o deceive the masses of our peoples. In this Review and Refutation, we take up each of its ciapters separately, and every important assumption in det til, and refute them so completely that no intelligent person can read the pamphle without being convinced of the falsity of all the wicked assumptions of the Helper book and of the folly of the sectional stile which has epimenated in civil war. As there is no probability that peace will be permanently restored to our distracted and until the public mind at the North is disabused of fits erroneous impressions relative to the true character of our Southern sister States, most of whom are row in rebellion against our general government, as the result of the friumph of sectional fanaticism both North and South,—it becomes the duty of all true patriots to do all in their power to remove unjust prejudices between the North and South,—it becomes the duty of all true patriots to do all in their power to remove unjust prejudices between the North and South, and there is probably no more efficient means of accomplishing this result, than by general circulation of Helper. It contains a large amount of valuable statistics, worth, for occasional reference, several limes the price of the pamphlet, to all netelligent citizens. Price 25 cents per copy, or \$2 per dozens—each by mail, postage prepaid. G. J. PEEBE.

#### HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last very amounted to over a half-The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near-one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepera-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is dectined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious domplaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indisochable imparts renewed vidently forther nervous system, giving it islat tone and energy indispensable for the restoration of licalth. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons on may use the Bitters daily na per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the number expecially if she he wound is not the and child is so absorbingly tender, that the mother, especially if she be young, is apt to-forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorations, because it is agreeable to the taste as cians, because it is agreeable to the taste as well as certain to give a permanent increase

All those persons to whom we have particularly referred above, to wit: sufferers from fever anil ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetier's Felebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hosterter's Celebrate Stomach Bitters.

Reliable Testimony. We call the attention of the reader to the following letter from President Smith, formerly of Wesleyan University, and now of Annopolis, Md. MIDDLETOWN, Conn., Feb. 25, 1859.

FETH W. FOWLE & CO. — Gentlemen: — ] first made use of the Orygeneted Bitters some seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use."

The use of one bottle warranted a further triat, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relicf from the usual dyspeptic symptoms and their depressing, painful consequences, I believe these Unters impliced an entire change in the habits of tip system, and upon the active energies of the digestive organs. I now deem myzelf as exempt from Dyspepsia as most persons. These flitters have also been of service to other members of my family. Very respectfully yours,

- Augustus W. Smith.
