HELPER'S IMPENDING CRISIS

BY GILBERT J. BEEBE.

THIS PAMPHLET, consisting of 64 double column I pages, was originally published pending the political carvass of 1880. The "Impending Crisis," is a compliation of all the sophisms and malicious doctrines by which the public mind of the North had been so far poisoned as to produce the triumph of the Presidential candidate of the sectional party last fall. It was widely circulated gratuitously, by monns of large contributions of money, and did more than any other thing to deceive the misses of our people. In this Review and Refutation, we take up each of its chapters separately, affective important assumption in detail, and refute them so completely that no intelligent person can read the pamphlet without being convinced of the falsity of all the wicked assumptions of the Helper book and of the folly of the sectional strife which has culminated in civil war. As there is no probability that peace will be permanently restored to our distracted land until the public mind at the Northis disabased of its erroneous impressions relative to the true character of our Southern sister States, most of whom are now in rebellion against our general government, as the result of the triumph of sectional fanaticism both North and South.—it becomes the duty of all true patriots to do all in their power to remove unjust prejudices between the North and South, and there is probably no more efficient means of accomposibing this result, than by general circulation of our Refutation of Helper. It contains a large amount of valandle statistics, worth, for occasional reference, several times the price of the pamphlet, to all green and the proper of the pamphlet, to all green and the pamphlet, to all green and the proper of the pamphlet, to sufference several times the price of the pamphlet, to sufference several times the price of the pamphlet, to sufference several times the price of the pamphlet, to sufference several times the price of the pamphlet, to sufference several times the price of the pamphlet, to suffer BY GILBERT J. HOSTETTER'S STOMACH BITTERS.

P. DUFF & SON.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu-States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hestetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady in times post it has avident that during increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready, it all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

I This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeding the qualities of the Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a cource of unalloyed pleasure. It removes all morbid matter from the istomach, purifies the blood, and imparts rehewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimplant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this arricle. A few words to the gentler sex. There are certain parieds when

all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trinl. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase drugs and fairly tested the

well as certain to give a permanent increase of bodily strength.

All those persons to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannualed invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetter's Celebrated Stomach Bitters a trial. THE OXYGENATED BITTERS, THE OXYGENATED BITTERS.

Reliable Testimony. We call the attention of the reader to the following letter from President Smith, formerly of Wesleyan University, and now of Annapolis, Md. MIDDLETOWN, Conn., Feb. 28, 1859.

SETH W. FOWLE & Co. — Gentlemen: — I first made use of the Organized Bitters some acres or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a nervous headache, on an average of not less than one day in a work. I was induced, by the unprefeading recommendation of the second of the seco day in a week, I was induced, by the unpretending rec-onmendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use," The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myself as exempt from Dyspepsia as most persons. These Bitters have also been of service to other members of my family.

Very respectfully yours,

AUGUSTUS W. SMITH.
