Capture of Fort Marion, St. Augustine and Jacksonville.

Washington, March 19-Despatches

he would protect the loyal citizens, they raised the flag with their own hands. The Rebel troops evacuated the night before the appearance of the gun boats. This is the second of the old Government forts that has been taken by Commodor

Dupont. The town of Jacksonville, Florida, was also surrenderd in like manner, and the Governor of Florida has recomended the entire evacuation of East Florida.

The Pennsylvania Legislature.

We subjoin the interesting statistics showing the occupation and nativity of the members of our present Legislature: In the Senate there are sixteen lawyers, two physicians, six farmers, one editor, one blacksmith, one miller, one carpenter, one contractor, one clerk, one real estate dealer, one merchant and one jeweler. The oldest man in the Senate is Dr. Crawford, of Mifflin, being 63; the voungest is 29, Messrs. Bound and Gratz both being set down at that age.

In the House there are twenty three lawyers, twenty farmers, six physicians, ten merchants, two lumber merchants, one tavern and storekeeper, one dyer, one printer and editor, one lumberman, one cattle dealer, one inkeeper, one merchant, one architect, two clerks, two printers, three shoemakers, two surveyors, five carpenters and builders, our bank note printer, one raftsman, one dentist, one cabinet maker, one iron master, three editors, two bankers, one insurance agent. one laborer, one liarness maker, one clergyman, and two gentlemen.

The oldest man in the House is Mr. Peters, of Lancaster, who is seventy; the youngest is Mr. Quigley, of Philadelphia, who is twenty-nine. The average age of the members of the House is forty years, and the average age of Senators thirty-Of the members of the House, seventy-

nine are natives of Pennsylvania, one of Massachusetts, seven of New York, two of Ohio, two of Connecticut, one of Maryland, one of Rhode Island, one of Freland, one of England, and one of New Jersey. Of the Senate, twenty-nine areanntives of Pennsylvania, two of Ohio, one of New

Jersey, and one of Ireland. In both

The late noble address of General Me-Clellan to his army of the Potomac, has met with universal approbation Ev en secessionists cannot refrain from admiring and praising it. It is hoped that miserable fanatical catamount. Horsee Greeley, and other impracticable min-ions of the same radical school, will now see why General McClellan acted as the del, what he had done, &c, and forever after hold their peace.

There is no excuse for these senseless and useless attacks upon a man who knows more in ten minutes about military affairs, than they ever did or could, if all such libelers were united into one consolidated intellect. The whole nation now feels victory is certain, that rebellion will be crushed out, and the Union saved .-Rebels themselves even begin to realize this portentous truth.

Confirmation by the Senate.

Washington, March 21 -The Senate was in executive session for several hours this afternoon, and confirmed the following nominations as Major Generals of the volunteer forces, vic. :- Brigadier Generals Don Carlos Buell,

John Pope, Samuel R. Curtis Franz Sigel, John A. McClernand, Charles F. Smith and Lewis Wallace:

To be BrigadierGenerals of Volunteers the following :- John Cooke, Richard J. Oglesby, John McArthur, Jacob G. Lanman, John A. Logan, Robert L. McCock, Speed S. Fry. (All of these gentlemen were Colonels.)

In Congress on Friday last, Mr. -Morrisoffered the following:-That the United States ought to cooperate with any State which may adopt the gradual abolishment of the evils resulting from the sale of intoxicating liquors, giving to such State pecuniar y aid, to be used by such State in its discretion, to compensate for the inconvenience, public and private, produced by such changes of system. [This resolution was received with laughter.]

Saleratus, like port wine, can be made for almost any price, which is done by using cheap and deleterious substances. Herrick Allen's Gold Medal Saleratus is perfectly pure and undulterated, and one paper will convince any intelligent lady that there is nothing egual to it. It will produce one eighth more bread than any other; is much better than soda to use with cream tartar. Grocers and Druggists

REPORT OF SOLON ROBINSON, OF THE NEW YORK TRIBUNE,

INELAND SETTLEMENT The following is an extract from the report of Solon Robinson. Esq., published in the New York Tribyne, in reference to Vineland. All persons can read this report with interest. Advantages of Farming near Home-Vineland-Re marks upon Marl-Soil, its great Fertility-The Cause of Fertility; Amount of Crops Produced-

Cause of Fertility; Amount of Crops Produced.

Practical Evidence.

It is certainly one of the most extensive fertile tracts, in an almost level position, and auitable condition for pleasant farming that we know of this side of the western prairies. We found-some of the oldest farms apparently just-as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form or insulasted calcareous mari, showing many distinct forms of ancient shells, of the terriary formation; and this marly substance is scattered all through the soil, in a very comminated form, and in the exact condition most easily assimilated by such plants as the farmer desires to cultivate.

Marl, in all its forms has been used to fertilize crops in Empland, from the time it was occupied by the Romans; and in France and Germany a mari bed is counted on as a valuable bed of mature, that can be dug and carted and spread over the field. How much more valuable then it must be when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth.

Other portions have been planted with corn, and the second crop forty bushels, and the third crop, and the second crop forty bushels, and the third crop, treated 150 pounds of guano, we are sure no one would estimate below forty bushels per acre.

Sidered in good arable condition.—EE.]

In other cases the corn crop of last year was followed with oats this season, not yet threshed, but will average, probably forty to fifty hushels. Sweet potatoes, beans, mellons, and in fact; all vegetables, as well as young peach and other fruit trees planted this year, show very plainly that this long neglected tract of land should remain so no lenger, and there is now a strong probability that it will not; for under the auspices of Mr. Landis, it will be divided into smallots, with roads located to accommodate all—the surveyor is now busy at this work—and all purchasers will be required to huild neat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured who will establish churches, schools, stores, mills, machine shops and homes—homes of American farmers, surrounded by gardens, orchards, fields and comforts of civilized life.

If any one, from any deraugement of business, ta deair.

The Grover & Baker S. M. Co. beg to call the attention of the public to their recently introdu NOISELESS FAMILY AND MANUFACTURING sewing wachines. MAKING THE SHUTTLE OR LOCK STITCH.

These machines combine all the latest useful improve nents in sewing machinery, and are highly recommended for their
Simplicity of Construction;
Noisclessness; Rapidity;
Ease of Yanagement;
Capacity for all kinds of work,
And Beauty and Regularity of Stitch. Various styles of these machines adapted to the house or workship will be found at the different agencies of the company throughout the United States. Their new SHUTTLE MACHINE FOR TAILORS' USE,

The latest triumph of the sewing machine art—noiseless rapid, and easily operated—will commend itself to thos who use such machines for manufacturing clothing. Grover & Baker Machines,

MAKING THE GROVER & BAKER STITCH. These justly-eclebrated machines, adapted to all the wants of the household and manufactory, continue to maintain the pre-ministers which the almost universal rerdict of the public has awarded them. The well-known STRENGTH, ELASTICITY, & DURABILITY, of the Grover & Baker Stitch, will always insure these machines the preference for family use, for the manufacture of such goods as are intended for wear-for use and not for show. Wherever the Gover & Baker Stitch Machines

mase exhibited and fairly judged in competition with the leading Sewing Machines in the market, including the Wheeler & Wilson, they have invariably borne off the first premium.

This assistion is confirmed by the decision of the com-mittees of the State Fairs of ILLINOIS, OHIO and.

MICHIGAN y held, which awarded the first premium to the LiBaker Machine over all others in competition F. B. CHANDLER, Agent,

By looking over a map the reader will perceive that ft enjoys the best market in the Union, and has direct communication with New York and Philadelphia turies a day, being only thirty-two miles from the latter. Broduce in this market brings double the price that it does in locations distant from the cities. In this location it can be put into the market the same morning it is gathered, and lor what the farmer sells he gets the highest price; whilst groceries and other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the, great cities of New England and the Middle States. He is near his old friends and associations. If has school for his selfiden, and he is near a large city.

a delightful; the winters being salubrious and open, thist the summers are no wariner than in the North— he location is upon the line of latitude with northern Virginia.
PRISONS WANTING A CHANGE OF CLIMATE FOR HEALTH, would be much benefitted in Vineland. The mildness of the climate and its bracing inducence, makes it excellent for all pulmonary offections, dispepsia, or general debility. Visitors will notice a difference in a few days. Chille and fector are unknown. Conveniences at Hand.

Building material is plenty. Fish and oysters are entiful and cheap.
Visitors must expect, however, to see a new place. pentiful and cheap.

Visitors must expect, however, to see a new place.

Why the Property has not Beem Settled Before.

This question the reader naturally asks. It is because it has been held in large tracts: by families not disposed to sell, and being without railroad facilities they had few inducements. The railroad has just been opened thry the property this season, for the first time.

Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come, with a view to settle, should bring money to secure their purchases, as locations are not held upon refusal.

The Nation Things in Hamp Times, where people have been thrown out of employment or businesses, and possess some little means are small incomes, its to start themselves and mans. They can buy a piece oi land at a small price, and carn more than wages in improving it, and when it is done it is a certain independence and no loss.

A few acres in furit trees will insure a comfortable living. The land is just down to hard-time prices, and all improvements can be made at a cheaper rate than most any other time.

The whole tract, with six miles front on the railroad, is being haid out with fine and spacious avenues, with a town in the centre—diveners lots in the town sell at from \$150 to \$200; two and a half acre lots, at from \$60 to \$100 and town lots 30 feet front by 150 feet deep, at \$100 payable one of the most beautiful places, and other articles, being near Philadelphia, and the surrounding country has a large population, which affords a good market.

country has a large population, which afords a good market.

This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence.

It is intonded to make it a Vino and Fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and corvenience for the settlers will be introduced which will be sure the prosperity of the place. The hard times throout the country will be an advantage to the settlement, as it compuls people to resort to agriculture for a liveling. as it compels people to resort to agriculture for a living.

Large numbers of people are perchasing, and people who desire the best location should-visit the place at once. Improved Land is size for sale.
