## HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a halfmillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country. where the article is best known, who not only recommend the Bitters to their patients, but

recommend the Bitters to their patients, but, are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague a Godseiter's Somach Bitters have fover and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like disenses, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter amore pleasure. It removes an mornic matter from the stomach, purifies the blood, and imparis renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores then

to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the painte, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the cvidence of thousands of aged men and women who have experienced the benefit of using this who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their bares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive diving the summer season, the west of for her miant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bûters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as

well as certain to give a permanent increase well as certain to give a permanent increase of bedily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the atomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against neing any of the many imitations or counterusing any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

Reliable Testimony. We call the attention of the reader to the following letter from President Smith, formerly of Wesleyen

University, and now of Annapolis, Md. MIDBLETOWN, Conn., Feb. 23, 1859. BETR W. FOWLE & CO. - Gentlemen : -- I first made use of the Organized Bitters some seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a pervous beadache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one hottle, and if no henefit was received to discontinue the use." The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance

of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and, their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now does myrelf as exempt from spepsia as most persons. These Sitters have also been of service to other members of my family." Very respectfully yours, AUGUSTUS W. SMITH.

RICHMOND, Tioga Co., Pa., Aug. 25, 1858. GENTLEMEN, - After suffering for more than thirty years with Dyspepsis, and trying many remedies recommended for that disease without any good result, I was induced, by Dr. F. H. White of Mansfeld, to give the Oxygeneted Bitters a trial, I took two bottles, which gave me so much relief that I purchased two more, which have nearly or mite effected a cure. I am now nearly seventy-five years of age, and for three months past have felt no inconvenience from my food. I take great pleasure in recremmending the Blitters to a afflicted with Dyspepsia and its concomitant diseases. A. HEBARD
