MARIAGES.

In Brooklyn, June 28d, 1862, at the residence of the bride's father, Mr. SAMU-EL B. ELDRIDGE and Miss MARY EMILY KENT, all of Brooklyn.

At the Allen House, in Honesdale, on the 28th ult., by the Rev. Dr. Paddock, Mr. M. A. Pickering, of Jackson, and Miss S. ESTHER LEWIS, of the same place. On the 2nd inst., in Franklin, by Eld. W. C. Tilden, Mr. NEWELL BAILEY, of Liberty, and Miss AMANDA C. MITCHELL,

of Franklin. In Montrose, July 3, by Rev. A. O. Warren, Mr. L. E. Van Housen, of New Milford, and Miss HELEN M. PICKERING, of Gibson.

DEATHS.

In New Milford, June 16th, of dipthe ria, Eugene, son of Harvey and Olive Grinnell, aged 2 years and 1 day.

In New Milford, June 18th, of diptheria, Helen Louisa, youngest daughter of Mynard and Mary Green, aged 12 years, 2 months and 5 days.

In New Milford, June 27th, of the same disease, Charles Martin, youngest son of Mynard and Mary Green, aged 8 years, 11 months, and 21 days.

In Springville, June 22nd, 1862, Mr LATHAM WILLIAMS, aged 86 years. Mr. Williams emigrated from Connecticut some fifty-one years since, and settled in the township of Brooklyn, Susq. co. Pa., where he has been favorably known ever since. The deceased was living with his son in the eastern part of Springville at the time of his death.

Mr. Joseph A. Beebe, formerly a resi dent of Bridgewater, Susquebanna co. Pa-died at Port Royal, South Carolina, on the 15th of June, aged 34 years, 5 months and-10 days. He was a meinber of Co. D. 50th Pa. Vol., and has been in the vicinity of Port Royal and Beaufort ever since the capture and occupation of those places by our troops. Several months as occasioned by exposure at the battle of l'ort Royal Ferry. He soon, however, recovered, and enjoyed remarkably good health up a very few days previous to his death. He was a kind and affectionate brother, husband and friend, and to the brothers and sisters, wife and children whom he leaves behind, his death is a severe affliction; all the more so from the fact that he died far away from them all, among strangers. .

A funeral discourse will be preached by Rev. R. Van Valkenburg at the M. E. Church, in Montrose, on Sunday, July 13, at 101 a. m.]-Cou.

At Washington City, May 28th, T. J. SOUTHWORTH, a member of Co. H, 61st N. Y. Vol., a young man of good address, decided promise, and possessing a noble and generous heart. When the war opened. so suddenly and unexpectedly upon the country, he was ready to chlist, but cir-counstances prevented his leaving till fall. He spent some months in damp at New York and Washington, where he professed a hope in Christ in company with a Flour & Salt, constantly on hand number of his regiment. He was among the foremost in the march to Manassas; was at the siege of Yorktown, and marched from there to Williamsburg thro' mud and rain; returned to Yorktown, and was Tile Subscribers have now returned from New York Washington, and died in two weeks at Carver Hospital. The last week his sisters and brother-in-law were with him, and he had all the attention and comfort Spring, and think we can without doubt, please in both Style, Quality, and Price. We have along styles of the control of taken sick with typhoid fever; came on to alm and composed, expressing a readiness to go, regretting only that he was not permitted to do more for his country, and share in her peril and her glory. His to Liberty, and kept until June 5th, when it was consigned to the grave with appro-

printe funeral ceremonies. + Con. At the New York City hospital, on the 6th, Lieut. B. R. Lyons, 2d., late Co. D, 50th Reg. P. V. He was wounded in the repulse at James Island, near Charleston, S. C., and was one of the first to scale the enemy's works, having led the assault. He was then acting as aid to Brig. Gen. Stevens. His remains were brought home to Montrose, this morning The funeral services will be held at the Presbyterian Church on Wednesday July 9th, at 3 o'clock, P. M.

REPORT OF SOLON HOBINSON. OF THE NEW YORK TRIBURE.

VINELAND SETTLEMENT The following is an extract from the report of Solon Robinson, Ead., published in the New York Tribust; is reference to Vincland. All persons can rest this report with interest. Advantages of Farming near Rome-Vineland-Re marks upon Marl-Soil, its great Pertility-The Cause of Fertility-Amount of Crops Produced-Practical Evidence.

Practical Evidence.
It is cartainly one of the most extensive fertile tracts, in an almost level position, and suitable condition for pleasant farming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profitably productive as when first cleared of forest fitty or a hundred years ago.
The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the foll we found evidences of calcarcous substances, generally in the form of Indulated posit, and all through the roll we found evidences of informations substances, generally in the form of indicated calcarsons mark showing many distinct forms of success should, of the tertiary formation: and this marly substance is scattered all through the soil, in a very comminuted form, and in the exact condition most cashly assimilated by such plants as the farmer desires to cultivate.

Mark, in all its formashas been used to fertilize crops in England, from the time it was occupied by the Romans; and in France and Germany a marked is countred on as valuable bed of manure, that can be dug and carted and apread over the field. How much more valuable then it must be when found already mixed through the soil, where new particles will be turned up and exposed, and transformed to the owner's use every time he stirs the earth.

where new particles will be turned up and exposed, and transformed to the owner's use every time the siles the farth.

Having then estissed our minds with the carse, they will not be excited with wonder at seeing industrable evidence of fertility of a soil which in our situations, having the same general characteristics or at lexu appearances, is entirely unremunerative except as sits productive mes is promoted by artificial fertilization.

A few words about the quality and value of the lend for cultivation, of which we have some strong proof.

Our first visit was to William D. Wilsein. Franklin township, Gloucester county, who purchased some eight mile anorth of Miliville, about three years 180, for, the purpose of establishing a steam mill; to work up the finite into lumber, to send off by the new ratirond, as well as the firewood and coal, for which he built: a track a mile and a half long. He also furnished sixteen miles of the road whith ties, and had no douby made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some or his crops prove. For instance, the second time of cropping, 306 bushels of potatoes on one acre, worth 60 cents a bushel in the field. This year, seven acres, without manure, produced 36 bushels, of oats. In one field, the first crop was potators; planted among the roots, and yielded 75 bushels. The pointors, were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buck theat which yielded 35% bushels of loats. In one film is third, 300 pounds Perturing unon the cover and timothy, which gave as a fart crop 24 tons per atree. The fertilizers applied to these crops were so netted.

At. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as productive as any part of the Sixte.

At. Wilson's growing crops, and the wheat stubble of the present season, all indicate his land as productive as any part of

cis of slacked lime has been spread upon the clover since it was moved, and turned in for wheat.

Air. Wilson's growing crops; and the wheat stubble of the present season, all indicate hisland as productive as any part of the Sixto.

At Mary Barrow's, an old style Jersey woman farmer, several miles south of Mr. Wilson's, we were so particularly strack with the fine appearance of a field of corn, that we stopped to inquire of the hird man how it was produced. We found that the land had been the year but one before in wheat, sown with clover, and this cut one before in wheat, sown with clover, and this cut one scason, and last spring plowed once, with one "peor old nag," and planted with corn.

"Yes, but you manured high, we suppose?" we said interrogatively, and got his reply:—"Wasl, you see, we couldn't done that: 'cause wo hadn't but forty-one horse loads altegether, for 23 acres, and we wanted the most on't far the truck."

The truck consisted of beets, carrots, cabbage, cdcumbers, mellons, &c., and a very productive patch of Llima beans, grown for marketing. So we were satisfied that the soil was not infertile, even unaided by clover, which had fed the corn, because the "truck patch" had not been clovered, and had been in cultivation long enough to obliterate all signs of the forest.

Our next visit was to the large farm of Andrew Sharp, five miles north of Millville, from halfto a mile cast of the railroad, and just abbut in the coare of Vineland.—Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years he has got 231 acres cleared and in crops this season, all, well inclosed and divided into several fields, with cedar rail or polic fence; has built a two-story dwelling, about thirty-elx or forty feet, and a smaller house for farm laborers, and a stable and granary and some other ontbuildings.

Considerable part of the land was cleared for the plow at 324 dollars ansacre, and on some offit the first crop was buckwheat, limed with 50 hushels per acre, have sted in wheat, gave

over 15 bushels per acre, and the clovernow looks beautiful.

Other portions have been planted with corn as a first
crop, which yielded thirty bushels of yellow filmt corn,
and the second crop forty bushels, and the third crop,
treated 135 pounds of ruano, we are sure no one would
estimate below forty bushels per acre.

[The reader will recoilect that the writer is now speaking of lands perfectly hew, and which can secreely be considered in good arable condition.—ED.] statered in good arable condition.—En.]

In other cases the corn crop of last year was followed with oats this season, not yet threshed, but will average, probably forty to fifty bushels. Sweet potatoes, beans, melions, and in fact, all vegetables, as well as young peach and other fruit trees planted this year, show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probabilist that will not; for under the auspices of Mr. Landis, it will be divided into small lots, with roads located to accumedate all—the surveyor is now busy at this work—and all purchasers will be required to build incat comfortable houses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secured who will establish churches, schools, stores, milis, machine shops and homes—homes of American farmers, survanded by gardens, orchards, fields and comforts of civilized life.

If any, one, from any derangement of business, is desired.

litzed life.

If any one, from any derangement of business, is decirous of changing his pursuits for life, or who is from any cause desirous to find a new location and cheap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself wint may be seen within a two hours ride of Philadelphia.

SOLON ROBINSON. Great Bend Seminary,

AT GREAT BEND, SUSO'A COUNTY, PA. The Summer Term of this SCHOOL WILL OPEN ON Mondary May 19th, 1862, and continue ELEVIN WEEKS, under the direction of R. CUSHMAN, as principal. The course of instruction inail the branches, is thorough and practical. A thorough preparation given to young men destring to enter College.

A teachers class will be organized at the commencement of the term, for the more full training of those wishing to teach; and assistance rendered them in procuring situations for the summer. This class will receive instruction on the theory and practice of teaching, one hour each day, and have public meetings once in two weeks.

R. CUSHMAN, PRINCIPAL. HON. S. B. CHASE, A. M., Instructor in Greek, Lat n and German. REV. J. B. McCREARY, Chaplain and Lecturer on

moral science.

MISS A. H. GREEN, Teacher of Primary Department.

WISS MATTIEJ. ORANGE, Teacher of music on Pian Terms of Tuition. imary Department, per quarter of eleven weeks. \$3 Higher English and Mathematics do., 5 0
Natural Sciences do., 7 0
Languages, Ancient or modern do., 8 00
Teachers Normal Class do., 5 5
Music on Piano do., 2 00
The higher branches include the lower, thus: \$8 00 per quarter covers all branches named, above, except teachers can be o tailed with the control of the control

Board can be o tained with furnished rooms at from \$2 13 to \$2 50 per week-lights, washing and fuel extra Students wishing to hoard themselves can obtain rooms in the school building by analyzing a second n the school building by applying in season. Great Bend, April 23, '52 - y1 '?'

CRITTENDEN'S PHILADELPHIA COMMERCIAL COLLEGE,

N.E. corner of 7th & Chestnut Sts., PHILADELPHIA.

This Institution, which was established in 1844, and a now consequently in the eighteenth year of its exist-uce, numbers among its graduates hundreds of the logi successful Murchants and Business Men. of our Interv.
The object of the Institution is folely to afford voning on facilities for thorough preparation for business. The brinches tanght are. Book keeping, as applicable the various departments of trade: Penmanship, both alm and ornamental: Commercial Law, Mathematics, viciation, Civil Engineering, Drawing, Phonography, and the lengthy experience of the Pri lon offers facilities superior to any tion effers facilities superior to any other in the country, for young men wishing to prepare for business, and to obtain at the same time a Diploma, which will prove a recommendation for them to any Mercantile House. 27 Criticaden's Series of Treaties, on Book-keep, ing, now more widely circulated than any other work on the subject, are for sale at the Colleke.

S. HOLGES CRITTENDEN,

VINELAND. to all wanting farme.

New Settlement of Vineland. A REMEDY FOR HARD ITMES.

rich, heavy soil, and highly productive wheat land; Amongst the best in the Garden State of New Jersey.

THE SOIL Ir, in great part, a rich clav loam, suitable for Wheat, Gross and Potatos, salson dark and rich sandy loam, suitable for corn, sweet-potatoes, tobacco, all kinds of veretables, and root crops, and the great variety of fruit, such as gampes, pears, peaches, apricots, Nectarines, blackber, rice, melon and other fruits, best adapted to the Philadelphia and New York markets. In respect to the selfand crops there can be no mistake, as visitors can exam-ine both, and none, are expected to buy before so doing, and finding these statements correct—under three cir-cumstances, unless these statements were correct, there would be no no is in their being made. It is considered The Best Fruit Soil in the Union.

By looking over a map the render will perceive that is enjoys the best market in the Union, and has directeen-munication with New York and Philadelphia below a degbeing only thirty-two miles from the latter. Produce is this market brings double the price that it does in locations distant from the cities. In this location it can be put into the market the same morning it is gathered, and for what the farmer sells he gets the highest price; while groce-fresand other articles he purchases he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the actite has many other advantages. It is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friender and associations. He has school for his call, dren, divine service, and all the advantages of civilization, and he is near a large city. THE MARKET.

THE CLIMATE. te delightful: the winters being saluhrious and open, whilst the summers are no warmer than in the North.—The location is upon the line of latitude with northers Virginia.

PERSONS WANTING A CHANGZOF CLIMATE FOR HEALTH, would be much benefitted in Vineland. The mildness of the climate and its bracing influence, makes it excellent or all pulmonary affections, dyperpela, or general schillent, Visitors will notice a difference in a few days. California ferrer are unknown.

Conveniences at Hand. Building material is plenty. Fish and oyaters are lentiful and chesp. Visitors must expect, however, to see a new place.

Vigitors must expect, however, to see a new place.

Why the Property has not Been Settled Become it has been the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities they had few inducements. The railroad has just been opened threthe property this season for the first time.

Vicitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who came with a view to active should bring money to scene their purchases, as licetions are not field upon refusal.

The Sarest Thitse is Hard Times, where people have been thrown out of employment or business, and possess some little means or small incomes, is to dest three-seles shows. They can buy a piece of land at a small price; and earn more than wages in improving it, and when it is donet it is a certain independence and no low.

A few acres in fruit trees will insure a comfortable living. The land is put down to hard time prices, and all improvements can be made at a chapper rate than most any other time.

ing. The land is put down to hard-time prices. and all improvements can be made at a cheaper rate than most any other time.

The whole tract, with six miles front on the railroad, is being laid out with fine and spacious avenues, with a being laid out with fine and spacious avenues, with a town in the centre—five acre lots in the townsell at from \$150 to \$200; two and a half acre lots, at from \$50 to \$120 and town lots 50 feet front by 150 feet decy, at \$160—122, and town lots 50 feet front by 150 feet decy, at \$160—122, and town lots 50 feet front by 150 feet decy, at \$160—122, and town lots 50 feet front by 150 feet decy, at \$160—122, and town note that the allowing his constant as \$160 feet front by 150 feet decy, at \$160 feet front paper, and the surrounding from \$150 feet front paper, and the surrounding from \$150 feet front paper, and the surrounding front \$150 feet front paper, and the surrounding front \$150 feet front paper, and the country has a large population, which affords a good market.

This settlement, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence.

It is intended to make it a Vine and Fratt growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and corvenience for the settler will be introduced which will insure the prosperity of the place. The hard times therount the country will be an advantage to the settlement, as it compels people to resort to agriculture for a live inc. Ing.

Large numbers of people are purchasing, and people who desire the best-location should visit the place at once. Improved Land is also for sale.

It MBER.—Indean be hought with or without timber. The Timber at market valuation.

The Tile is Indispatable. Warrantee derds gives, clear of all incumbrance, when the money is paid. Boarding conveniences at hand.

Letters promptly answered, and reports of Solom Poblished and Win. Parry sent, together with the "Vissiand Rural."
