HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repustates, because the article has attained a repu-tation herotofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostatter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming, year the consumption will reach near one million bottles. This immense amount need on million bottles. This immense muonic could never have been sold but for the rare medicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements efficacy in all cases of stomached arrangements and the diseases resulting therefrom.

This is not a semporary popularity, obtained by extraordinary efforts in the way of trumpeting the quartics of the Bitters, but a solid estimation of an invaluable medicine, which is destination to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a fodesand to regions where fever and agne and various pther bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomuch, purifics the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomech, liver, and other digestive organs, mildly but powerfully, and soon restores them

mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant poculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the hencefulor using this who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility: acting under ions they all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother sink under the trait. The relation of months and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety fee her infant. Should the period of maternity surive during the summer season, the wear of hady and mind is generally aggravated. Here, theu, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting tripls and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent-increase

well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fover and ague, caused by malaria diarrhoes, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

Reliable Testimony.

We call the attention of the reader to the following letter from President Smith, formerly of Wesleyon University, and now of Annapolis, Md.

MIDDLETOWN, Conn., Peb. 28, 1859. SETH W. FOWLE & CO. - Gentlemen : - I first made use of the Organized Bitters some seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, "to try one bottle, and if no benefit was received to discontinue the use." The use of one bottle warranted a further trial, to the extent of some three or four, with a careful obse of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive organs. I now deem myrelf as exempt from Dyspepsia as most persons. These Bitters have also been of service to other members of my family.

Very respectfully yours. AUGUSTUS W. SMITIL

RICHMOND, Tioga Co., Pa., Aug. 25, 1858. GENTLEMEN, - After suffering for more than thirty years with Dyspepsia, and trying many remedies recommended for that disease without any good result, I was induced, by Dr. P. H. White of Mansfield, to give the Organized Bitters a trial. I took two bottles, which gave me so much relief that I purchased two more, which have nearly or quite effected a cure. I am now nearly seventy-five years of age, and for three months past have felt no inconvenience from my food. I take great pleasure in recommending the Bitters to all afflicted with Dyspepsia and its concumitant dises A. HEBARD

AYER'S CATHARTIC PILLS.

Arityon sick; fachle, and complaining? Are you out of order, with your system decanged, and your facilings uncomfortable? These symptoms are often the product of carriers and should be averted by a similar which will be averted by a similar before the facility. Take Ayer's Pills, and elecanse out the disordered humans—purify the blood, and liet the faults move on unobstructed in health again. They stimulate the fault is gain. They stimulate the fault is matural functions. These, if not relieved, react upon the obstructions which make disease. A cold settles somewhere in the body, and obstructs a clipity, purify the ayeter from the obstructions which make disease. A cold settles somewhere in the body, and obstructs a relieved, react upon the matural and common complaint, is also true in many of the many of the many of the many of the derangements of the system, and with it the bnoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the devensated and dangerons distempers. The same purgative offset explait hem. Cainsed by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cared by the same means. None who know the virtues of these Pills, will inglect to employ them when suffering from the disorders they care.

Dh. Avin: Your Pills are the paragon of all that is great in medicine. They have eired my little daughter of ulcerons sores upon her hands and feet that had proved inenrable for years. Billious Disorders—Liver Complaints.

From Dr. Theodore Hell, of New York City.

Not only are your Fills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of billious complaints than any one remedy I can mention. I sincerely rejoise that we have at length a purgative which is worthy the confidence of the profession and the people.

Dirattrinty of Tite Internov.

Washington, D. C., 7th Feb., 1858.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and do not hesitate to say they are the best cathartie we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of billous disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital.

Too much cannot be sail of your Pills for the care of costiveness.
