HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United 8. ares, because the article has attained a repa-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or histoming puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in time past, it is evident that during the coming year the consumption will reach increase in times plant the consumption will reach the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare could never have been sold but has respectation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its

are ready at all times to give testimonials to use efficacy in all cases of stomachic derangements and the diseases resulting the efform.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

This setter's Stomach Bitters have proved. a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like discuses, is to the proprietors a source of us-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, g ving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs mild y but powerfully, and soon restores them to a condition essential to the healthy discharge

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palats, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the eviand rejuvenating generally. We have the evidence of thousands of aged men and women dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the divice of physicians, they have abandoned at the deleterious drugs and fairly tested the merits of this article. A few words to the footbook of the article and the sufferious when gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if the be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe rate the burgies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase well as certain to give a permanent increase

well as certain to give a permanent increase of hodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diardices dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing nothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for Hostetten's Celebrates STONACH BITTERS, and see that each borde has the words," Dr. J. Hostetter's Stomach Bitters" b'own on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the

label.

Ypsilanti, Mich.

From the Examiner, Norfolk Va. Cephalic Pills accomplish the object for which they we nade, viz.; cure of beadache in all its forms.

From the Examiner, Norfolk, Va. They have been tested in more than a thousand cas ith entire success. From the Democrat. St. Cloud. Minn. If you are, or have been troubled with the headache lend for a box of cephalic pills, so that you may have them in case of an attack.

From the Advertiser, Providence, R I The Cephalic Pills are said to be a remarkably effective remedy for the headache, and one of the very best for that very frequent complaint which has ever been dis-covered.

From the Western-R R Grzette, Chicago We heartily endorse Mr. Spalding, and his unrivalled Cephalic Pills. From the Valley Star, Kanawha, Va.

We are sure that persons suffering with the headache, who try them, will stick to them. From the Path Finder. New Orleans, La Try them! you that are afficied, and we are sure that your testimony can be added to the already numerous list that has received benefits that no other medicine can produce.

From the St. Louis Democrat The immense demand for the article (cephalic pills) is spidly increasing. From the Gazette, Davenport, Iowa. Mr. Spalding would not connect his name with an ar-cle he did not know to possess real merit.

From the Advertiser, Providence, R. I. The testimony in their favor is strong, from the mo

From the Daily News, Newport, R. I. Cephalic Pills are taking the place of all kinds.

By the use of these Pills the periodicattacks of Nersous or Sick Headachs may be prevented; and if taken at the commencement of an attack, immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headachs to which females are so subject.

They act gently upon the bowels,—removing Costiveness. For Literary Men. Students, Delicate Permises, and all persons of sedentary habits, they are valuable as alazadire, improving the appetite; giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a wast amount of pain and suffering from Headache, whether originating in the narrous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and aymbe taken at allitmes with perfect safety without making any change of dict, and the absence of any disagreeable losts rendered taxey to administer them to children.

Beware of Counterfeits. The genuine have five signatures of Henry C. Spalding oneach box.
Sold by Druggists and other Dealers in Medicines.

LUBRICATING OIL.

Ayer's Sarsaparilla FOR PURIFYING THE BLOOD,

And for the speedy cure of the subjoined variet Brevilla and Serefulous Affections, such as Tumors, Ulcers, Sures, Ernpilous, Pim-ples, Pustules, Blotches, Bolis, Blains, and all Skin Diseases.

plen, Pustules, Bletches, Bells, Blaims, and all Skin Diseases.

J. C. Ayer & Co. Gents: I feel it my duty to somewholes what your Suraparills has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and care with one sore, which was painful and loathsome beyond description. I tried many medicines and sever physicians, but without much relief from any thing. In het, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your repaintion that any thing you made must be good. I sent to Cincinnati and got it, and used it till it caved me. I took it, as you advise, in small doses of a toaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scah, which after a while fell off. My skin is now clear, and I know by my fielings that the disease is good from my-system. You can well believe that I feel, what I am saying when I toll you, that I hold you fole one of the spectics of the age, and remain ever gratefully, AFRED B. TALLEY.

ALFRED B. TALLEY.

St.: Anthony's, Fire, Rose or Erysipelas,
Tetter and Ralt Rheums, Scald Head, Ringworm, Sere Eyez, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th
Sept., 1899, that he has cared an inveterate case of
Drongy, which threatened to terminate failly, by the
persevering use of our Saraparille, and also a dangerons attact of Malignant Erysipelas by large doses of the
same; says he cares the common Eruptions by it was
stantly. Bronchocele, Goltre, or Swelled Neck.

Zebulon Sioan of, Prospect, Texas, writes: "Three bottles of your Sarasparilla cared me from a Goltre—a hideous awelling on the neck, which I had suffered from over two years."

Louiserthea or Whites, Ovarian Tumor, Uterina Ulceration, Fernale Diseases. Uterfame Uteration, Female Disease.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in asying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Disease of the Scrottlona diathesis. I have cured many laveterate cases of Leucorrhea by it, and some where the complaint was caused by ulcrations of the uterat. The ulcration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala, writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remetick we could employ, has at length been completely cared by your extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resurt before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

New Onigenes, 25th August, 1852.

Dr. J. C. Ayer. Sir: I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommeded, and have found its effects truly wonderful in the cure of Veneral and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his now, and the ulceration had esten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcra healed, and he is well again, not of course without some disfiguration of the face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered except calting pain in her joints and bones. She, too, was cared entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with if have not surprised inc.

Fraternally yours. G. V. LARIMER, M. D.

Rheumatiem, Gent, Liver Complaint. Syphilis and Mercurial Disease.

Rheumatiem, Gout, Liver Complaint. Rheumatism, Geut, Liver Complaint.

INDEPENDENCE, Freston Co., Va., 6th July, 1859.

DR. J. C. AYKE. Bir: I have been afflicted with a painful chronic likewactism for a long time, which baffled the
skill of physicians, and stuck to me in spite of all the
remedies I could find, until I tried your Sarsaparilla. One
bottle cured me in two weeks, and restored my general
health so much that I am far better than before I was
stracked. I think it a wonderful medicine. J. FIEA M.
Jules Y. Getchell, of St. Louis, writes: "I have been
afflicted for years with an affection of the Liver, which
destroyed my health. I tried every thing, and every thing
fulled to relieve me; and I have been a broken-down mun
for some years from no other cause than decongement of
the Liver. My beloved pastor, the Rev. Mr. Empy, advised
me to try your Sarsaparills, because he said he knew you,
and any thing you made was worth trying. By the blessing of God its has cured me, and has so purified my blood
as to make a new man of me. I feel young again. The
best that can be said of you is not half good enough."

Schitreus, Cancer Tumors, Emlargement, Ul-

Schirrus, Cancer Tumors, Enlargement, Ul-ceration, Caries, and Exfoliation of the Bones. Bones.

A great variety of cases have been reported to us where are not these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them. Dyspopsia, Heart Disease, Fits, Epilepsy,
Melancholy, Neuralgia.

Many remarkable cures of these affections have been
made by the siterative power of this medicine. It stimulates the vital functions into vigorous action, and thus
overcomes disorders which would be supposed beyond
its reach. Such a remedy has long been required by the
peossities of the people, and we are confident that this
will do for them all that medicine can do.

Ayer's Cherry Pectoral,

· FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hearseness, Croup, Brenchitis, Incipient Consumption, and for the Beller of Consumptive Patients, in advanced stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth-Faw are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

REPORT OF SOLON ROBINSO M OF THE NEW YORK TRIBUNE,

VINELAND SETTLEMENT. Solon Robinson. Esq., perhished in the New York. Tribuse, in reference to Vinciand. All persons can read this report with interest.

Advantages of Farming near Home-Vineland—Remarks upon Mari-Soll, its great Fertility—The Cause of Fertility—Massant of Crops Procuced—Practical Rules Cause of Fertility—Ameant of Creps Precused—Practical Evidence.

It is certainly one of the most extensive fertile iracted in an aimost level position, and suitable condition for pleasant farming that we know of this side of the western prairies. We found some of the older farms appearing that we know of this side of the experience of the continued first of the standard productive as when first cleared of forest fifty or a lunderly gaze age.

The geologist, would suon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcarcous substances, generally in the form of indulated calcarcous mari, showing many distinct forms of ancient calcarcous mari, showing many distinct forms of ancient shells, of the tertilety formation: and this mary substance is scattered all through the soil, in a very comminuted form, and in the exact condition most easily assimilated form, and in the farmer desires to califivate.

Mari, in all its forms has been used to fertifies creps in England, from the time it was occupied by the Romans; and un France and Germany a maribed is caused on as a valuable bed of manure, that can be day and carried and spread over the field. How much more valuable then it must be when found already mixed through the soil, where new particles will be turned up and exposes, and transformed to the owner's use every time he stirr the carth.

it must be when found already mixed through the soil, where new particles will be turned up and expores, and transformed to the owner's use every time he sairs the earth.

Having then saileded our minds with the care, they will not be excited with wonder at seeing indubitable evidence of fertility of a soil which in our situations, having the same general characteristics or at least appearance, is entirely unremonerative encept as its productiveness is promoted by artificial fertilization.

A few words about the quality and value of the land for cultivation, of which we have some strong press.

Our first visitymas to William D. Wilson, Franklis township, Gloucester county, who purchased some eight miles north of Mitville, about three years ago, for the purpose of establishing a steam mill. to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a track as mile and a half long. He also furnished sixteen miles of the road whith ties, and had no doubt made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some or his crops prove. For instance, the second time of croping, 306 bushels of potatoes on one acre, worth 600 cents a bushel infine field. This year, seven acrer, without manure, produced 326 bushels in one acre, worth 600 cents a bushel infine field. This year, seven acrer, without manure, produced 326 bushels in one acre, worth 600 cents a bushel infine field. This year, seven acrer, without manure, produced 326 bushels of one acre, worth 600 cents a bushel infine field. This year, seven acrer, without manure, produced 326 bushels of one acre, worth 600 cents a bushel infine field. This year, seven acrer, without manure, produced 325 bushels of one acre, worth 600 cents a bushel infine field. This year, seven acrer, without manure, produced 325 bushels of one acre, worth 600 cents and yielded 350 bushels of one acre, worth

clovered, and had been in cultivation long enough to ob-literate, all signs of the forest.

Our next visit; was to the large farm of Andrew Sharp,
five miles north of Millville, from half to a mile east of
the railroad, and just about in the centre of Vineland.—
Mr. Sharp commenced work here in Becember, 1838, upon 270 acres. In less than three years he has got 234
acres cleared and in crops this season, all well inclosed
and divided into several fields, with cedar rail or pole
fence; has built a two-story dwelling, about thirty-six
or forty feet, and a smaller house for farm laborers, and a
stable and oranary and some other untbuildings. fence: has built a two-story dwelling, about thirty-six or forty feet, and a smaller house for farm laborers, and a stable and grandry and some other outbuildings.

Considerable part of the land was cleared for the plow at \$9 dollars ansiere, and on some offit the first crop was buckwheat, limid with 50 bushels in powder per acre.—
This crop may be put in from July 4th to 30th, and yields from twenty to thirty bushels per acre.—barves ted in November; when the land beims owed with 150 ponnds of Peruvian guand and seeded with 150 ponnds of Peruvian guand and seeded with 150 ponnds of Peruvian guand and seeded with rey, yielded 12 to 16 bushels per acre and ten dollars worth of straw. The rye stubble turned, siter knockingoff a large growth, of oak sprouts, and dreased again with guano and sieded to wheat, gave 15 or 16 bushels. The crop which he was threshing while we were there promises more, of a verypluing grain, and the straw's very heavy.

We went over the stubble and found the clover and timothy, from seed sowed last spring; on the wheat without harrowing looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some-roots and rotten stumps, and setting stakes to mark permanent ones, we will be able to cut the crop next year with a mowing machine and we will guaranteetwo tons per acre, if he will give the overplus if it overruns the estimate.

Part of the hand was planted with potatoes for a first crop, which yielded one hundred and twenty bushels per acre. It was fuen limed with fifty bushels per acre, and seeded with weet and clover, yielding an average of over 15 bushels per acre, and the clover now looks beautiful.

Other portions have been planted with corn as a first crop. which yielded thirty bushels of vellow dint corn

tifal.

Other portions have been planted with corn as a first crop, which yielded thirty busicles of yellow fiint corn, and the second crop forty bashels, and the 'third crop' treated 150 pounds of chunds, were mere no one would estimate below forty whiles per acre.

[The reader will recollect that the writer is now speaking of lands perfectly new, and which can scarcely be considered in good arable condition.—Ep.] In other cases the corn crop offist year was followed with oats this leason, not yet threshed, but will average, probably forty to fifty bushels. Sweet publices: beans, mellons, and in fact, all vegetables, as well as young peach find other fruit trees planted this year, show very plainly that this long neglected tract of land should an plainly that this long neglected tract of land should remain so no longer, and there is now a s rong probability that it will not; for under the auspice of Mr. Landis, it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this work—and all purchasers will be required to build neat confortable honses, and either fence their lots in uniformity, or agree to live without fence, which would be preferable, by which means a good population will be secared who will establish churches, schools, stores, mills, machine shops and homes—homes of American farmers, surrounded by gardens, orchards, fields and comforts of civilized life.

ized life.

If any one, from any derangement of business, is designs of changing his pursuits for life, or who is from an ansac designous to find a new location and cheap, some incountry, and who may read and believe what we have been country, and who may read and believe what we have the country.
