HOSTETTER'S **STOMACH BITTERS.**

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation hereiofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blasoning puffery. The consumption of Hostetter's Stomach Bit-ters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming was the consumption will reach the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who hot only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficier in all cases of stomachic derangements and the diseases resulting therefrom.

a This is not a temporary popularity, oblained by extraordinary efforts in the way of trum-peing the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach. Bitters have proved

a Godsend to regions where faver and ague and various other bilious complaints have counted their victims by hundreds. To be "able to state confidently that the ..." Bitters' are a certain cure for the Dyspepsia and like diseases, is to the proprietors a cource of un-alloyed pleasure. It removes all morbid matter from, the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

el the functions of nature. Elderly persons may use the Bitters daily as per directions on the botte, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the lowels, excellent as a tonio, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stonach depreparation while suffering from stoquach de-rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the geniter ser. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother. and under the trial. The relation of mother, and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated: Here, bogy and minus generativ agginates. And then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers gene-rally prefer the Bitters to all other invigora-rally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of hodily strength. All those persons, to whom we have particu-

larly referred above, to with sufferers from fever and ague, caused by malaria, diarrhœa, dysentery, indigestion, loss of appeilte, and all disenses or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. I have eured with the in my practice, most of the com-plaints for which it is recommended, and have found its effects a trady wonderful in the cure of Faverent and Mer-entrial Discase. One of my patients had Synkillite ulcors in bis threat, which were consuming his phalte and the top of his mouth. Your Sarsaparilla, steadily taken, eared him in five weeks. Another was attacked by sec-ondary symptoms in his nose, and the ulceration had atter away a considerable part of fi, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla, the ulers healed, and he is well again, not of course without some disfiguration of the face.
