A few facts upon which water all. nation nereiotore unknown. A tru facts upon shis point will speak more powerfully than relumes of bare assertion or blezoning puffery. The conjumption of Hostetter's Stomach lit-ters for the last year amounted to overla half-million buttles, and from its manifest steady nereuse in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sauction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the discuses resulting therefrom

This is not a temporary popularity; obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an anataluable medicine, which is dustined to be as explained as the circular terms. estimaton of an invaluable medicine, which is destined to be as enduring as time itself. Hostetter's Stomach Bitters have proved a footsetter's Stomach Bitters have proved a footset of the bilious complaints have counted their victims by hundreds. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the painte, invigorating to the bowels, excellent as a tonic, and saline at the state of the painter of the pain declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the widence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their gares are so harnsaing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the litters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by-the same means. None who know the virtues of these Pills, will hegiest to employ them when suffering from the disor-ders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public per-sons. Dn. Ayen: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter-of-dicerous acres upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried-your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic. From Dr. E. W. Cartwright, New Orleans.

Four Pills are the prince of purges. Their excellent qualities surpass any catharite we possess. They are mild, but yery certain and effectual in their settion on the bwels, which makes them invaluable to us in the daily treatment of disease.

Hendache, Sick Headache, Feul Stomache.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever ireat with a purpative medicine. I place great dependence on an effectual cathartic in, my daily contest with discuse, and believing as I do that your Pills afford us the best we have, I of course value them highly.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst hendache any body can have, by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect,

Figure Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Fills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilions complaints than any one remedy I can mention. I sincerely rejoise that we have at length a purgative which is worthy the confidence of the profession and the people.

Thy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR.

Washington, D. C., 7th Feb., 1850.

Sin: Have used your Pills in my general and hospital practice ever sines you made them, and do not heritate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that dragan. Indeed, I have seldom found a case of bitious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D. Physician of the Marine Hospital.

Dysentery, Diarrhos, Relax, Worms.

From Dr. J. G. Green, of Chicago.
Your Fills have had a long trial in my practice, and I hold them in exteem as one of the best sperients I have ever found. Their siterative effect upon the liver makes them an excellent remedy, when given in small dones for billious dysenfery and diarrheed. Their super-coating makes them very acceptable and convenient for the use of women and children. Dyspensis, Impurity of the Blood. V. Himes, Pastor of Advent Church, Boston

DR. AFER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES. my friends. Yours, J. V. HLMED.

Constipation, Coativeness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Yaughn, Montreal, Canada. From Dr. P. Yougan, Montreal, Canada.
Too mich cannot be said of your Pills for the cure of continencies. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough life itself, is the progenitor of others that are worre. I believe conferences to originate in the liver, but your Pills affect that organ and cure the disease. From Mrs. E. Stuart, Physician and Midwife, Boston. I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural scoretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel vorus. They are so much the best physic we have that I recommend no other to my patients.

HONOIED SHI: I should be unfractful for the relief you is a cold settled in my limbs and brought on excuenting neuralge pains, which ended in chronic rheumatims. Notwillistanding I had the beet of physicians, the discusse grew worse and worse, mull by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

It is certainly one of the most extensive fertile tracts in an almost level position, and suitable condition for pleasant farming that we know of this side of the western prairies. We found some of the oldest farms apparently just as profusibly productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidencer of rai-carcous substances, generally in the form of indulated calcareous mark showing many distinct forms of ancient sliells, of the tertiary formation; and this marly substance is excattered all through the soil, in a very comminated by such plants as the farmer desires to cultivate.

Mark in all its forms has been used to fertilize crops in Rugland, from the time it was occupied by the Romans; and in France and Germany a marbed is counted on as a valuable bed of manure, that can be dug and carted and appead over the field. How much more valuable then it must be when found already mixed through the soil, where new particles will be farmed up and exposed, and transformed to the owner's use every time he stirs the earth.

Our first visit was to William D. Wilson, Prankin township, Gioucester county who purchased some cight miles north of Miville, about three years ago, for the purpose of establishing a steam mill, to work up the timber into lumber, to send off by the new railread, as well as the firewood and cost, for which he built a track a mile and a half long. If ealed furnished sixteen miles of college the control of the control

over 15 bushels per acre, and and control of the form as a first ful.

Other portions have been planted with corn as a first grop, which yielded thirty bushels of yellow flint corn, and the second crup forty bushels, and the third crop, rested 150 pounds of mano, we are sure no, one would estimate below forty bushels per sore.

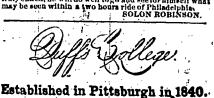

[The render will recollect that the writer is now speaking of bands perfectly new, and which can scarcely be conng of lands perfectly new, and which can sca idered in good arable condition.—ED.] sidered in good arable condition.—ED.]

In other cases the corn crop of last year was followed with outs this season, not yet threshed, but will average, probably forty to fifty bushels! Sweet pointies, been-melions, and in fact, all vegetables, as well as young peach and other fruit trees planted this year, show very plainly that this long neglected tract of land should remist so no longer, and there is now a strong probability that it will not; for under the amplices of Mr. Landis, it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this, work—and all purchasors will be required to build maternation and all purchasors will be required to build maternation and in the work of the secured who will establish entrope, schools, stores, mills, machine shops and homes—homes of American farmers, surrounded by gardens, orchards, felds and comforts of civilized life.
