Why the Property has not been Settled be-fore.
This, juestion the reader naturally asks. It is be-cause it has been held in large tracts by families not dis-posed to sell, and heing without rulirood facilities they had few inducements. The railroad has just been open-ed through the property this senson, for the first time. Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thoro-investigation. Those who come with a view to settle, should bring money to secure their purchases, as loca-tions are not held upon refusal.
The safest thing in hard times, where people have been thrown out of employment or business, and posses-some little means or small incomes, is to start them-selves a home. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is done: it is a certain independence and no loss. A few acres in frait trees will secure a comfortable living. The land is put down to hard time prices, and and the improvements can be made at a cheaper rate than most any other time.
The whole tract, with six miles front on the railroad, is being laid out with fine and epacious avenues, with a town in the centre-five acre lots in the town sell at from §150 to §200; two and a half acre lots, at from \$30 to \$120, and town lots 50 feet front by 150 feet deep, at \$100-payable one half in cash and the balance within a year.
