A Negro Dance at Parson Brownlow's Residence.

"Parson" Brownlow writes to the Cincinnati Commercial, saying: I have seen and conversed with a gentleman recently from Knoxville.

We have two classes of slaves in Knoxville—good and bad. The former celebrate the Christmas holiday with appropriate exercises at the African Methodist Church.

We have in Knoxville another class of slaves, who are vain and fashionable, and handle money the year round.

But I set out to speak of the dance, and of the occupation of my house for that purpose. Mine is a large and commodious dwelling.

REPORT OF SOLON ROBINSON OF THE NEW-YORK TRIBUNE, VINELAND SETTLEMENT.

The following is an extract from the report of Solon Robinson, published in the New York Tribune, in reference to Vineland. All persons can read this report with interest.

Advantages of Farming near Home—Vineland—Remarks upon Marl—Soil, its great Fertility—The Cause of Fertility—Amount of Crops Produced—Practical Evidence.

It is certainly one of the most extensive, fertile tracts in almost any position and suitable for the most pleasant farming that we know of this side of the western prairies.

The geologist would soon discover the cause of this continued fertility. The whole country is a marl deposit, and all through the soil we find evidences of calcareous substances.

Marl, in all its forms has been used to fertilize crops in England for the time it was occupied by the Romans; and in France and Germany a marl bed is considered a valuable bed of manure.
