Assassinated.-Lowery Chase, a wellto-do-farmer, living in Abington Township Luzerne County, was killed about eight o'clock one evening last week, by an aseassin who stole up to within a few feet of his window, and discharged at him, through it, a gun or pistol. The ball passing through his head produced instant death. No clue to the perpetrator of this crime, has yet been discovered. Many of our readers will recollect Mr. Chase, as the man who was charged a few months since with having killed a Mr. Wood, a near neighbor of his, who was found lying on the ground, hanging to a small bush upon which charge he was subsequently tried and acquitted. POR THE DEMOCRAT. The Blue-Lights Changing Color. The following is an extract from a letter in the Montrose Republican, dated New York, April 7th, 1863:

are not fit to live who resist its authority."

Ungrateral man: Do you not know the Convention that framed the Constitution of Democrats as a matter of be called upon to aid in the suppression Ungrateful man! Do you not know who have "set aside its authority," you probably would never have been born? That the fathers of these maniaes in our power of the President in regard to the land now raving for blood, would not have lived to give birth to their wick-ed offspring? Do you not know that your fathers prepared to resist a Conscription act (by force of arms if need be,) declaring it a violation of the Constitution -which act was but a shadow, a semblance of despotism, while this is the dread reality? If you did know it and have wilfully forgotten it, we will read you a history, which we hope will stopyour ravings.

You say, "they are not fit to live who esist the authority of the government." Then, sir, between the period of the year of our Lord 1812 and 1815, four Governors of the New England States, a majoriwould have suffered death at the hands of that Gen. While our government was engaged in fighting against its ancient foe, whose avowed object was to reduce the United States to colonies dependent upon the crown, the President made a demand one in 1812, illegal—a usurpation of fedcrown, the President made a demand on the governors of the eastern states to furnish men from the militia, to guard oppose it. Now, behold the contrast besaical advocates of abolition, corruption their own scaboard. This the governors of Massachusetts, Connecticut and Rhode Island refused to do. So the federal party admitted that our fathers circumscribed the power of the President into that cannot be. And would you believe without just provocation. And yet he very narrow limits-that is, that he should have control of none of the militia but what the governors of the states should consent to give him. And now, my dear sir, what did that good old Democratic government do with these governors, legislators, and the delegates to that Convention? Did they send forth their female agents to tell the people then what Anna Dickinson told the people at the Cooper Institute this week, and what you told us a few days ago? Miss Dickinson says: "If the Democratic party attempts ty of all the legislators, and two-thirds of to prevent the carrying out of the conthe inhabitants of that eastern country scription, the streets will be drenched in blood, or the government will have evit will be simply removing the seat-of war from the south, to New York, to New England, and to the Northwest." You, sir, said you hoped the government would put the conscription in force at the point of the bayonet, or pistol, and Miss Dickinson says it will be done. This, after proeral power, and advising all the states to tween black republicans and Democrats! Did the Democrats ever manifest such a tyrannical, blood-thirsty disposition? No, thank God, never! We still have a reare put to death as all true friends of liberty have ever been, by tyrants when conciliatory, how mild, how benign has

## A Word of Cheer.

Our advices from every portion of the State, says the Age, are of the most cheering character. In almost every county the work of organization is going on with vigor and enthusiasm, and ineetings are frequently held, which are largely attended by the Democratic masses. We also have reliable information of the strenuous exertions which are being made by the Jacobins to secure a thorough and complete organization. "Leagues" are formed, and the attractive prefix of "Union" is adopted by the Abolition leaders, to ria was burnt by her officers while making lide their real character, and deceive the Sixty-three republican members of Con- a recomoissance of the Amite river. Her lox's ears eke out from the non's main bolish slavery, and so help us God we who attempted to pick off her men. Her and these brave and valiant "Union" men are seen to be nothing more than-Abolition Jacobins in disguise:

Our Democratic friends throughout the State must continue in the good work ry brighter. There is a belief, irresistible people, that the Union can only be restored by the Democratic party. This sentiment will find a faithful expression at the. polls, and will sweep from power the men who have betrayed the trust reposed in them by the too-confiding masses. But more work must be done-counties must be canvssed-townships must be roused—and boroughs must be awakened. This labor cannot be begun too soon, and it is with sincere gratification that we record the carnest and energetic manner in which the Democracy of the Commonwealth are preparing for the coming struggle at the ballot-box. The attempt of the Jacobin leaders to weaken the Democratic cause, by denouncing those who differ with them, as "traitors and secession sympathizers," has utterly failed. It has not frightened a single brave heart from its duty.

On the contrary, it has only excited a more unyielding determination to resolutely oppose the usurpations and corruptions of the imbecile party now in power? Let the Democracy be patient, and be of good blieer. Let them labor without ceasing, and remember that the destinies of the nation are in their keeping. The gloom of the present will only increase the brightness of the future.

The world rolls Freedom's radiant wave Adn ripens with her Sorrowig, Keep heart—who bear the cross to day Shall wear the crown to-morrow.
