General Orders of Gen. Hooker.

Head-quarters Army of the Potomac, May 6, 1863.—The following order has been issued;

GENERAL ORDERS, NO. 49. The Major-General Commanding, tenders to this army his congratulations on its achievements of the last seven days. If it has not accomplished all that was expected, the reasons are known to the army. It is sufficient to say that they were of a character not to be foreseen or prevented by human sagacity or resources.

In withdrawing from the south bank of the Rappahannock, before delivering a general battle to our adversaries, the army has given renewed evidence of its confidence in itself and its fidelity to the principles it represents. In fighting at a disto our trust to ourselves, our cause and our country. Profoundly loyal and conscious of its strength, the Army of the Potomac will give or decline battle whenever its interest or honor may demand. It will also be the guardian of its own history and its own arm. By our celerity and secresy of movement our 'advance and passage of the rivers was undisputed, and on our withdrawal, not a Rebel ventured to follow. The events of the last week may swell with pride the hearts of every officer and soldier of this army. We have added new lustre to its former

We have made long 'marches, crossed fought have inflicted heavier blows than we have received. We have taken from it was faithfully applied. the enemy five thousand prisoners, fifteen colors, captured and brought off seven pieces of artillery, placed hors de combat eighteen thousand of his chosen troops, tifications of his capital, and filled his country with fear and consternation. We have no other regret than that caused by the loss of our brave companions, and in this we are consoled by the conof battle.

By command of Maj. Gen. Hooker. S. Williams, (Signed) Assistant Adjutant-General.

Addr ss of Hon. C. L. Vallandigham to the Democracy of Ohio. Military Prison, Cineinnati O., )

To the Democracy of Ohio: I am here in a military bastile for no other offense than my political opinions, and the defense of them, and of the rights of the people, and of your constitutional crat-for Constitution, for law, for the defence. Union, and for liberty; this is my only "crime." For no disobedience to the Constitution; for no violation of law; for no word sign, or gesture of sympathy for the disease: with the men of the South, who are, for disunion and southern independence, but day; but

"Time, at last, sets all things even!" Meanwhile, Democrats of Obio, of the Northwest, of the United States, be firm, be true to your principles, to the Constitution, to the Union, and all will yet be well. As for myself, I adhere to every principle, and will make good, through imprisonment and life itself, every pledge and declaration which I have ever made, uttered, or maintained from the beginning. To you, to the whole people, to to Time, I again appeal. Stand firm! Falter not an instant!

The peculiar taint or infec-tion which we call Schor-ur. A lurks in the constitu-tions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid become incompetent to sustain th

incompetent to sustain the vital forces in their vigorous action, and leaves the system tem to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered ease, low living, disordered in the contamination is variously caused by mercurial disease, low living, disordered in the contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and depressing vices and above all filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth gen-eration;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz., purification and invigoration of the hlood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous

s compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Kvil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is turnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which t has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it. tims far more subject to disease and its fatal results

which lurk within the system of the part of it.

We know the public have been deceived by many compounds of Sarsoparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than
