A Loyal Republican Speech.

The loyal admirers of the administration, under the title of "anti slavery so that the line of division between the ciety" held a meeting in New York last friends of the Administration and the follows. It may be considered as an official exposition of abolition loyalty.

of the Ethiopian race as higher than severai other races in the world, and then entered into an elaborate argument in favor forth the object of the meeting. The fifth of amalgamation as the great future of resolution is in the following words: this country and race—its highest perfection coming when the amalgamation is only a Constitutional way should cease, most complete. We are not to have a for it springs neither from good sense nor pure negro race here. We have not an from an enlightened and enlarged patriotisolated race among us except the jews, and it is frought with peril if not inand will any one say that they have gaindeed with ruin to our cause,"—(the cause the corners; I have on hand, and am continually manner of anything by that itself its formula is a continually manner. ed anything by that isolation? This A- of the negro.) merican people is made up of all peoples.

Great nations get the fibre of their strength out of mixed blood. It is a stoppage of the world's growth to prevent a union of races. The history of the ment of the administration. This is well world's progress, the history of the civilization of all empires, is written in one friend to his country. Here we have it comprehensive word, which many men proclaimed that the Constitution which are afraid to speak and many actions. MATION. (Whispers, "Oh, good gracious." 'Applause.)

What is the progress of amalgamation in this country? We have no isolated case among us. The blood of all nations is mingled here. What of the negro oath to support the Constitution and ne-blood? Our fathers wrote in the preamble of the Constitution: "This Constitution is ordained to secure the blessings public trust. The Constitution defines of liberty to us and to our posterity." white men, but he denied it.

The speaker had been to a negro wedding the other day and was called to notice that not one in ten of the company were of pure African feature and pure African color. What does it argue? That the negro race is passing away like the Indian? No. Just the opposite.

It is not black blood that comes to pour itself into white veins; it is white blood that comes to pour itself into black veins, and it is a truer and better statement to say, not that the black race in the country is passing away, but that it is being absorbed by the wnite, and a large part of the white population in the south is melting away into the black. We are absorbing the great Irish race and the German race, and the negro race is absorbing a large part of the white race. Before long, when we are asked: "Where is the negro?" we shall point out negroes clad in white skin. The negro is filling his veins from our fountains of life.

The church of Christ in the past may have been pre-eminently the black race. HOW THE NEGRO IS BETTER THAN THE WHITE MAN

It is said that the most perfect development of skull is that of the Arab, yet there is no slave in Mississippi who does not know more, by having reached up into a perfect manhood, than the Arabi In all those intellectual activities which take their strange quickeing from the moral faculties. THE NEGRO IS SUPERIOR, to the white man, the negro race, as has been said in the woman of the world.

We have need of the negro mirth

faculties. The negro is a superior manin some respects he is the greatest of men. He asked that the negro should have the privelege of the ballot box. He must have a place beside his white brother in the jury box. He asked that they should be eligible to every public office to which a white man fs eligible.

For instance, for the next President, as between General McClellan and Frederick Douglass, who would be their choice? (Applause and laughter,) The negro has an administrative power. -He can yield the scepter.

The speaker hoped to see before he Now offers for sale one of the largest and beat selections died, a black man governing the State of South Carolina, lifted up to that office by the people. The negroes should sit side by side with the white man in Church, in the cars; he should come into the white man's pariour and be admitted to entire fellowship. God ordains it. The palm of the negroe's hand was made white to meet the white man's. One of the most taggestive and impressive sights he had seen latety had been that of a negro and an Irishman, seated in a cart, at our Cen-tral Park, driving together in a pleasant social communication. They were going more directly toward the millenium than all the splendid equipages that were passing by them, Mr. Tilton closed amid applause.

To BE SENT ACROSS THE LINES. Miss Irene Orndorf, residing at No. 135 Cal vert street, near Centre, will be sent aeross the lines to the South on Monday night next, by order of Colonel Fish. She is charged with waving her handkerchief at some Confederate prisoners, one of whom she had just left after a brief conversation with him by permission of an officer. -Baltimore Gazette.

We presume this is another indication of "sigerous prosecution of the war," on the part of the military authorities of Baltimore. A lady is permitted by an offi-cer to converse with a Confederate prisoner, and when she waves her handkerchief on parting with him, she is arrested for "treason" and sent beyond the lines! Great country, this!
