Editors of the Age: The Abolitionists having sown the wind, the deluded negroes are beginning to reap the whirlwind, The proverb of the Arabs that "curses like chickens come home to roost" is a bout to be exemplified, and it looks very much to me as if the Jacobins who have endeavored to inaugurate a system of mob law to destroy the freedom of speech as upon the people the heresy that "the king can do no wrong" are about to have the poisoned chalice returned to their own ips, and that too by hands from which

they least expected it.

You may remember that during the winter a number of resolutions, purport ing to be passed by different regiments, which sustained the policy of the President, in the conduct of the war, even to the Emancipation Proclamation, and con-demned in the severest terms Northern Democrats, were forwarded to this State and published in the Abolition papers. From the tenor of these, as well as the editorial articles published from day to day in the Harrisburg Telegrayh, stating in effect that the army had become Abolitionized, and that the nine months men had a fearful account to settle with the "Copperheads" when they returned, a few timid Democrats became alarmed. But your correspondent, who is personally acquainted with nearly two thousand Democrats who served in the nine months service, had no anxiety on the subject. On their return I went among them, and could not find a single Democrat who street corners I have heard discharged fight for a restoration of the Union as it that they would not return for any other conscription. These sentiments were so freely expressed that I think they are the sentiments of a large majority of all the nine months men.

little queer to the eye, and which the Ab that we protest against the cowardly, desolitionists will in vain try to explain. The potic and inhuman and accursed act of olutions in camp, and who were supposed we recommend a suspension of hostilities to have become converts to the Ethiopian and the holding of a Convention to settle theory that "one man'is just as good as the matter of arriving at terms of reconanother," together with Wendell Phillip's ciliation between the contending sections, adenda—" and a damped sight better"—I A State Committee, with power to call say, these soldiers, instead of immolating the "Copperhead," have disappointed their ardent admirers of the Loyal League by making a terrible foray on the negroes

of Harrisburg.
It appears that a party of soldiers went into a doggery kept by a darkey named Toop, in Short street, on Monday evening and drank some lager beer. Toop, either through ignorance or design, gave them the wrong change, when a quarrel arose, and one of them seized two beer glasses, when they left. At the door they were met by a police officer who arrested two scription act. of them; the others managed to escape. The two who were arrested were taken before Alderman Kline, where the matter was settled and the soldiers discharged. After leaving the office the soldiers fell in of them proceeded to Toop's house and made a riotous demonstration. Numbers were constantly added, but before any serious injury was done, the Provost Guard had arrived, and charging up Short street, cleared it. It was then thought that quiet was restored, and the gnard left. The soldiers retreated to State street where they commenced operations on a large negro boarding house, kept by Dr. Jones. This place was completely riddled. Doors were battered down, windows riddled and most of the furniture broken to pieces and thrown into the street. From thence they went to the house next door, and continued their work of demolition until five adjoining houses were completely gutted. The Provost Guard arrived upon the ground, but refused to charge upon the rioters, who probably now numbered two hundred men, all of them discharged soldiers. The police force, altogether inadequate, made no attempt to stay the progress of the riot. From South street the men crossed over to Short street, where they made a demonstration upon Toop's premises, and also demolished doors, windows and furniture. Here they were met by the Mayor, who mounted a box and exhorted them to preserve the peace, and his speech had the effect of scattering them. The riot exhibited some very singular features. The men engaged in it appeared to be calm and sober, as if simply acting upon a plan previously agreed upon. There was no outcry, no noise beyond that caused by the blows upon the doors and windows. Yesterday afternoon a demonstration

was made upon some negro houses in Walnut street, near the railroad, but it was checked by the police. About ten o'clock at night, however, they made an attack upon the negro quarters at the foot of Third street, and succeeded in demolishing several shanties. Their number. was not so great as on the previous evening, and they were dispersed by the po-lice, but not before two of them were shot in the legs by the police. All is quiet this morning, but the end may not be yet, al-though we all hope that it is. The Mayor, sometime ago, ordered the drinking houses to be closed at 6 o'clock every evening. Had they been open, and the mendrunk, no one can conjecture what the reduction of the same press have written of McClellan. ken refuge in other parts of the city, while some possessing means, left by dif-

printed on slips, in Philadelphia, and forwarded to the regiments by a leading Jacobin of your city, with a request that they be adopted and sent home for publication. One of these fell into the colonel's hands, and after showing it to several of his officers he threw it into the fire. Some of them fell into the hands of abolition officers, who assembled all of that stripe in a tent, and adopted them. In one instance well as the freedom of the press, and force a regiment was drawn up, the resolutions read, and the question put, when less than a third voted aye; no negative vote was put, and the resolutions were declared carried. In some instances men were induced to sign their names as approving the resolutions when they did not know the nature of them. The names of some were put to them without their knowledge or consent, and many of the privates have learned with surprise, since their return, that such resolutions were passed. And this is the manner in which public opinion was manifested in the army of the Potomac. Woe be unto the Jacobins; the polls will tell next fall whether or no the itizen soldiers consider a negro as good as a white man.

Respectfully, SOJOURNER.

The Peace Convention in New York. NEW YORK, June 30 .- The Peace Convention was held this afternoon in the Cooper Institute. The principal speaker

The resolutions adopted declare fealty to the Constitution and to the sovereignty of the States and of the people; that under the Constitution there is no power had changed; but I found out through to coerce the States or any of them by them that many who had gone out Remilitary force; that the war is contrary publicans are now Democrats. Two of the Judges, Peckham and Leonard, held that Congress had no power to make a paper currency, and compel individuals to re-ceive it as money in their private dealings. Judge Ingraham reserved himself, as to the effect of the legal tender clause in the act of Congress, on contracts made after its passage.

The New York Tribune on the Soldiers

The Tribune is very angry at finding that the returned soldiers who were carried to Albany to glorify the Abolitionists and the wolves in sheeps clothing, called the "Loyal Leaguers," dissented from the speakers, and the resolutions passed by the Utica Convention, by cheering for General McClellan. It calls them all "Copperheads." We believe with the World, that these discharged soldiers were the only sensible men at that Con-

The York Gazette has raised the name of General William B. Franklin, of that county, as the choice of old Democratic York for the next Governor of Pennsylvania:

The N. Y. Tribune's correspondent says, Stoneman's raid has been overrated, and that the Richmond and Fredericksburg railroad was so little damaged that it was repaired in twenty four hours.

The pamphlet of George Wilken attacking Gen. McClellan has been extensively given away in the Army of the Potomac. The soldiers have burned it abundantly. The One Hundred and Eighteenth Pensylvania made a grand bonfire of all the copies they could collect.

From Harrey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly eprend until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of eliver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Sarsaparilla, and applying the lodide of potash lotion, as you direct. The are began to heal when we had given the first bottle, and was well when we had finished the second.
