

Maine Democrats Convoked.

PORTLAND, Me., Aug. 6.

The State Democratic Convention to-day was largely attended. Nine hundred delegates were present.

Resolutions were adopted in substance as follows:

1st. All men, irrespective of party, are invited to unite for the termination of the calamities which now depress our distracted and unhappy land.

2d. The Union was formed in fraternity and concession, and cannot exist in the absence of that brotherly spirit.

3d. We will earnestly support every constitutional measure tending to preserve the Union of the States. We can not therefore support the present administration, whose course is destructive of the Union and government.

4th. The war is now being conducted, not for the restoration of the Union, but for the abolition of slavery and the destruction of the Republic.

5th. Under our form of government, the sovereign power is vested in the people, and rests upon no other foundation than their will. The people are the only lawful sovereigns, and the public functionaries are their servants. The difference between a government and the administration is defined.

6th. On the part of the rebel states, if a disposition is shown to return them, they should be welcomed back with all their dignity, equality, and rights unimpaired.

The seventh resolution denounces arbitrary arrests.

The eighth asserts the freedom of speech and of the press.

The ninth denounces the Conscription law as unjust and oppressive; but commands obedience to it unless the courts decide it unconstitutional.

The tenth endorses the course of Gov. Seymour, of New York.

The eleventh commends our soldiers, and says they are worthy a nation's gratitude.

Hon. Bion Bradbury, of Eastport, the candidate of last year, was nominated for governor with great unanimity.

A private letter from him to a member of the convention was read, in which he expresses the opinion that madness rules the hour, and the republic can be saved from impending ruin only by the co-operation of all conservative men against the spirit of fanaticism. He declares his opposition to the emancipation proclamation, to the confiscation act, to the subordination of the civil to the military authority, and says opposition to the war policy of the administration is not opposition to the government. To secure the restoration of the Union is the first duty of the citizen.

Brief speeches were made, and the convention adjourned.

Good Advice--No Forceable Resistance to the Conscription Law.

Senator Hendricks, of Indiana, in a late speech in Rush county, in that State, thus spoke about the Conscription Law:

"But is resistance by force right? To this most important question I know you will give a considerate and honest response. Concurring in the judgment of a majority of the people of the State, I believe the law impolitic, and many of its provisions wrong. I was opposed to its enactment, and desire its modification or repeal. But it was enacted according to the forms of the Constitution, by the body constituted under that instrument, and comes to us demanding our obedience. Respect for legitimate authority and obedience to law has long been a cherished sentiment of the political party to which it is my pride to belong. Does that sentiment not commend itself to the judgment and conscience of every good citizen and of every virtuous man, who desires the restraints and safety of law rather than the freedom of unrestrained license? The dangerous doctrine, that the conscience of the citizen may sit in judgment upon laws enacted in proper form, with a view to their resistance, has never been adopted by any considerable portion of this State, and has at all times been bitterly opposed by the Democracy. It is a doctrine subversive of well ordered government, and has contributed largely to the calamities that have befallen our country."

The Senator further said:

I am not insensible to the fact that very many persons do not approve the further prosecution of the war, for the reason that they do not believe that it can restore the Union, and reunite the dismembered sections; while they and others, constituting, I suppose, a majority, and perhaps a decided majority, of the people of the State, do not and cannot improve the war policy of the Administration, and I appreciate the embarrassment they must experience in even being compelled to serve in the army under such circumstances; yet it is to be remembered that the Administration can not be overthrown, or its policy modified by a refusal to obey law, but to accomplish that result, so devoutly to be desired, we must look to free speech, a free press, and a free ballot, unless, indeed, we esteem the departures from constitutional limits so great as to justify revolution, and we be prepared to pass through that bloody ordeal."

The coolest piece of impudence that we have ever seen is that of the Republican leaders in assuming that they are the only Union party in the North. If their claims be correct, all the great States carried last fall by the Democrats gave majorities for treason!

The Cleveland *Plain Dealer*, one of the oldest and most prominent Democratic papers in Ohio, two years ago went over to the opposition, and supported the Tod Indians' ticket. This year it comes back and boasts the Vallandigham tag.

Take care of your health and that of your children, and use no other salaratus except Herrick's Gold Medal Saluator. It is acknowledged as being the only perfectly harmless article in the market; it is peculiarly adapted to benefit weak stomachs and dyspeptic persons. Try some paper and you will have no other. Use it instead of soda. It is much better. Grocers and Druggists sell it. Depot 112 Liberty Street, New York.

Editor of Democrat.

Draw me with your penance I wish to say to all who will it, (free). A Recipe, with full directions for making and using a simple Vegetable Alm. that will effectually remove, in a day or two, all the impurities and diseases of the skin. Blotches, freckles, &c., that have held beautiful.

I will also mail free to those holding half-blanks,

or full-blanks, a small quantity of

the same, to those having claim upon said paper.

It will alone remove, a large per cent on its cost.

We think the machine much more pays for itself every year in the saving of garments! There are several thousand pieces of cloth in every town, and we consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crank-shaft slip and tear. Our own is one of the first made, and it is as good as new after nearly four years' constant use.

Every Wringer with Cog Wheels is warranted in every particular. No Wringer can be durable without cog-wheels.

Each Wringer wanted in every town.

On receipt of the price from places where no one selling, we will send the Wringer free of expense.
