a special draft for that object, allowing due credit for volunteers who may be obtained from these districts during the interval; and at all points so far as consistent with practical convenience, due credits shall be given for volunteers, and your Excellency shall be notified of the time fixed for commencing a draft in each District.

I do not object to abide a decision of the United States Supreme Court, or of the Judges thereof, on the constitutionality of the draft law. In fact I should be willing to facilitate the obtaining of it. But I cannot consent to lose the time while it is being obtained. We are contending with an enemy who, as I understand, drives every able-bodied man he can reach into his ranks, very much as a butcher drives bullocks into a slaughter pen. No time is wasted, no argument is used. This produces an army that will soon turn upon our now victorious soldiers already in the field, if they shall not be sustained by recruits as they should be. It produces an army with a rapidity not to be matched on our side, if we first waste time to re-experiment with the volunteer system, already deemed by Congress, and palpably, in fact, so far exhausted as to be inadequate, and then more time to obtain a Court decision as to whether a law is constitutional which requires a part of those not now in the service to go to the aid of those already in it; and still more to determine with absolute certainty that we get those who are to go in the precisely legal proportion to those who are not to go. My purpose is to be in my action just and Constitutional, and yet practical, in performing the important duty with which I am charged, of maintaining the unity and the free principles of our common country.

Your obedient servant

A. LINCOLN.

GOV. SEYMOUR'S REJOINDER.

ALBANY, Aug. 8.

To the President of the United States:

I received your communication of the 7th inst this day. While I recognize the concessions you make, I regret your refusal to comply with my request to have the draft in this State suspended until it can be ascertained if the enrollments are made in accordance with the law of Congress or with the principles of justice. I know that our army needs recruits, and for this and other reasons I regret a decision which stands in the way of a prompt and cheerful movement to fill up the thinned ranks of our regiments. New York has never paused in its efforts to send volunteers to the assistance of our gallant soldiers in the field. It has not only met every call heretofore made, while every other Atlantic and the New England St's except Rhode Island, were delinquent, but it continued liberal bounties to volunteers when all efforts were suspended in many other quarters. Active exertions are now made to organize new and fill up old regiments. These exertions would be more successful if the draft was suspended, and much better men than reluctant conscripts would join our armies.

On the 7th I advised you by letter that I would furnish the strongest proof of the injustice, if not fraud, in the enrollment in certain districts. I now send a full report made to me by Judge-Advocate Waterbury.

I am confident that when you have read it, you will agree with me that the honor of the nation and your administration demands that the abuses it points out should be corrected and punished.

You say we are contending with an enemy, who, as you understand, "drives every able-bodied man he can reach into the ranks, very much as a butcher drives bullocks into a slaughter-pen." You will agree with me that even this, if impartially done to all classes, is more tolerable than any scheme which shall fraudulently force a portion of the community into military service by a dishonest perversion of the law.

You will see by the report of Mr. Waterbury that there is no theory which can explain or justify the enrollment in this state. I wish to call your attention to the tables on pages five, six, seven, and eight which show that in nine congressional districts, in Manhattan, Long, and Staten Islands, the number of conscripts called for is 33,729, while in nineteen other districts the number of conscripts called for is only 39,626. The draft is to be made from the first class, those between the ages of 20 35. It appears by the census of 1860 that in the first nine congressional districts there were 164,797 males btween 20 and 35; they are called upon for 33,729 conscripts. In the other nineteen districts, with a population of males from 20 to 35 of 270,486, only 39,626 are demanded.

Again, to show the partisan character of the enrollment, you will find in the 21st page of the military report that in the nine congressional districts the total vote of 1860 was 151,243; the number of conscripts now demanded is 33,729. In the nineteen other districts the total vote was 457,257; yet these districts are called upon to furnish only 39,626 drafted men. Each of the nine districts gave majorities in favor of one political party, and each of the 19 districts gave majorities in favor of the other party.

You cannot, and will not fail to right these gross wrongs.

Truly yours, HORATIO SEYMOUR.

A Specimen of "Loyalty."

Morrow B. Lowrie, Republican State Senator from Erie county, in a speech to the Loyal League of Philadelphia, said:

"This war is for the African and his race. The 600 colored men who fought below have elevated the race. For all I know the Napoleon of this war may be done up in a Black package. We have evidence of his being done up in a white one.

Abolition Ignorance.

Ask every rabid Republican that you meet, what he means by the Government? and ten to one he will tell you that the Government is Abraham Lincoln. He may know that there are three departments; but he does not know that they are co-ordinate, equal, not subordinate to each other. He knows nothing about the distinction between the granted and reserved powers in the Constitution—he cannot tell you what rights belong to the States, or what to the Federal Government; and the probabilities are that he is full of the idea that the Federal Government, by some political legerdemain, has become endowed with much greater powers in time of war, than in time of peace.

This is about the sum of the information possessed by almost three-fourths of the Republicans of this county; and it is the influence of this ignorance, combined with arrant cowardice, that may yet result in the overthrow of our Government.

THE REPUBLICAN PARTY.—The Democratic and Conservative press, for years before the war began, reiterated the warning that the election of a President by a sectional party would divide the Union, and bring on a civil war. No one can forget the derision heaped upon the Union savers by the Republican press, which told their followers that the South "could not be kicked out of the Union."

But Wendell Philips, even in 1856, saw, with devilish glee that the conservatives spoke truth, and expressed his satisfaction thus:

"There is merit in the Republican party. It is the *first sectional party* ever organized in this country. It is the North *arrayed against the South*. The *first crack* in the iceberg is visible. You will yet hear it go with a crash through the centre."

We *have* heard it, and in that "crack" are buried half a million of the flower and youth of our country. Can there be any doubt as to who caused this war? It was the policy of the Republican party that began the war, and under that policy we shall never have peace.—*Boston Courier.*

MALFEASANCE IN OFFICE.—Mr. B. Montague, a government horse inspector at this place, was, we understand, taken to Washington one day last week, and committed to the Old Capitol prison by the Secretary of War. Montague's engagement had for some time been an object of suspicion by the government, and some of Baker's government detectives were put upon his track. Their discoveries were the immediate cause of his arrest. It is alleged they have obtained positive proof that Montague received bribes for passing worthless horses, and that in other ways he was guilty of malfeasance in office. There is very strong evidence that at least one, and probably many, of the government officials at this post are implicated, and have for a long time been in a wholesale system of peculation and swindling.—*Harrisburg Patriot.*
