Penmanship. Good penmanship is a young persons should earnestly strive to acquire at least a good plain hand. An apportunity is now afforded in Montrose to order by the President. Mr. E. A. those who are not first rate writers would do well to improve this opportunity. Mr. S. teaches the Spencerian system—the best-is master of the art, and labors faithfully for the benefit of his pupils. We have examined some specimens of his pupils efforts, and observed a marked improvement. A large share of those who with him-good evidence that they were satisfied with the small outlay of time and expense. Call at the old free school-house every evening; or upon Mr. Snyder at Tarbell's Hotel.

The Fever.-The malignant fever which has been raging with terrible fatalin this county, we copy for public benefit a communication from Dr. C. Burr, a practising physician, in the Carbondale Advance:

Mr. Benedict: -By request, I have concluded to snatch a few moments from needed rest, to give the readers of the Adrance the result of my observations and experience in the treatment of this new and terrible disease, with which this community is afflicted.

It must be evident to any one at all conversant with this epidemic, that to do anything satisfactorily or effectually to stay its ravages, the plan must be more preventive than curative. The most effectual remedy for this object that I have thus far found, is a thorough emetic, given early (the earlier, of course, the better,) after the first symptoms of the disease develope themselves. These symptoms are frequently slight, and in ordinary times would at first attract but little attention. They are, in brief, pains in different parts, stiffness in some of the muscles, chills, nausea of the stomach, and fever. For an emetic in this complaint I prefer ipecac and antimony combined; care being taken not to introduce sufficient antimony into the stomach to act on the bowels .effect, followed by mild laxatives, quinine and other stimulants may be used, future. By order of the Board. as symptoms indicate their need. But if the preceding treatment is adopted sufficiently early and judiciously managed, I have my doubts whether quinine or other stimulents will be much needed. Further observations will enable me to speak more confidently on this point.

My explanation of the good effects of an emetic given early in this disease is culture, and Rural Affairs. Edited and two-fold. First, it eracuates the contents published by Wm. S. Young & Co., 52 of the stomach of undigested food or other matters which irritate and add to the One Dollar a year. The Sixth Volume disturbance of the already overburdened commences with the January number. system. Second, it produces a powerful relaxing effect upon the body, determines to the skin, equalizes the circulation, and culturists, Stockbreeders and Bee-keepers, thus prevents that congestion of the brain we confidently offer the Current Volume and spinal cord, upon which, I think, the as one of the best ever issued, for origin-

fatality of the disease depends. I have but little confidence in any drugs mation. Send for a specimen. or remedies used in health to prevent this disease. It is time enough to take medicine when we are sick, or symptoms indiand dry, and the head cool, and the mind the same as the head; eat your regular Hints—Flower Garden and Pleasure meals, attend to your regular business, and as far as possible, get your regular sleep. But, above everything else, don't be so inhuman and unchristian as to let your neighbors and friends who are sick suffer for the want of the help they need and you can give, and will not, because you are afraid of taking the disease. This

patients, where I have adopted the emetic and counter-irritation plan, are either well, convalencing, or apparently in a fair way to do so. Convalencence in this affection is slow and tedious.

I have aimed to state, as far as I have gone, simple facts, and have great hope in the success of the emetic and external doubt physicians will continue to be called to cases so far advanced that no treatment will be of any avail to save life. And the continue to fany avail to save life. And the continue to fine continue to fine continue to be called the continue to the continue

Teachers' Association.—The Susquehanna County Teachers' Association convened in the Baptist Church in Jackson, Jan 1st, 1864, at 1 o'clock, p. m. The meeting was called to order by the President, M. L. Hawley. The Association occupied the forenoon in discussing the best very desirable accomplishment, as well as method of securing study, and reading, needed business acquirement; and all followed by discussion on the same. Ad-

for all to improve themselves in the art. Weston, County Superintendent, then J. B. Snyder, who has given one course read before the Association a very able of lessons, is making up another class, and and interesting essay. The remainder of the evening was occupied in discussion.

Adjourned to meet at 94 o'clock, a. m. Second Day.—The meeting having been called to order, the following officers were elected for the ensuing year: President, M. L. Hawley; Vice Pres't, E. A. Weston; Secretary, E. L. Burritt. The question of adjournment was then taken up. took one course of lessons, are continuing and decided that the next meeting be held at New Milford, the 1st and 2d of April, 1864. The subject of holding a yearly Institute was also discussed, and Mr. E. A. Weston, W. Faurot and E. K. Richardson were appointed a committee to consider or make arrangements for such a meeting and report at the next meeting: E. L. Barrett, D. Hannah and ity among the people in upper Luzerne W. M. Harris, were appointed to prepare county, and elsewhere—said by some to a programme of exercise for the next closely resemble the worst form of scarlet ever, having finally made its appearance the choir, the Association adjourned to previous vote.

PROGRAMME FOR NEXT MEETING.

First day, a. m. 1st, Elecutionary Drill with discussion on the best method of strengthening the vocal powers, conducted by W. Faurot. 2d, Objective Geography, by E. A. Weston.—Afternoon session. 1st, Grammar, the part relating to the Verb, by Mary E. Bushnell. 2d, Written Arithmetic, part, Cube and Square Root, by W. M. Harris. 3d, Phys-iology, by Dr. C. L. Stiles. 4th, Discussion of questions.—Evening session. 1et, Essays by Celia Pierpont, Jessie Bissel, F. D. Hunt, W. Faurot and D. Hannah. 2d, Lecture, by Rev. G. M. Slaysman. 3d, Discussion.—Second day, a. m. 1st, Intellectual Arithmetic, by choosing sides, by E. L. Barrett. 2d, Reading, drill on articulation, pitch, &c., by Celia Pierpont. 3d, Methods of teaching Composition and Declamation, by M. L. Hawley. 4th, Conglomeration Exercise, by D. Hannab. P. M., Exercises. 1st, Lecture, by J. Lamb. 2d, Miscellaneous business, and adjournment. 3d, General History, by L. Hannah. E. L. Barrett, Sec.

Turnpike Notice.—The Stockholders This would be hazardous. Active purging I think injurious in this disease. CalCompany hereby give notice to the Superomel or the blue mass for their alterative visors and citizens of the townships of four years, commencing July 1, 1804, and Harmony and Oakland, that not having ending June 30, 1868, in the State of Pa., proper. After the emetic, active counter taken toll during the past year on that irritation is of unquestionable benefit. A portion of their road running from Lanesblister to the back of the neck, a mustard boro' to the Way House—a distance of plaster down the whole length of the one mile—they have now abandoned said spine, until the skin is not only red but portion of the road, and will not be ressore, with mustard to the extremities and ponsible for any damages from accidents other parts, are important. Afterwards, on the road or bridge, that may occur in

commended for vomiting under yellow fe-

Dr. Hand says: Under this view of the subject, we see what must decide when doctors disngree, the cases giving laws to the prescriber, and the symptoms pointing, with iron index, to the only means which can save the patient from sinking, viz ; cordial, stimulating medicine, and nourishing diet. The pressure of the disease and the remaining strength must determine the kind and quantity of means; and the range is between going into a warm bed, with drinking pennyroyal, horsemint, spearmint, or pappermint tea, and hot or vapor bath, with brandy, laudanum, ether, &c.

Begin the treatment by putting the patient into a warm bath, apply warm flan-nels wrung out of hot water, or bladders of hot water to sides and feet of the patient. If the disease be more than slight, give as a drink hot wine whey, milk punch, or warm wine and water. If obpunch, or warm wine and water. If obstinate names or puking attend, strangstinate names or puking attend plassification. Montrosp, Aug. 20, 63. ling; put a capsicum and a mustard plastor over the stomach. If lethargio sym-
