HOW GRASS LAND IS IMPROVED.

But very few farmers, comparatively speaking, realize or get any correct idea of the amount of fertilizers, which is removed from their meadows, in every ton: April lat, proximo, at the Union Reading of hay which they make. Chemists tell Room," to take into consideration us that in a ton of hay, there are one hunter the expulsion of the "New York Tribune"

of any other crop.

The mineral matter alluded to is composed of forty-three pounds of potashtwenty-five pounds of phosphorio zid, besides several other ingredients not enumerated.

in the soil, the quantity of a crop will be diminished, unless special care be exer ministration that will not tell the truth; cised to return to the soil an equivalent that spends precious time in playing at for the amount that has been carried away President-making; that is cutting and in the hay.

in the hay.

The question naturally arises then, how can this be done in the most economical manner, so as to maintain the fertility of the soil?

There are several ways of doing it. But the farmer needs to understand the most economical way of performing a task so important and desirable. One of these ways is, to supply the waste by scattering ashes, lime, bone dust and gypsum over the meadow, after every crop of hay has been removed. In this manner a meadow may be made to yield a heavy crop of grass every season for a very long time. The ashes will furnish the necessary potash, as that ingredient promotes the vigorous growth of grass very much, as may be proved by observing the rank and PER CENT. INTEREST WILL BE PAID IN GOIN, on luxuriant growth of clover or timothy, in the bed of a log heap, or where brush has been burned. A top dressing of bones of both and September in cachycar.

Subscriber will receive at the section of Coupon September in cachycar. and lime will supply the other ingredients that have been removed in the hay.

cessary to secure a heavy crop of grass. These two ways are rather expensive modes of maintaing the fertility of grass land, but when the grass is all removed from the date of subscription and deposit. As these from the farm, either in a green state or in | Bonds are hay, one or the other must be resorted to, Exempt from Municipal or State Taxunless the proprietor has access to peat marl, or to stable manure.

Another way of maintaining the fertility of grass is, by barn-yard manure parts of the country. and home-made compost. This is the most economical, and in fact the true way for farmers in general to keep their meadows and pastures in a good state of productiveness. By saving with care all the ductiveness. By saving with care all the ments to lenders as the various descriptions of U.S. manure that can be made from animals. Bonds. In all other forms of indebtedness, the faith or while they are consuming a ton of hay, by ability of private parties or stock companies or separate mingling a little muck with the manure, and by feeding grain and oil meal, and applying the manure judiciously, the quantity of grass per acre may be increased a little from year to year, for years to come.

Qurrants and Gooseberries.

We notice that the cultivation of the Red Current was much increased within a year or two; and when is considered the value of this fruit over many others, for pies when green, for wine, jelly and drying, the surprise is that a more generimportance was not long ago attached to it, not only as a garden, but a field crop. It is in every way a wholesome and desirable fruit, and one of the very easiest to propagate and cultivate. For incrossing the supply of bushes, take last year's wood, about a foot or fourteen inches in length, thrust them into the ground about eight inches where they are desired to stand, press the ground around them firmly with the foot, and there will rarely be a failure. If a single stem, in tree fash ion, is preferred, remove with a knife all the eyes on the cutting which goes beneath the surface of the ground. If a bush is preferred, let the eyes remain. So far as production is concerned, we think the bush is rather the most profitable, and may also be longest lived.

The Gooseberry can be propagated in pricisely the same way.

FEMALE RECRUITS.—A Washington correspondent says the official records of the military authorities in that city show that upwards of one hundred and fifty female recruits have been discovered, and made to resume the garments of the sex. It is supposed that nearly all of these were in collusion with men who were examined by the surgeons and accepted, after which the fair ones substituted themselves and came on to the war. Curiously enough, over seventy of these martial demoiselles, when their sex was discovered, were acting as officers' servants. In one regiment there were seventeen officers' servants in blue blouses and pants, who had to be clothed in calico and crinoline. Even one General, who has won many laurels in the war, had a handsome, fresh-looking "detailed man" acting as his clerk, whose real name turned out to be Mary Jane Gand who has parents in Treuton who are estimable members of society. She said MINES-"GOLD DIRT LODE," GILPIN COUNTY, in excuse that she " wanted to see the world," and no doubt she has seen it to a

The following curious advertisement appeared in a remote corner of the

Dispatch, last week:
"Union Hall."—A meeting of Republicans is requested on Saturday eve., dred and fifty pounds of mineral matter, and twenty-five pounds of Nitrogen, which is equivalent to forty-six and a half pounds of ammonia, which is of great value as decidedly good. We are not in the properties of the parriotic association monopous in promoting the growth of grass or lizing all the loyalty in the city, and cannot furnish a report of the proceedings resulting from the above aunouncement. Erie Observver.

Now, as these elements become scarce July 10th, said of Lincoln & Co.: "We are likely to be ruined by an ad-

litical campaigu." C. 卫世(留望) 国产为

THESE BONDS are issued under the Act of Congre of March 5th, 1684, which provides that all Bonds is-sued under this Act shall be EXEMPT FROM TAXA-TION by or under any state or municipal authority.abscriptions to these Bonds are received in United States notes of notes of National Banks, They are to be edeemed in coin, at the pleasure of the Government, a any period not less than ten hore than porty YEARS from their date, and until their redemption FIVE Subscribers will receive either Registered or Coupe

Bonds, as they may profer. Registered Bonds are re-corded on the books of the U.S. Freasurer, and can be ty of grass land is, by the application of guano or superphosphates, which contain all the elements of fertility which are ne-

ing the secreed interest in coin-(or in United States cent. for premium,) or receive them drawing interest

ation. their value is increased from one to three per cent, per annum, according to the rate of tax levies in various

At the pregent rate of premium on gold they pay Over Eight Per Cent. Interest in currency, and are of equal convenience as a perm

ent or temporary investment. It is believed that no securities offer so great induceommunities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both princi-

pal and interest in coin.
These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus nade equally available to the smallest lender and the argest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,000. The interest on this debt for the coming iscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 80th 1864, has been so far at the rate of over \$100,000,000 per

annum.

It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasurer for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.

Instructions to the National Banks acting as ioan agents were not issued from the United States Treasury until March 25, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A UVERET.

SCROFULA AND SCROFULOUS DISEASES. From Emery Edes, a well-known merchant of Oxford, Maine. ing their Bonds draw, interest from March 1st, by paying the secreted interest in coin—(or in United States
notes, or the notes of National Banks, adding fifty per
cent. for premium.) or receive them drawing interest
from the date of subscription and deposit. As these

people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robs. Stration, Bristol. England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your Samsapanilla. My daughter, aged ten, had an afflicting humor in her cars, eyes, and hair for years, which we were unable to care until we tried your Samsapanilla. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a rerofulous eruption, which was very tradulesome. Nothing afforded any relief until we tried your Samsapanilla, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known firm of Gage, Murray, S. Co., manufacturers of enamelled papers in Nathud, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured in y features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without any relief whatever, until I took your Sansapanilla. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anyloody's, and I sm without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your Sansapanilla."

Erysipelas—General Debility—Purify the Blood.

Expainellas—General Debility—Purify the Blood.

Dr. Aver: I seldom fail to remove Experience and
Scrofulous Sores by the persevering use of your Sargayantlla, and I have just now cured an attack of
Malignant Expainellas with it. No alterative we possess
equals the Sarsapantlla you have supplied to the profession as well as to the people."

From J. E. Johnston. Ess. Welcomm. This

From J. B. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Eryspeirs on my right arm, during which time I tried all the celebrate physicians I could reach, and took hundreds of dollar worth of medicines. The phases were a had

beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Hond, Scre Eyes.

From Harcey Sicher, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent rore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of eller and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing cles we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The correbegan to heal when we had given the first bottle, and was well when we had finished the second. The child's dyclashes, which had come out, grew ngain, and he is now as feathly and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Marcurial Disease.

Syphilis and Mercurial Disease.

Syphilis and Morcurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

11 find your Sarsafahilla a more effectual remedy for the secondary symptoms of Syphilis, and for syphilitic disease than any other we possess. The profession are in debted to you for some of the best medicines we have "From A. J. French, M. D., an eminent physician of Lawrence, Mass. who is a prominent member of the Legislaiure of Massachusetts.

"Dr. Ayen — My dear Sir: I have found your Sarsafahilla an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were a powerful alterative is required."

Mr. Chas. S. Van Lieu, of New Brunseick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial-disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering me of Ayen's Sarbapanilla relieved him. Few case esn be found more inveterate and distresing than this, and it took several deep bottles to cure him.

Leucorphod, Whites, Femalo Weakness,

Leucorrhoa, Whites, Female Weakness. are generally produced by internal Scrofulous Ulceration, and are very often cured by the alternitive effect of this SARRAPARILLA. Some cases require, however, in aid of the BARRAPARILLA, the skilful application of local remedies.

remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cinciunati.

"I have found your Sansapanilla on excellent alterative in diseases of females. Many cares of freegolarity Leucorrhea, Internal Uteration, and local deblifty, arising from the scrolulous diathesis, have yielded to it, and there are few that do not, when its effect is properly alded by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myeof have been cured of avery debilitating Leucorrhoz of long standing, by two bottles of your Sausapanilla." Rheumatiam Gout. Liver Complaint, Dyspep-sis Heart Disease Neuraigia, when caused by Scropula in the system, are popidly cured by this Ext. Sausapamilla.

ATTENTION, SOLDIERS

And the Friends of Soldiers. We call the attention of all having relations or friends in the army to the fact that "HOOFLAND'S German Bitters" will cure nine-tenths of the diseases induced by exposures and privations incident to camp life. In the lists, published almost daily in the news papers, on arrival of the sick, it will be noticed that a very large portion are suffering from deblity. Every case of that kind can be readily cared by Hoofland's German Bitters. Diseases resulting from disorders of the digestive organs are speedily removed. We have no hesitation in saying that if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise will be lost.

We call attention to the following remarkable and well authenticated cure of one of the nation's herees, whose life, to use his own language, "has been saved by the Bitters:"

PHILADELPHIA, August 22d, 1852.

authenlicated cure of one of the nation's between, whose life, to use his own language, "has been saved by the Bitters:"

PULL DELIVITIA, August 22d, 1862.

Messrs. Jones & Evans:—Well, gentlemen, your Hoofland's German Bitters has eaved my life. There is no mistake in this. It is vouched for by numbers of my conrades, some of whose names are appended, and who were cognizant of all the circumstances of my case. I am, and have been, for the last four, years, a member of Sherman's celebrated battery, and under the immediate command of Captain R. B. Ayros. Through the exposure attendant upon my arduous duties, I was attacked in Nov. last, with inflammation of the lungs, and was for 72 days in the hospital. This was followed by great debility, heightened by an attack of dysentery. I was then removed from the White House, and sent to this city on board the Steamer "State of Maine," where I landed on the 28th of June. Since that time I have been shout as how as any one could be and still retain a spark of vitality. For a week or more I was scarcely able to swallow anything, and if I nut force a morsel down, it was immediately, thrown up again.

I could not seven keep a glass of water on my stomach. Life could not last under these circumstances; and, accordingly, the physicians who had been working faithfully, though unsuccessfully, to rescue me from the grasp of the dread archer, frankly told me they could do no more for me, and advised me to see a clergman, and to make such disposition of my limited funds as next suited me. An acquaintance who visited me at the hospital, Mr. Frederick Steinborn, of 6th below Arch street, advised me, as a forlown hope, to try your Bitters, and kindly procured a bottle. From the time I commenced taking them the gloomy shadow of death receded, and I am new thank God for it, getting better. Though I have taken but two bottles, I have cained ten pounds, and feel sanguine of being permitted to rejoin my wife and danghter, from whom I have beard nothing for 18 months: for gentlemen, I am a
