Constitutional Amendments.

The proclamation of the Sheriff gives a full explanation of the amendments to be voted upon next Tuesday. General approval has been extended to them, but shameful conduct of the Lincolnites, has created a belief that they are playing a false game on the first. Some weeks ago that party adopted a most disgracefully false and libellous address on the subject, which they dared not make public, then, but which we are advised will appear this week, when too late for refutation.

Hundred Days Men.

Susquehanna County sent not one man in response to Curtin's call for militia. A majority of our county "voted for Curtin to avoid a draft," and will do no more for him "or any other man" in that line than they are forced to do by military power. The copperheads have disbanded and all joined the Loyal Lincoln League to stay at home and hire somebody else to fight. (Let them make a united and vigorous effort, or somebody will get caught.]

Some 2,000 men and boys from the copperhead and southern counties are already inhaling the old martial odors of Camp Curtin, and recruits should hurry on as but 23,000 more, including the 1000 cavalry, will be accepted. They will be ready for next invasion.

☞ Every citizen ought to read the article commencing on first page, headed "The Late National Humiliation." The high, independent character of the journal from which it is taken gives it a sufficient character to entitle it to the unbiassed judgment of men of all parties. The Intelligencer has not been identified with any party since the palmy days of its old whig party; but has recently been a zealous war and Union journal.

Lincoln's Mail Robbers.

The opening of letters by spies of the Washington dynasty has become so common a thing that prominent men of the opposition look upon it as a matter of course. Letters from or addressed to General McClellan, Governor Seymour, General Fremont, or friends of either of these parties, or men well known in the Democratic party, are regularly opened. This is done to an extent so palpable and shameless that the fact has become notorious throughout the country. We have become so accustomed to the working of the infamous machinery of despotism put in operation by this administration, that we are prone to look with apathy upon acts that at other times have set nations ablaze with indignation.

Manufacture of Woolen Goods.

CHAPTER 1.

THE MANUFACTURE OF WOOLEN GOODS, both in the household and the factories, has become of great importance on account of [illegible] at present our principal article of clothing. The scarcity of Cotton has made it [illegible] and the scarcity of Cotton has greatly increased the value of wool and fabrics made from it; and being engaged in the business of making Cloth and Flannel, and also Roll Carding, and Cloth Dressing, we have thought that a few remarks with regard to handling Wool, and the proper process of manufacture, might be of service to the country, and a benefit to ourselves.

The first process with the farmer who intends to make his wool into rolls for spinning and weaving at home, after washing and shearing, is assorting the qualities. This we do not expect a farmer to do as perfectly as a regular manufacturer, but by trying he will approximate towards it, and be amply paid for the little pains required, by having an even thread and smoother fabric. The fleeces should be whole and should be spread out on a table to [illegible] coarser will be found on the skirts of the fleece, and can easily be distinguished by looking closely to the fibre. Two qualities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the coarse part of one may do to go with the finer part of another, and take three or four qualities out of the lot. If it is going to the factory or to market, the fleece should not be torn, but after removing the tag-locks, should be rolled up compactly, skin side out. Not less than one pound of lard, fresh butter or oil should be sent with every ten pounds of wool going to the carding machine.

The next thing of importance [illegible] to be well carded, for which we will be entirely responsible; but in the matter of spinning and weaving, we have another caution to add. Unless the yarn is evenly twisted, and [illegible] evenly in the loom, the cloth shrinks unevenly in fulling—making some places wide and others narrow, and if the finisher succeeds in pressing out the wrinkles, the cloth will resume its contortions again when made into a garment, and the tailor is sometimes wrongfully blamed for a coat's becoming lantern-jawed on a man's back. It is easily avoided by giving the wheel an equal number of turns to a given length of thread drawn out. We find this difficulty increased of late years, and have come to the conclusion that if some of the spinners do not keep better time on their plunes than on their spinning wheels, we should have dreadfully to listen to their music.

Every moment of labor should be employed to the best advantage, and every ounce of material appropriated to the best purpose, on account of our war, we propose to write some other chapters on our branch of business after this is read sufficiently to be remembered, and shall endeavor to do our work in the strength of a balmoral skirt or a doctor's coat, and make trowsers nice enough to last a farmer through a year's campaign, at least.

Testimonials.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, may be sufficient evidence of its value; to quote other testimonials in detail is needless, contenting ourselves by simply giving the names and address of persons who speak of its excellence for the teeth.

PHILADELPHIA, April 15th, 1863.

IMPORTANT TO ALL INVALIDS!

IRON IN THE BLOOD.

IT is well known to the medical profession that IRON is the vital principle or life element of the blood.—This is derived principally from the food we eat; but if the food is not properly digested, or if, from any cause whatever, the necessary quantity of Iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will stupefy the brain, will obstruct the liver, and will send its disease producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease.

The great value of

Iron as a Medicine,

is well known and acknowledged by all medical men.—The difficulty has been to obtain such a preparation of it as will enter the circulation and assimilate at once with the blood. This point, says Dr. Hays, Massachusetts State Chemist, has been attained in the Peruvian Syrup, by combination in a way before unknown.

The Peruvian Syrup

is a protected solution of the protoxide of Iron. A new discovery in Medicine that strikes at the Root of Disease by supplying the blood with its Vital Principle or Life Element—IRON.

The Peruvian Syrup

Cures Dyspepsia, Liver Complaint, Drousy, Fever and Ague, Loss of Energy, Low Spirits.

The Peruvian Syrup

Infuses strength, vigor, and new life into the system, and builds up an "Iron Constitution!"

The Peruvian Syrup

Cures Chronic Diarrhœa, Scrofula, Boils, Scurvy, Loss of Constitutional Vigor.

The Peruvian Syrup

Cures Nervous Affections, Female Complaints, and all diseases of the Kidneys and Bladder.

The Peruvian Syrup

Is a specific for all diseases originating in a bad state of the Blood, or accompanied by Debility or a low state of the System.

READ WHO SAYS SO:

From the Rev. Levi G. Beck, Pastor of the Baptist Church, Pemberton, N. J., formerly of the North Baptist Church, Philadelphia:

* * * * * * * * * * * *

I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

Yours Truly, LEVI G. BECK.

From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge, and Christian Chronicle, Philadelphia.

Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from a severe and long-continued debility. The use of three bottles of these bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN, Philad'a.

From the Rev. Jos. H. Kennard, Pastor of the 10th Baptist Church.

Dr. Jackson:—Dear Sir:—I have been frequently requested to comment my name with commendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a cl
