COUNTY AFFAIRS. Suplementary Draft.

Prayers for Peace.

The President has appointed Thursday the 4th day of August a day of "prayer to divine Providence, that the effusion of blood may be stayed and peace established broughout our borders.

Congressional Address.

Waare indebted to Senator Buckalew for a copy of the address issued to the people by several members of Congress. It is a most complete and convincing review of national affairs, and should be read by every citizen. We shall insert it in a week or two.

To Whom it May Concern.

Such of our patrons as choose to pay all arrearages, and also a year in advance, can do so at \$1,50 per annum; while all who neglect to do so till after the end of this month, will be held liable to the old advertised rate of \$2,50 per year. We are now paying about three times the old rates for our white paper and many other articles, and would be justified in raising our terms to \$4 per year in advance, for Greenbacks are not worth 40 cents on the so-called "dollar."

Paying the Veterans.

Montrose was saved from the last draft by getting credit for veterans whom they nised to pay, but have not, as yet. Other towns had to furnish both men and money. Recently, when the Borought Council were preparing to fulfil the contract with the veterans, a "pressure" was made to deprive them and their widows and orphans of the hard-earned money, so that this intense "war to the end" Thos Daily community might escape either fighting Charles Churchell or paying to support this "glorious war for freedom." We have not the names of Daniel D Entrott these white-feather patriots, but shall unearth the whole facts, and let the public take an inside-view of patent-patriotism.

Draft Questions Answered.

Those who paid commutation on the draft of last year, under the act of March 1863, are exempt from draft for three

Those who pay commutation on the draft of this year, or its pending supplements, can at most be exempt only one year, are liable for the coming draft of 500,000, and may even be liable for deficiencies on present quota, if the wheel be exhausted of all others.

On the September draft for half a million nothing can save sound men from service but a substitute who is not liable to draft.

Thus a man who paid \$300 last month might be obliged to pay the same this month, and still be forced to go next month, or pay an untold sum for a substi-

"Prices Going Down."

Such has been the song of the shoddy organs for the last month? We have been waiting to see it, and have seen it thus: Sugar has gone down from 28 to 35 cents; printing paper has gone down from 18 to 26 cents. So much for the truth in the shoddy sheets. The fact was Lincoln stock was falling rapidly, and the poor zanies didn't know what siled them; but like the drunkard imagined that the whole

city was dancing a jig around them.
If you want to know just what is NOT the truth, consult shoddy.

The facetes should be whole and should be spread out on a table—the coarsest wool will be found on the akirts of the facer, and can easily be distinguished by looking closely to the fibre. Two qualities from each dece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the coarse part of one may do to go with the diner part of another, and thus make three or four qualities out of the lot. If it is going to the manufactory or to market, the facet should not be torn, but after removing the tag-locks, should be rolled up compactly, sits side ont. Not less than one pound of lard, fresh butter or oil should be sent with every ten pounds of wool going to the carding machine.

The next thing of importance is of course to be well carded, for which we will be entirely responsible; but in the matter of spinning and wearing, we have another caution to add. Unless the yarn is evenly twisted, and beat up evenly in the loom, the cloth shrinks unevenly in fulling—making some places wide and others narrow, and if the finisher succeeds in pressing out the wrinkles, the cloth will resume its contortions again when made into a garment, and the mechanic is sometimes wronghily bismed for a coat's becoming lanternjawed on a man's back. It is easily avoided by giving the wheel an equal number of turns to a given length of th

From the Rev. Levi G. Beck, Pastor of the Baptist Church, Pemberton, N. J., formerly of the North Baptist Church, Pemberton, N. J., formerly of the North Baptist Church, Philadelphia:

I have known Hoofland's German Bitters avorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly benedical manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these Bitters, knowing from experience that my recommendation will be austained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

Although not disposed to favor or recommend Patent

hope that he may thus contribute to the beneat of others.

I do this the more readily in regard to Hoofiand's German Bitters, prepared by Dr. C. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemsker Esq., for the removal of this prejudice by propartests, and for encouragement to try them, when unfaring from great and long continued debility. The use of three bottles of these bitters at the beginning of the present year, was followed by evident felies and restoration to a degree of bodily and mental vigor which I had not-feli for six months before, and bad almost despaired of regaining.
