Mr. Blair little thought then that the press, and the ballot-box would be trampled in the dust during his lifetime in his bwn State What would Old Hickory have thought if Mr. Blair had informed him through the Globs newspaper some morning early at breakfast, that the only Democratic newspaper in Maryland had been suppressed by a subordinate of his? Do you suppose the old man would have gone on with his brenkfast enjoying his warm boast and coffee with an unusal reliab? But this occurred only the other day in Baltimore, and so far from countermanding the infamous order, his high Majesty, Abraham the First, actually refuses a hearing from prominent Democrats in relation to the matter, though indorsed by a man of such distinguished worth and abilities as the Hon. Reverdy Johnson.

Abolition Reverence for the Sabbath. The Chicago Journal, of Monday, relates the following with great glee:

Bryan Hall was greatly crowded on Sunday afternoon to hear the discourse of Rev. I.S. Kalloch on the war. The copperheads received about as scathing a castigationsas it aver syas our pleasure and pain to, hear, The feelings of the audience could not be restrained, and the pat-totic literances of the speaker were greeted with round upon round of enthu siastic and hearty cheers."

This Knildch, whose "loyal" sermon castigating copperheads received "round upon round of enthusiastic and hearty chieff in the Christian city of Chicago on Sunday, is the same Kalloch who was expelled from his church in Boston a few years ago, for taking a lady, the wife of one of his own congregation, to a hotel in Cambridge, and then treating her as his own wife. Of course, Kalloch's excessive 'doyalty' is sufficient to cover up a hundred such "triffing indiscretions," and it is eminently appropriate that his sermons. on Sunday afternoon, should be greeted with round upon round of hearty cheers." It is thus that the poi-on of abolitionism is defiling the Christianity of the 19th One day it will be seen of all men that the spirit of abolitionism is not only incompatible with true liberty, but with genume religion as well.

Habeas Corpus. Every man who prefers liberty to despotism, and who has seen with regret the rapid strides the latter has made under the reigning dynasty towards the overthrow of the formor, will endorse the words which we copy hereunder from the New York Journal of Commerce :

"That writ is not clearly understood by the people. Its power is only this :-It brings a man who is restrained of liberty before a judge. The latter inquires why he is imprisoned. He does not inquire into the justice of the case. He only asks. "Is he held by the law of the land?" If he finds that he is held be the law, for trial according to law, he remands him to prison. If he finds that no law holds him, he sets him free. In every in-"stance of the many thousand arbitrary seizure by Abraham Lincoln, if any offense had been committed, it was perfectly easy, as it was the duty, of the law officers of the President to make the usual complaint, have a warrant issued in due form, and arrest according to law. Bail might be taken or not, as the United States Court saw fit. The crime of treason is probably not bailable, and the accused would have been held for speedy trial and conviction or acquittal. This was the legal and proper course. It would have commended itself to the whole country.— But it did not suit Lincoln, who had tasted the sweet of arbitrary power. Hence shis seizures by telegraph, at all hours of day and night. Hence the seizures by his subordinates, without waiting orders from him. Hence the astounding tyranny over number of many thousands, which appals The heart of an American as he reads it blackest page, in all the history of at-tempts at free government. Be warned by history."

FACT.—As a culinary preparation, Herreck Allen's Gold Medal Saleratus in infallable. It has great advantages over yeast fermentation, and will make twentyfive pounds more Bread or Biscuit from chosane barrel of flour, and much better. It retains all the glutinous starch and sugar that is in the flour, and from twoand-a-balf pounds of flour, will make three and a half pounds of Bread or Biscuit. while the same quantty by yeast fermentation, will make only a trifle over three pounds, and require more than twice the quantity of shortening, besides being much more aithealthy. Try it, and be convinced.

A Soldier Killed.—A veteran soldier, A Soldier his country and fought the rebels for three years without a scratch, was struch down like a beast in the streets of Pottsville by the sabres of the streets of Pottsville by the sabres of beating his received. Poor thanks for serving his country so faithfully. Those serving his country so faithfully. Those who killed him never fought a rebel.

CHIRICAT-INAGES.—We have had the pleasure of its initial a quantity of gold received by Dr. J. C. Aver & Co., from Honduras, in payment for their medicines, which are extensively sold throughout Central America. Among massive crosses bracellets, and chains, are the ridde images which have been taken from the graves of the Chiriqui chiefs—birds, turtles; serpents, bugs and reptiles done in solid gold. They carry us back beyond historic times, to periods and places where the company reported appricals. They seem Andrew Jackson. Mr Blair then said:

"Under no possible emergency, not even in insurrection, or amidst the throes of civil war, can the Government justify official interference with the freedom of speech or of the press, any more than it can with the freedom of the ballot. The licentiousness of the tongue and of the pen is a minor evil compared with the licentiousness of the Chiriqui chiefs—birds, turtless serpents, bugs and reptiles done in solid gold. They carry us back beyond historic times, to part the simple said reptiles done in solid gold. They carry us back beyond historic times, to part the simple said reptiles done in solid gold. They carry us back beyond historic times, to garry us back bey too early graves. Ignorant and unlettered as they are, they have learned of the white mon enough to know where to apply for relief, and what will bring it. Our well known townsmen, above named, inform us that they require their remittances from foreign countries now to be made in silver and gold, Lowell Sentinel, Mass.
